Marion E. Shea, President

TO THE GRADUATES OF JUNE, 1963:

All over the country young men and women like you are graduating this month after having invested a part of their lives and a great deal of their energy and dreams in their colleges and universities. You who are graduated from Paterson State College should realize that your investment has been made possible through the generosity of the people of the State of New Jersey who have subsidized your education many times over in the belief that you will return to the public school children of our State the payment of your debt.

You have chosen to serve children and in assuming this responsibility you identify yourself with the "givers" of the world. Among your professors and your classmates you have identified the "givers" of self and substance, those who are happy when they contribute unselfishly to people and causes, who share their wisdom and understanding, who assume their responsibilities and unwaveringly meet the challenges of the thoughtless and irresponsible with firmness and candor.

In these last four years, we have watched your growth from uncertain and often unthinking adolescents to mature, responsible individuals intent upon assuming your rightful leadership roles as teachers and administrators in the public schools. You have demonstrated, again and again, your concern for the individual, your recognition of the role of the individual in the society of which he is a part, your pride in the college you have chosen, your desire to improve it in every way possible.

You will always be a measure of the success of this college. You have a responsibility to use the talents awakened here to benefit those you will teach and in so doing to bring honor to your Alma Mater.

You know what your college needs if your dreams and mine for the greatness of Paterson State College are to be realized.

In your four years, you have helped to build this college, you have shared in its "growing pains;" you have worked to supply actual physical needs; and you have brought sincerity of purpose and creativity of thinking to its major problems.

May you prove yourselves to be the finest young teachers we have ever graduated.

Sincerely yours,
MARION E. SHEA
President
