paterson evening news photo

nuestros amigos

the paterson state campus welcomed twelve mexicans this winter as part of the experiment in international living program. the nine women were made to feel at home in the dormitory and the men stayed at the paterson y.m.c.a., but joined the women for meals and tours, both on campus and off. they added to our spirit at a home basketball game with a cheer they composed, in spanish, for our players. the mexican visitors were snowbound for two days, but still found time to decorate a showcase in the library and to see our pioneer players in their production of the "imaginary invalid."

the farewells were numerous as the visitors departed for a five day tour of new york city. many friendships were established, addresses exchanged, and future visits planned.

in memoriam

dr. kent warner

the late dr. kent warner can best be described by this quotation by johann wolfgang von goethe:

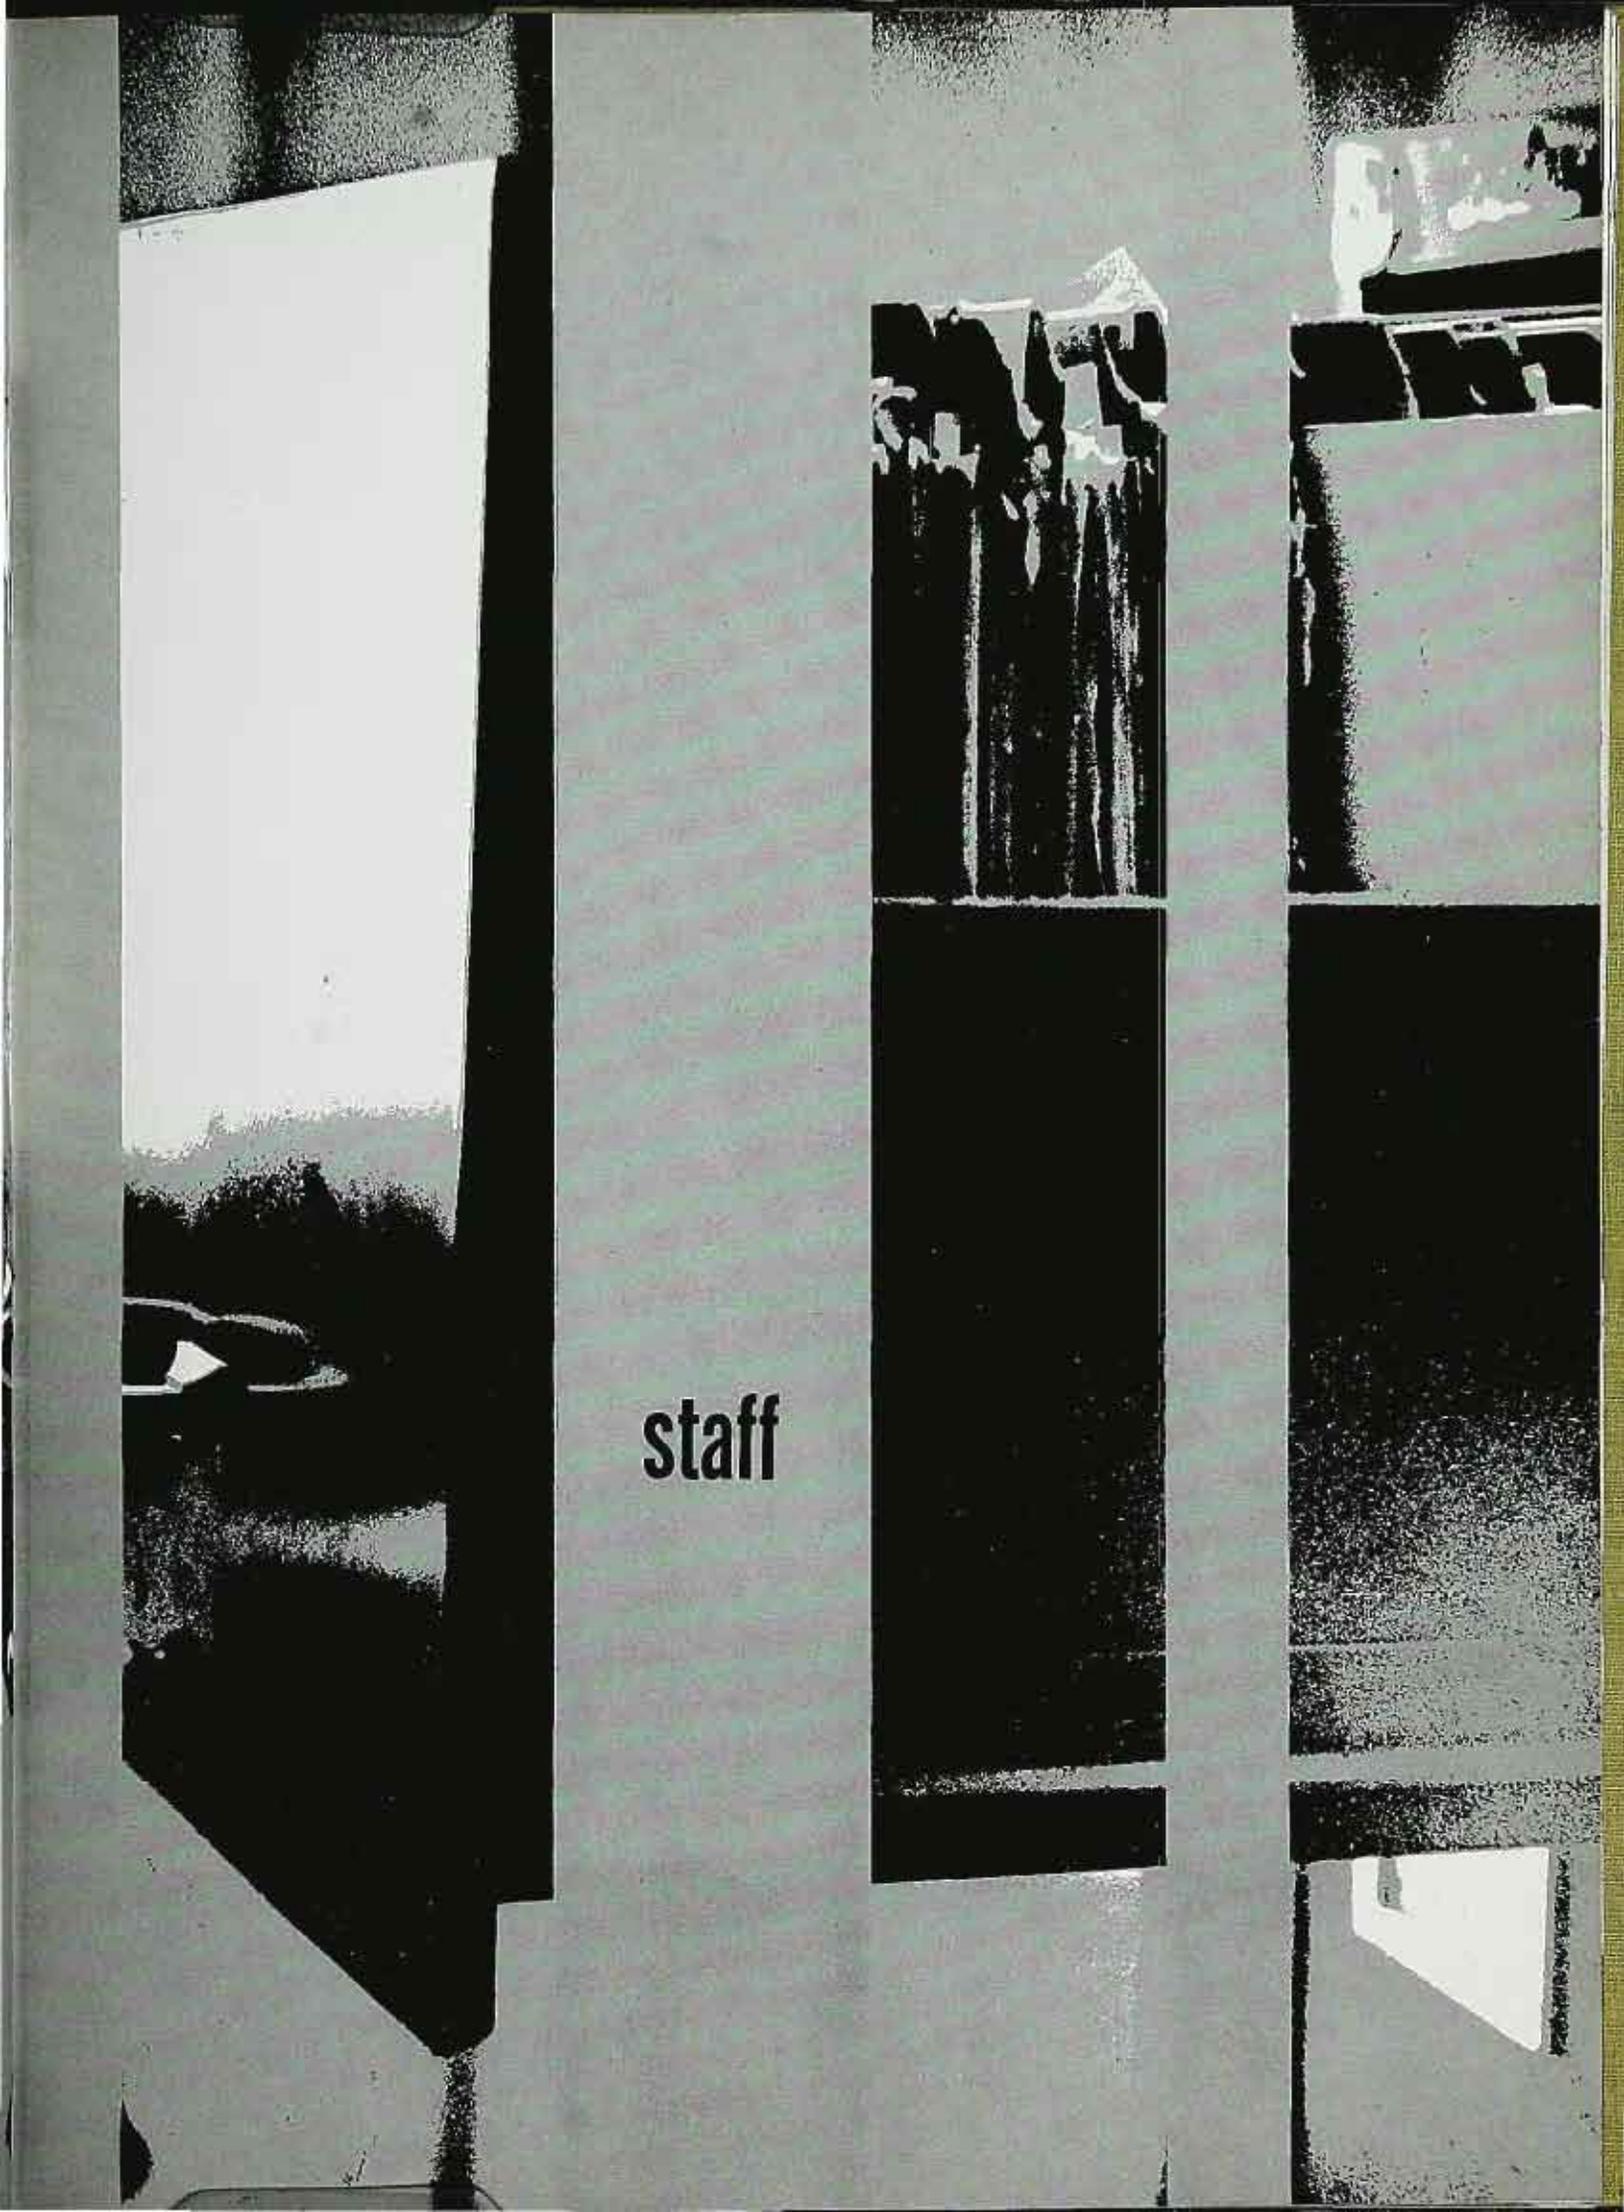

"a teacher who can arouse a feeling for one single good action, for one single good poem, accomplishes more than he who fills our memory with rows and rows of natural objects, classified with name and form."

we who had the privilege of studying under dr. warner felt the spiritual, as well as the intellectual curiosity which he possessed. his contribution to our educational growth and development will always be remembered. his philosophies and principles will stimulate us to gain the goals we seek.

administration

and

staff

marion e. shea, president

to the graduates

as the academic year draws to a close, i feel impelled to repeat to you five statements i read to you at convocation this past year, which might well constitute a code for each of you as you assume your first teaching position in september.

1. the strength of this great country lies in universal education with every child, every individual, given equal opportunity to develop his abilities and aspirations to the maximum degree under fully competent teachers.
2. teachers belong to a profession — this means that they are well prepared through a well-defined and recognized program of preparation to assume their responsibilities.
3. the public school is the vehicle for transmitting the essence of this democratic, pluralistic society of these united states, which cannot be matched or duplicated by any other institution on earth.
4. those choosing to dedicate their lives to the education of our succeeding generations in a democracy should be fully cognizant of the responsibilities which accompany the freedoms established under our form of government.
5. essential to all education is a sense of dedication, an interest in the individual, a selflessness which counts the other above self and personal gain and aggrandizement.

if you will study these statements and come to realize their import, you will undoubtedly grow into the kind of teacher whose impact upon those he teaches will be strong and good and lasting. this kind of person, the faculty and i hope you will become.

we welcome you into the great corps of those who gladly accept their role and their responsibilities to the children of new jersey. we trust that you will join the ranks of those highly professional teachers who give freely of their knowledge and time and energy and love, knowing full well that "those who give most have most left."

sincerely yours,
marion e. shea

john fitzgerald kennedy
november 22, 1963

the late president john fitzgerald kennedy's speech rose with an eloquence and force that made it a great inaugural address. it revealed a perception of history and a unity of thought, and it rang with a rhetoric rarely found in modern political statement. its impact on american citizens of both parties and on people everywhere in the world was immediate and impressive. it deserves to be called an historic document and to be remembered forever.

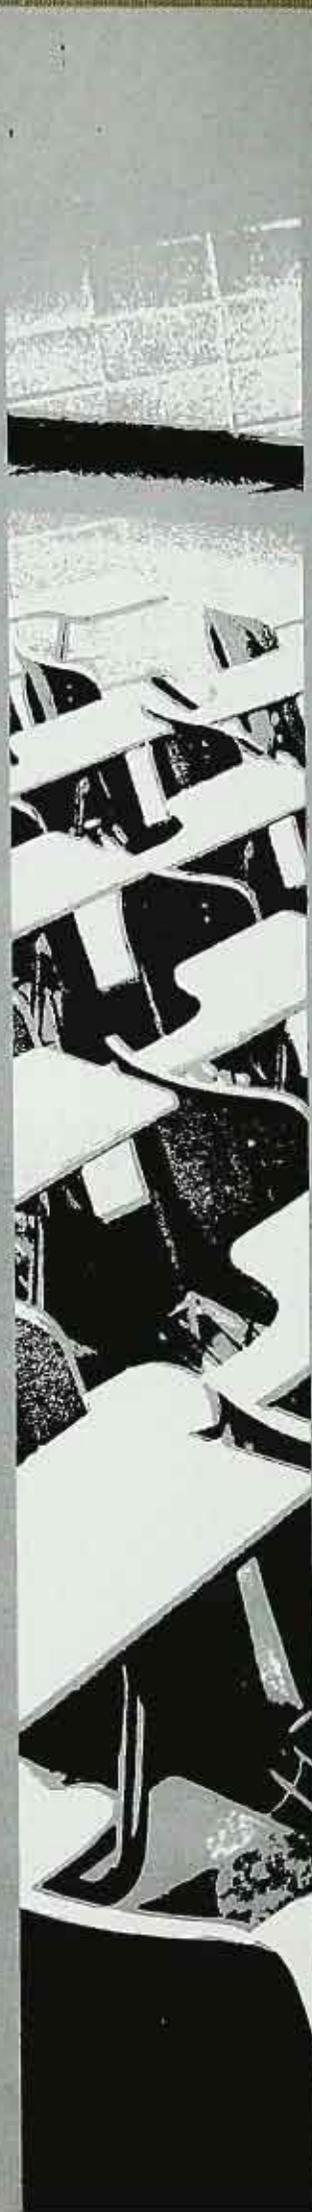

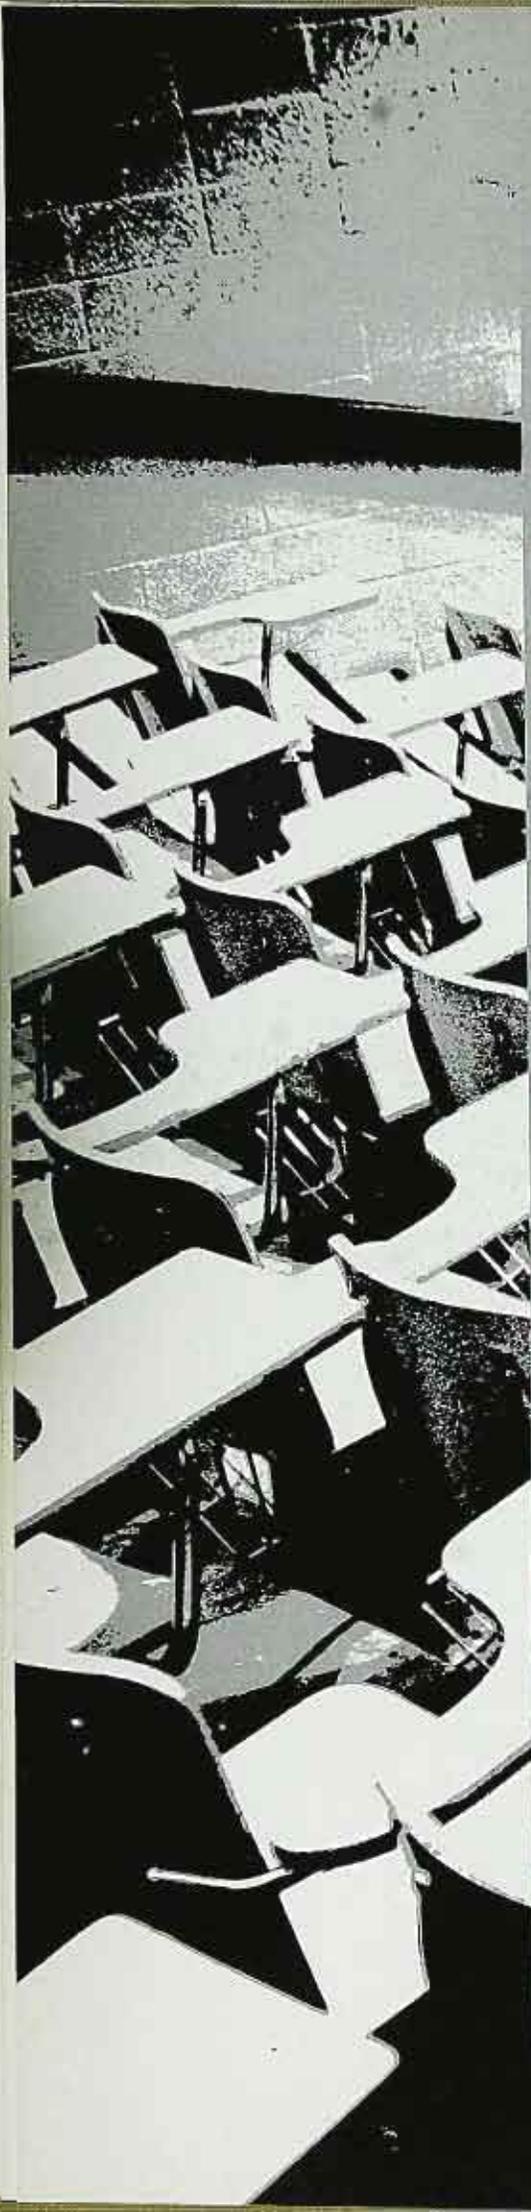

... the world is very different now. for man holds in his mortal hands the power to abolish all forms of human poverty and all forms of human life. and yet the same revolutionary beliefs for which our forebears fought are still at issue around the globe—the belief that the rights of man come not from the generosity of the state but from the hand of god . . . let every nation know, whether it wishes us well or ill, that we shall pay any price, bear any burden, meet any hardship, support any friend, oppose any foe to assure the survival and the success of liberty. this much we pledge—and more.

. . . now the trumpet summons us again—not as a call to bear arms, though arms we need—not as a call to battle, though embattled we are—but a call to bear the burden of a long twilight struggle, year in and year out, 'rejoicing in hope, patient in tribulation'—a struggle against the common enemies of man: tyranny, poverty, disease and war itself.

. . . in the long history of the world, only a few generations have been granted the role of defending freedom in its hour of maximum danger. i do not believe that any of us would exchange places with any other people or any other generation. the energy, the faith, the devotion which we bring to this endeavor will light our country and all who serve it—and the glow from that fire can truly light the world. and so, my fellow americans: ask not what your country can do for you—ask what you can do for your country. my fellow citizens of the world: ask not what america will do for you, but what together we can do for the freedom of man.

finally, whether you are citizens of america or citizens of the world, ask of us here the same high standards and sacrifice which we ask of you. with a good conscience our only sure reward, with history the final judge of our deeds, let us go forth to lead the land we love, asking his blessing and his help, but knowing that here on earth god's work must truly be our own."

athletics

w r a

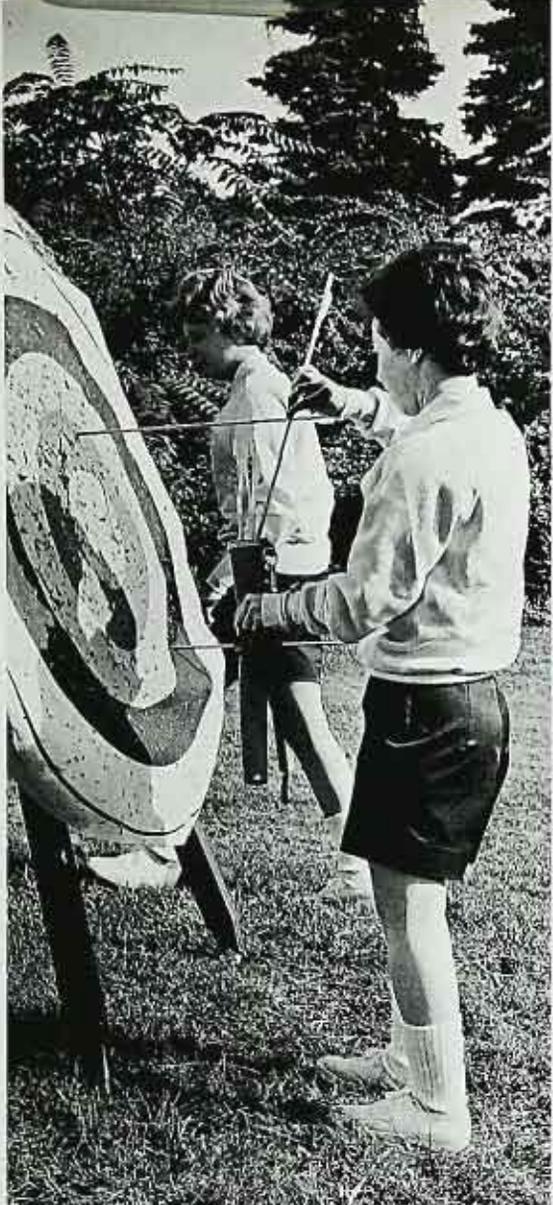

women students may become members of the women's recreation association by participating in any activities offered. the activities include modern dance, volleyball, basketball, softball, badminton, golf, tennis, archery, and bowling. active members participate in sports days, play days, workshops, and dinners with other colleges in new jersey and adjoining states.

members receive special recognition through awards based on performance and activities. this includes eligibility to wear the official gray blazer. at the annual banquet in may, awards are distributed to those girls who have been active participants throughout the year. these awards are presented on the basis of an established point system.

the paterson state varsity cheering squad has won first place in the metropolitan inter-collegiate cheering competition in the years 1961, 1962, and 1963. selection of the cheerleaders is based on enthusiasm, interest, ability and personality. only junior varsity cheerleaders are eligible to try out for the varsity squad.

junior varsity cheerleaders

the junior varsity cheerleading squad is in its fourth year, and provides the necessary spirit and encouragement at the junior varsity basketball games.

intramurals

wilbur meyers, coach

the intramural program provides an opportunity for men who do not participate in varsity sports, to compete for team trophies within the confines of the college. the yearly program consists of football, basketball, cross country, and softball schedules. the competitions are held during the weekly activity periods, enabling participation by anyone who is interested.

student government association

every member of the student body belongs to the student government association and is represented by an elected group, the general council. activities are carried on in considerable part through standing committees. some of these committees are designated as spending agencies and are allotted annual budgets from the student service fund.

the student government association plays an important part in campus assemblies and in sponsoring various on campus clubs and organizations.

experiment in international living

pat carson
argentina

len lakson
sweden

the experiment in international living selects college ambassadors who have a sincere desire to contribute personally to international understanding. by sharing family life abroad for four weeks, these students exemplify what an american community and campus produces. they have shown leadership, initiative, intellectual curiosity, and adaptability. abroad, the students learn that the basis of a nation is its family and its culture. following the four week family stay, the students travel with their groups, bringing with them for approximately one week, a member of the family they had lived with. returning to the campus, these students share their summer experiences with the student body. during the summertime and the school year, experimenters from other countries are welcomed to the campus.

carnival

the all-college carnival was a tradition of paterson state college. this year's graduating class joined in the combined efforts of the total student body in preparing skill booths, food booths, and various shows which vied for prizes which were awarded during the annual award's assembly. the carnival was held in the gym each spring around the first week in may, lasting from friday night until midnight, the following evening.

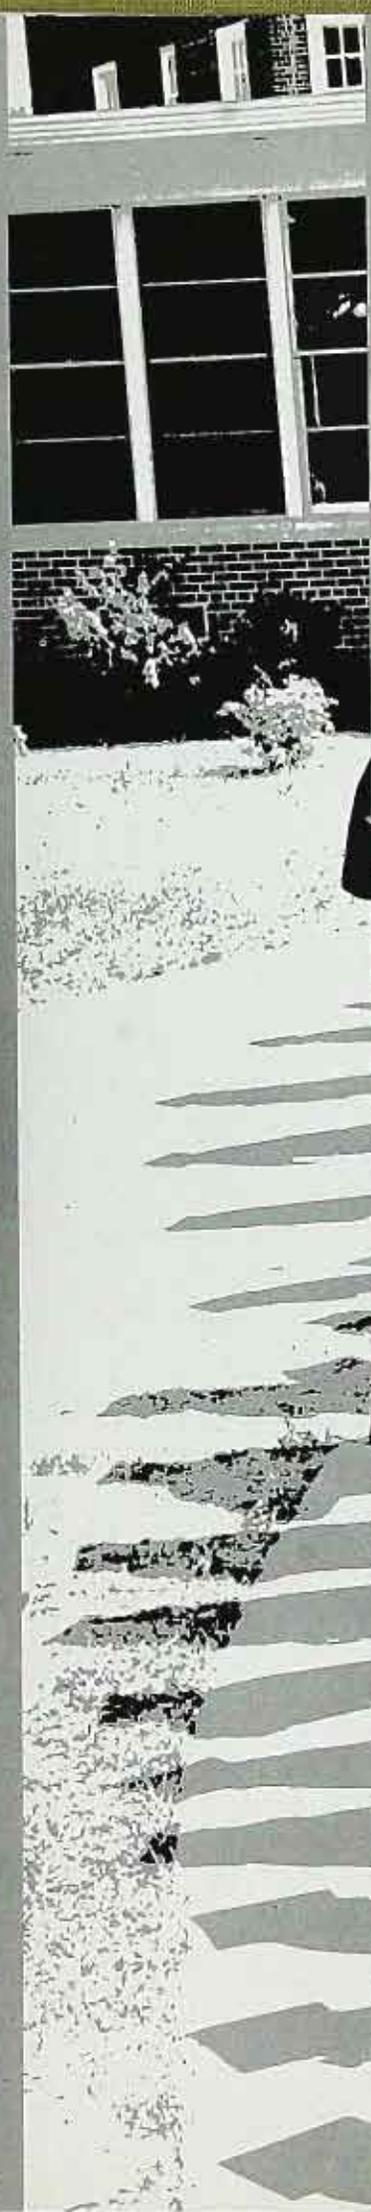

schaffer playday

all members of the paterson state college community, their families and friends, traditionally journey to bear mountain each spring. buses, and then a boat carry the travelers to their destination where the informality of the day leaves everyone with a feeling of closeness to fellow students and to their college. this event officially closes the school's social activities for the year.
