

Alumni Singers Present Annual Spring Concert

Gordon String Quartet, Guest Artists On Evening's Program

The seventh annual Spring Concert of the Madrigal Singers will be held on May 22 in the College Auditorium. Under the direction of Earl Weidner this promises to be one of the season's outstanding events. This will be the first spring concert directed by Mr. Weidner who conducted the organization in its last Christmas success.

As an added attraction, the Gordon String Quartet will play Tschaikowsky's "Andante Cantabile" and Beethoven's "String Quartet". The Madrigal group of thirty-five singers will render such numbers as "Flow Gently Sweet Afton," "Adieu Sweet Amarillis," "Fire, Fire My Heart," "Carmena Waltz Song" and special arrangements of Bach Chorales and Negro Spirituals.

The concert will begin promptly at 8:15. Tickets can be obtained from any member of the organization or from Mr. Weidner. The price is 50 cents.

This organizations was organized by Mrs. E. M. Money-penny six years ago. It is primarily an alumni organization although a few upper classmen belong to it. Most of the members are those who have taken an active part in the musical productions of the college. Their purpose is to sing for their own enjoyment and to present to music loving audiences enjoyable concerts. Membership is attained by passing certain music tests.

Gala Program For Shaffer Play Day

The Social Committee has been working hard on a program for Shaffer Play Day that will please everyone and that will cause you to return home after the day is over with tired body, aching bones and muscles, but with light and happy hearts.

The buses will leave the college at 9 a.m. and if all goes well we should arrive at about 11 o'clock. Then from 11 o'clock through 12 o'clock, the students will indulge in a much-needed lunch which will be followed by the Inter-class baseball games. Then those who desire may go swimming from 2 until 5 o'clock. After swimming comes an appetite, as we all know, therefore supper will follow swimming. This will take from about 5 o'clock until 6. There will be dancing from 9 through 11 o'clock. The first bus will leave Rye Beach at 6 o'clock, followed by the others, one at 8:30, the last one at 11:30. Well, it looks as though the Social Committee's efforts were not futile and the day is going to be a big success. One last word, don't miss the last bus, or you will be compelled to walk; it's quite a hike.

College Shows Club Activities

This year's annual Guest Night was held at the College on Wednesday evening, May 15. The theme of the program was the regular, everyday workings of the student activity program. This was carried out by giving the parents an opportunity to visit a regular meeting of each of five clubs: Business Club, Art Club, International Relations Club, and the Mixed Chorus. A group at work at etching, leather work, painting, and other activities presented an exhibit in the art room of the kind of work done by the students this year.

The International Relations Club held a regular meeting for the benefit of the guests in which Eleanor Wild reported on the conference held on April 12 which had as its theme, "Inter-American Relations." The other clubs presented typical meetings of their groups.

The Business club held its regular meeting on guest night. A resolution was passed by the members present that the club sponsor a campaign to keep the United States out of war. Emanuel Raff spoke on the corruption and inefficiency of County Government in the United States.

The members of the Art club were busily engaged doing finger painting, charcoal sketches, weaving and painting. A film of puppet plays was shown later in the evening.

A technicolor movie of the West and of the New York World's Fair was shown at the meeting of the Geography club.

After the club meetings, the guests assembled in the auditorium for an hour and a half program.

Nick Beversluis played some incidental music on the piano before the warm welcome extended to the audience by James Houston. This welcome was followed by the presentation of a rose to each guest by members of the P. and Q. Club.

Dr. Wightman spoke for several minutes before the programs given by clubs that weren't represented earlier in the evening. He gave many facts about the increase in the enrollment of Paterson State during the past few years. Dr. Wightman expressed the desire that is within the students and faculty alike, namely that the College will have a new site in the near future to accommodate the increasing number of students each year.

The Science Club and Beacon Staff then presented amusing skits that were written, produced and enacted by the members of those organizations. The Beacon skit was entirely ad-libbed. The Psychology Club and Madrigal Singers then performed for the audience.

(Continued on Page 4)

Speaker to Discuss Good Will Month

Dr. Arthur M. Harding, Astronomer, will speak in the assembly on Wednesday, May 22. Dr. Harding is a member of the University of Arkansas faculty and is widely known as a speaker on astronomical and educational subjects.

Astronomy is his hobby. His non-technical presentations of this fascinating subject have proved popular with audiences in every section of the United States. Dr. Harding has written many articles on his hobby and has recently written a book called "Astronomy—The Splendor of the Heavens Brought Down to Earth." The book became immediately popular and is now in the fourth printing.

For the assembly of Monday, May 27, there will be a speaker from the Good Will Committee of Passaic County. He will discuss Governor Moore's proclamation declaring May as Good Will Month and May 18 as Good Will Day.

Graduation Plans Near Completion

Achievement Day Program Highlights Commencement Week

Plans for activities to conclude the school year are nearing completion. These concluding activities will be introduced with the senior ball which will be held May 29 at the "White Beeches" in Haworth.

On Sunday evening, June 9, the Baccalaureate service will be held in St. Paul's Church on the corner of Broadway and Eighteenth Street. Rev. William Griffin will be in charge of the service.

The Achievement Day program will be held on June 13 in the College auditorium. The main speaker will be Eugene Ferraro, a graduate of the college, who was recently appointed head of the social studies department in the new Regional High School at Little Falls. The program which will begin at 10 a.m. will include the awarding of Achievement Certificates indicating the successful completion of two years of college work to seventy-five sophomores; letters and awards will also be given at this time. Class day will be held in the afternoon of June 13. The program at this time will feature the reading of the class history, class will and prophecy, and other activities of interest to the Senior and Junior Classes.

The date set for Commencement is June 14. This year it will be held in the college auditorium beginning at 8 p.m. The commencement speaker will be Dr. Albert L. Rowland, president of the State Teachers college at Shippensburg, Pennsylvania. At this time Bachelor of Science degrees will be awarded to approximately forty-eight graduated seniors and to twenty teachers in service who have completed their work as part-time students.

State Defeats Montclair 4 to 3 For Second Time

Debating Squad Wins State Title

Paterson State has a championship debating team! The debating team took 7 out of 10 matches to win the Eastern States Teachers College Forensic League cup. (The cup must of necessity be a large one, for the engraver needs space to get the league's title in.)

The question that the League isolation as a means of keeping debated was that of American the nation out of war. Each college team had two divisions, an affirmative and a negative. Within these divisions, both the negative and affirmative consisted of two constructive speakers and a rebuttalist. The procedure was to permit each of the constructive speakers to deliver their debates, have the rebuttalists cross-examine each of the speakers, and then present the rebuttals.

Paterson's negative team proved to be the strongest in the league and State's reason for victory. It never lost a league debate during the season. Beatrice Lapitsky and Wallace Reid were the constructive speakers; Aaron Rubin and Robert Kantor shared the rebuttals.

Andy Pedata, Michael Lobosco, and Paul Schneider rounded out the full debating team by handling the affirmative debates.

The League rules that should any college retain possession of the trophy for three successive seasons, that college automatically retires the cup. Last year Trenton won, but since it failed to repeat its victory, its team must again repeat from scratch.

In this respect Paterson is much more fortunate. Three of State's winning combination are Sophomores and one is a Freshman. All have at least two years left and Paterson needs only two more successive years.

Mr. Thomas, faculty adviser of the Debating Club, coached the champs.

Girls Attend Archery Contest

A group of would-be cupids from Paterson State participated in the New Jersey Interscholastic Archery Tournament which was held at Newark on May 11, 1940. Montclair State Teachers College captured both the prize for the highest individual score, which was a gold trophy, and the award for the highest group score. The prizes were awarded by William Uhler at a banquet given after the tournament. The following girls accompanied by Miss Lillian Hopper, represented Paterson State: Jean McAlevey, Edith Morris, Marion DeLazier, Betty Barton, June Bohren, Jean Matison, Jeannie Ludzkow, and Dorothy Bundy.

Jankelunas Repeats Former Victory; Pioneers Play Errorless Ball

The Paterson State Pioneers made it two in a row over the Montclair "Indians" yesterday defeating them by a score of 4-3.

Capitilizing on a big four-run first inning, Dan Jankelunas pitched six-hit ball and never was in trouble until the ninth. The game opened with Romeo DeVita pitching for Montclair. Seymour Pollack and Lou Sirota walked. Pollack stole second and advanced to third on a passed ball. Archie Hay singled scoring Pollack. Morris Pressman went to first on an error by Steinetz with Sirota scoring the second run. Elmer Ramsey reached the initial sack on a fielder's choice, Hay being thrown out at third.

DeVita was replaced at this time by "Chick" Chiardi. Chiardi promptly hit Jankelunas filling the bases. Hy Miller came through at this point with a single to right field, scoring Ramsey and Pressman. That was the end of Paterson's scoring for that inning and the rest of the game.

From this point on Dan Jankelunas held the Indians down to two hits and one run. In the third inning Grarch walked, advanced to second on an infield out and scored on Hughes' double to right field.

In the ninth Montclair threatened to take the game with a two-run flurry. Three hits and three walks gave them their two runs. With bases full and the

Seniors Guests Of Undergraduates

Formality will keynote the Senior Ball which will be the last dance of the school year. At this time the Freshman, Sophomore and Junior classes will combine to give their farewell to the Senior class. The place chosen by the committee representing these three classes is "White Beeches" in Haworth, New Jersey, and the date, Wednesday, May 29.

Music for dancing will be furnished by Dell Davis and his Orchestra from 9 p.m. to 2 p.m. Following last year's procedure, a photographer has been secured to take pictures of each couple as they arrive. This feature which was initiated last year was greeted with such all-around interest that the committee decided to include it once again.

Refreshments consisting of sandwiches, ice cream and coffee will be served at a late hour. The price of bids has been set at the nominal fee of \$2.50.

"White Beeches" will be remembered as the scene of the Junior Prom. For those who do not know the way, maps will

JULIETTE TRAINOR, Faculty Adviser

THE FUTURE OF STATE

There is no immediate issue at hand which prompts discussion on the future of our college. However, I have heard opinions expressed concerning the possibility and plausibility of discontinuing "State". The reasoning behind this expression maintains that there is not the need to maintain a teachers college in Paterson, Newark, and Jersey City. These three colleges could be combined into one college located at one of these places but preferably not Paterson.

This plan, undoubtedly cuts the state's expenses and probably would necessitate the construction of a bigger and better college.

From a personal standpoint, we rebel against this plan. For years Paterson State has successfully fulfilled the educational needs of northern New Jersey throughout Sussex and Bergen counties as well as in Passaic County. Paterson is centrally located in northern New Jersey with respect to its population. If some new plan should be considered, I hope that it will be the creation of a new Paterson State located somewhere in Paterson or in its outskirts, with the purpose of increasing and extending the opportunities already present in our institution.

Those of you who attend Paterson State's Annual Guest Night will agree that the affair was a great success. Both the individual programs provided by the respective clubs from 8:00 to 8:50 P. M. as well as the program presented in the assembly by the cooperative participation of several of the college's organizations combined to provide a very representative performance of student activities.

While we are on the subject of college activities, permit us to call your attention to the accomplishments of our baseball and tennis teams this year as compared with records of other years. Our tennis team recently acquired two victories, one from Glassboro and the other from Rutgers College of Pharmacy. Here's to more victories for our tennis team! Take notice also that our baseball nine beat Montclair for the second time, Monday afternoon. Our baseball team has a .500 average having won as many games as they lost. Show the team it has our support by attending the home games.

Following the idea of student activity and school spirit, permit us to caution you, as we have on several occasions previous to this, on conduct in the library. Complaints have once again been coming in about excessive noise in the library. Out of consideration for others around you and for the library staff, we ask you again to save your conversation for some place other than the library. More rigid supervision is sure to be the result if students do not remedy the situation themselves.

We would like to discuss one other matter which we feel is of special importance to all students at State. As you probably recall, our president-elect of the S.G.A. in his campaign platform, indicated that he was of the feeling that the furniture in the social room and the smoking rooms was inadequate and that it might be possible to replace it with new and more practical equipment. It isn't necessary we think, to circulate a questionnaire or the like to find out how the students feel about this matter of new furnishings. Of course we would like to see our social room and smoking rooms equipped with modern furniture! The next question which immediately arises is that of taking care of this new equipment if we do get it. If we consider the care with which we used the furniture we have, all will agree, we believe, that a vast change for the better will have to be shown before the idea of new equipment can seriously be considered. Without a definite change in the way the students use the chairs and tables, buying new ones would really be futile. We suggest, therefore, that the student body show the council in their actions, that refurbishing the social and smoking rooms would be a worthwhile undertaking, duly appreciated by the students, rather than just a foolish waste of the student's money. Think it over and put yourself in the Council's place. What would you do?

Swiped, Pilfered and Stolen

Where's the mizzen mast on a ship?

I don't know. How long's it been mizzen?

—Varsity.

Halitosis is a curse,

Which on us all doth fall.

But I would rather have this curse,

Than have no breath at all.

—Co-No Press.

Christopher Morley has said that high heels were invented by a woman who was kissed on the forehead.

—Co-No Press.

She: "My husband certainly does enjoy smoking in his den. Has your husband a den?"

Other She: "No, he growls all over the house."

FOOLOSOPHY:

The best way for a girl to keep her youth is not to introduce him to other girls.

—Record.

He who laughs last sits behind a tall, fat man at the movies.

A chip on the shoulder indicates there's wood higher up.

Some girls are like corks: some will pop the question; others have to be drawn out.

—Winonan

ADD DAFFYNITIONS:

Lyric—Sneering expression.

Nudist—A man who doesn't wear a vest with coat and trousers to match.

Salt—That which without potatoes wouldn't.

—Montclarion.

"In the spring a young man's fancy—"

"Is he?"

—Montclarion.

QUIET IN THE LIBRARY!

Beginning with Tuesday, May 21, 1940, the Reference Room of the Library will be kept absolutely quiet, except for necessary talking to librarians when requesting assistance in finding material. Any visiting or unnecessary talking in the front Reading Room will also be stopped and students who fail to cooperate with this request will be asked to leave the Library. Faculty members will be expected to comply with the same rules.

Notices

Candidates for degree or two year achievement certificates are urged to see that their records are clear. There should be no incompletes or failures not made up. All candidates are required to give a picture for their permanent record cards. Please consult list of candidates which will be posted on the main bulletin board. Any question should be taken up with Mr. White immediately.

* * *

Seniors are reminded to turn in the publicity sheets to Miss Trainor as soon as possible. All sheets must be turned in.

Lost: Wednesday, a Waterman fountain pen, blue, pink, and grey. Sentimental value. Will finder please return to Agnes Hoey, c/o Bookstore.

SHE'S GOING TO THE SENIOR BALL

..THE FORUM..

The most important part in the training of the prospective teacher is the practice teaching period. This includes a period of observation which should be particularly valuable. Unfortunately the value of the observation is often lost because the students are not sure just what to look for.

If the students were allowed to try to teach three or four lessons at the end of their first week of observation, they would know exactly where their difficulties arose. They would then be aware of how the teachers they observed met these and similar problems. The following two weeks of observation would then give them a really valuable foundation for the following six weeks of actual practice. The last week of the period might very profitably be spent in observation. All this, of course, refers to the practice period in the junior year which it seems to me should come in the first half of the second semester so that their questions may be brought up and answered in their theory courses.

The senior practice during the entire first semester might very profitably be divided into two periods with two weeks observation at the end of each. With periods as long as this, the students would have a chance to get a real taste of teaching with all its problems and pleasures.

—AGNES DECKER.

I think the experimental practice teaching program worked out very nicely. Although thirteen weeks of actual teaching is not too great a time to be in the field, I believe that in most instances everything worked smoothly. I think however, that the program could be improved in some ways. I believe that actual teaching should be done both in the third and fourth years. The period of observation in the junior year seems to be isolated from the actual practice teaching in the senior year.

I also believe that provision should be made for each student to experience a part of his program in a suburban school, since different types of problems arise there than in the city.

—LEO CLARKE

The return of the experimental seniors to college completes the teaching practicum program for all seniors. The regular teacher-education seniors completed their practice program last November while the experimental seniors taking all their practice in their last semester have recently returned to resume college work.

Some of the seniors have been willing to offer their suggestions and evaluations of the practice teaching program.

"If I had an opportunity of beginning college all over again, I would not hesitate to enter the Teacher-Education Department. It isn't because I didn't enjoy my first two years, but because I realize exactly what I have missed. The Teacher-Education students have been getting all the essential techniques over a period of four years, while the General College students have crammed all the possible techniques necessary over a period of two years.

"This has been proven to me during twelve weeks of practice teaching. I found that teaching is not only knowing your subject matter and exercising some common sense, but also the weaving of basic skills which seemed so unimportant when taught to us.

"If it were at all possible, I should think that by giving the Juniors from the General College some practice teaching during their second semester, it would tend to locate weaknesses and then in the theory courses iron them out." —ANDREW PEDATA

Personalities

By TOM VIGLIONE

We bestow the honor of the inauguration of this new column on James Houston, more commonly called "Jimmie."

Jimmie began his schooling at Grammar School No. 14. Upon finishing his elementary education he entered Central High. During the years that Jim attended Central the name of the school was changed three times. First it was known as Paterson High, next it was changed to the Paterson Boys High School, finally when East-side was completed, the name was changed to Central High; so you see Jim's education is significant in as much that he attended three high schools at one and the same time. While at Central he was a member of the Varsity Soccer team, and the school Track team. His interests, however, were not entirely athletic. He was a member of the Spanish Club. He graduated from Central with the Class of '29.

After graduating from Central, Jim thought his brain deserved a rest so he decided to go to work for a time. He gained much valuable experience by not holding one position too long. He worked in the Wright Aeronautical Corporation for a time; then he tried photo engraving. His next interest was printing and direct mail advertising. After a time he again switched to still another, that of a shipping clerk in a department store. He also had the unique experience of working on a tramp steamer. It was while in this position that he did much traveling. He has been in many of the ports and cities of Europe where at present there is conflict and strife.

Jimmie finally decided that it was high time to get back to school, so he enrolled at State in September of 1936.

It seems that his idea "to give his brain a rest" was a good one, because now we shall see what he has done at State. He was the Editor-in-chief of the first BEACON to be published in our school, and thanks to his business concept and executive ability the BEACON is still going strong. We next find him vice-president of the Student Government Association. Finally the student body, confident in Jimmie, gave him their support and he is at present the president of the S.G.A. His interests, however, are not purely business; he likes music and is a member of the Men's Chorus, and the Madrigal Singers. He has taken part in the various Operettas that have been given in the past. You would think that all these activities would be enough, but not for Jimmie. During the Summer he drives a laundry truck, and during the Easter vacation and Christmas vacation he works in a department store downtown.

SENIORS GUESTS

(Continued from Page 1)

be posted around the school. The Senior Ball is unique in that it is the one social event of the year at which there is a receiving line. Among those on the receiving line will be Dr. and Mrs. C. Wightman; Miss Jackson, and the President of each class including Victor Christie, Bernard Seigal, Louis Sirota and Charles Lyons.

Lowdown On The Highlights Of Senior Trip

Washington was not the same place during the Seniors' stay there. Just in case you're interested, you might consult the Seniors about the following:

What is it about Washington that brings out the bloom of the shy, retiring violets?

Why was Anthony P. Barbarito so attached to the Annapolis Hotel?

Why did Paul Schneider have to be torn from Room 907?

Why does "Pedoodle" want to be an elevator operator in the Empire State?

Who was Marion Voellmy's date at Annapolis?

What was so attractive about the outside of the hotel in the late hours of the evenings?

Who won the snoring contest, Mike or Andy?

Who sees all, even while sleeping?

Why did Marge Beatty have trouble getting into her room during the wee hours?

Since the Washington trip Ruth Kaufman has an ever-increasing interest in birds.

Alice M. got much material for her term paper.

R. F. Schreck put on a fine entertainment every morning.

SEEN TOGETHER MUCHLY:

Ann Fedora and Court Guyre.

Ruth Barton and Gus Fremer.

Flo Hundertmark and Eddie Phillips.

Sylvia Briefstein and Izzy Lander.

Alice McGuirk and Paul Schneider.

Jane Sadler and a Wishful Thought.

Betty Morris and Who do you think?

We hear it was quite drafty in the hall Tuesday night, eh Eddie?

Fashion Note—Mr. Williams and Jimmie Houston modeled the latest in women's millinery.

Did Mike finally get that snapshot of Lincoln? He went to the Lincoln Memorial four times for it—or for something else?

Why did Catherine Rello want to leave the girls Sunday night?

Frat & Sorority

The annual elections of the Skull and Poniard Fraternity will take place at the home of Brother Danheuser on Monday, May 27.

James Houston and Emil Cavilini have been nominated for the post of master.

James Todd, Andrew Pedata, Charles Spinosa and Edward Phillips were nominated for deputy master. Charles Spinosa, Ralph Smith and Robert Alexander will run for scribe. Nominations for funds master are Courtland Guyre, Leo Clarke and Ralph Smith.

The plans for the annual stag banquet were discussed. It will be held at the Sundance Lodge on June 10. A softball game will precede the affair.

Zeta Kappa Chi held its regular monthly meeting in the social room of the college Monday, May 13, 1940. The scrapbook of baby pictures was shown. New officers were elected. They are the following: President, Mary McGuirk; Vice-President, Rose Sandell; Secretary, Barbara Stouter; Treasurer, Eleanor Wild.

Netsters Gain Two Victories

For the first time in over ten years a State tennis team has been victorious. Out of five matches so far this season, the Pioneers have won two very tough games and lost three by a close margin. Their boys have put up a very good fight and deserve to be commended.

The team coached by that eminent coach "Doc" Hartley and under the leadership of Seymour Schiffman, manager, and Jerry Zwerdling, captain, is really going places. The squad has been paced by Dave "Sonny" Ebner who has won all but one of his games. Not far behind Sonny are Bernie Siegal and Steven Murko. The other members of the squad Jerry Zwerdling, Al Bozzo, Sanford Levy and Gus Fremer are right in there also, not far behind.

Glassboro State Teachers College and Rutgers School of Pharmacy were the two victims of State's slashing racquets. Glassboro was taken over to the tune of 4-3 and Rutgers to the tune of 5-2.

The remaining matches to be played this season are as follows:

Seton Hall—May 21.....Home

Montclair—May 24.....Home

Jersey City—May 28.....Away

Jersey City—May 31.....Away

Complete Staff For Camp Chosen

Hartley To Be In Charge For Second Year

A staff of unusually high calibre will direct the activities at the 1940 camping institute. Heading the camp again this year after a most successful initial season, William Hartley will be supported by a group of five. Three members of the staff are returning from last year, with two newcomers to complete the faculty.

Miss Angela Scancarella will return again this year to take over dramatics and music. Miss Scancarella also is in charge of the evening programs. These programs were very popular and very much enjoyed by those who participated.

The man in charge of athletics needs no introduction to the students of Paterson. It is the ever popular coach, Henry Schmidt. The program consists of a variety of camp games and athletic activities.

Miss Harriet Graham, a newcomer on the staff, will be in charge of swimming. Miss Graham is an outstanding woman in her field. She is the instructor of swimming in Columbia Teachers College.

Swimming classes will be open to swimmers at all levels of proficiency. There will be opportunity provided for the passing of various Red Cross tests.

The nature course will be handled by Mr. Fred Slicker. Students of State know Mr. Slicker for his interesting talks in the assembly and to the Science Club.

Students are urged to send in their applications early as June 10 is the deadline. The enrollment is limited and application are coming in from the many teachers colleges in the state. A bulletin may be obtained from the office or from Director Hartley at the college.

.. THE SPORTLIGHT ..

by CHRIS BOLLERMANN

The State Track Team, represented by only six men, was set back by a strong Montclair squad, 71 to 25. Every Montclair man, with the exception of their colored ace, Tom Flagg, competed. After the meet Coach Schmidt decided to withdraw Paterson from the big Class B college meet which was to take place the following Saturday. It happened that two of the competing colleges in that meet failed to score a single point while Flagg won three events for 15 points.

For a time it appeared that the track team would be broken up but the latest word is that Tom Cunningham is angling for a meet with Bergen Junior College. The advantages of having a track team at State would easily outweigh the disadvantages, especially since track is so inexpensive. At this writing a lot of fellows feel that another effort to introduce a third major sport to Paterson has failed, but if we schedule small colleges such as Jersey City and Morris County Junior we should be able to maintain a track team.

Ralph Smith has informed us that we have a tentative basketball game with the University of Mexico next season when that team tours the eastern states on a good will mission. L. I. U. and Panzer have also been signed up for next year. Just further examples of increasing prestige. A few years ago hardly any out-of-

staters had heard of us; now we are respected by sport fans at Hyannis, Becker, New Britain, etc.

We are glad to hear that the tennis team has improved so much since last year. Here's hoping they keep it up.

Apparently Coach Schmidt has hit upon a happy baseball combination. By shaking up the team the coach had its first errorless defense to show for his efforts.

Well-informed sources tell us that the team's attitude has taken a step toward the better since the lineup has been reshuffled. Incidentally, Lou Sirota leads the team in batting.

Now that the Yankees are in the American League cellar a lot of their former backers are rooting for Boston, Cleveland, or Detroit. It seems that only Dodger fans stick to their team through thick and thin, but even Brooklyn fan have increased since the team's rise to National League heights. Walt Allan still stays with his Cardinals.

Several chess players have requested us to campaign for the return of their dimes, as the chess tournament has never been completed.

The Sophs have just taken the Freshmen into camp in softball, 7-3, evening their series at one-all. In their previous encounter the Frosh, with a winning combination in the field, shut out In-fald and Co., 5-0.

State Bows To New Paltz, 10-2

Paterson State dropped its fifth game in eight starts last Saturday, losing to New Paltz by the score of 10-2.

Gus Lillberg pitching for the New Paltz nine held the Pioneers to two hits. Seymour Pollack beat out a bunt in the first inning and Dan Jankelunas doubled in the third. Pollack scored in the first inning by stealing third and coming in on an error by Russo of the visitors.

The third inning proved to be the disastrous one for Paterson. Watkins of New Paltz started the barrage with a double and scored later on an error. This was the signal for the fireworks to begin. A home run and four errors followed to give the visitors six runs and clinch the game.

Score by innings:

New Paltz -- 1 1 6 1 0 1 0—10

Paterson ---- 1 1 0 0 0 0 0—2

Lillberg and Chase; Jankelunas, Nellis and Hall.

M.S.I. Routed, 15-7 Langstaff Wins 1st

Bill Langstaff hung up his first victory of the season on May 7 as the Pioneers took the measure of Manhattan of Staten Island, 15-7.

The game was close until the seventh inning when Paterson sent eleven men to the plate, seven of whom tallied. The climax came when Morris Pressman, who played second base, tripled with the bases loaded. Pressman also got a double and single in four times at bat to pace the State attack. Bender pitched two innings, allowing two runs on only one hit.

State Crushes Morris County

The Pioneers evened their score with Morris Jaycees last Tuesday by trouncing them by the score of 12-1.

Mr. Schmidt took drastic steps and changed the lineup by benching Fisherman and Miller. Morris Pressman played first base and Dan Jankelunas patrolled right field. The shake-up bolstered the infield and for the first time this year Paterson played errorless ball.

Bill Langstaff made it two in a row for himself by holding the visitors to six hits in as many innings. Don Nellis relieved Langstaff in the seventh and pitched one-hit ball for the three innings pitched. This was the first real test Nellis has had this season.

The pitching was backed up by a barrage of sixteen hits. Paced by Lou Sirota, who hit safely four out of five, and Ben Schutz, who collected a triple and two singles, the team reached a new high in the number of hits in a single game.

The second inning proved the undoing of Morris County. Eight hits and an error accounted for seven runs.

Jankelunas opened the inning with a single and advanced to third on an error. Schutz tripled, scoring. Jankelunas, Don Hall walked and Langstaff singled, scoring both Hall and Schutz. Dave Phelps, Morris County pitcher, was hit by Langstaff's line drive and was forced to retire from the game.

Successive singles by Pollack, Sirota and Hay accounted for three more runs. Ben Schutz hit safely for the second time in the same inning scoring Hay.

Morris Jaycees threatened in the sixth but collected only one run on three hits.

Students Answer With A Big 'NO'

China And Finland Win Moral Aid

Should the United States intervene in the German-Allies War was answered by a decided "no" by the majority of the students in a poll of student opinion and attitude on present international conflicts conducted by the sociology class, Miss Jackson, instructor. There was a total of 119 answers to the poll.

There was a divided opinion concerning whether the students would fight if the United States were to declare war. Forty-one would wait to be conscripted; twenty-six would volunteer their services, but twenty-nine would absolutely refuse to fight. However, 87 would like to see the Allies win and only 6 would like to see Germany win. It is interesting to note that 24 students were indifferent as to whom they would care to see win the war.

Sixty-three believe that France and England are fighting primarily to preserve their empires; 4 for the cause of democracy and 55 believe that they are fighting for a combination of the two previous reasons.

Most students declared that the United States should adopt a policy of strict isolation towards all nations outside the Western Hemisphere engaged in civil or in international conflict. The majority was not so great, 65 as to the 41 who believed otherwise.

There was little difference in the question that a policy of "cash and carry" for materials of war is liable to involve the United States in war. Sixty-six answered "no" and 50 answered "yes."

Finland has the sympathy of practically all of the students for 72 approved of the aid extended to her by the League of Nations. Fourteen answered "no" to this question.

Dr. Judd, who spoke in behalf of the Chinese in the assembly several months ago, must have impressed the majority of the students. Seventy-three believe in giving material aid (exclusive of man power) to China and 88 were in favor of a Japanese boycott. Opinion was divided equally on the question of whether we should break off all trade relations with Japan. There were 56 answers for each side of the question.

Seventy-three were anxious to see China win the war and one lone person rooted for Japan. Here again, 18 expressed indifference in the matter. The majority did not wish to have the United States intervene in this war either.

The students show by their response an interest in international affairs. Ninety-three would plan to attend student forum meetings for discussion of problems relevant to those stated above.

COLLEGE ACTIVITIES (Continued from Page 1)

A big feature of the evening was the Paterson State Teachers College "movie" "Seeing 'State'" made by the class in visual education.

The program was terminated by cheers led by the cheerleaders under the direction of Betty Morris. The guests' cheering put the past season's pep assemblies to shame.

FINAL EXAMINATION SCHEDULE Spring Semester 1940

FRESHMAN, SOPHOMORE, JUNIOR EXAMINATIONS

Tuesday, June 4

Subject	Instructor	Room	Time Allowed
English Comp. 112B	Karp	208	2 hours
English for Business 114	Trainor	207	1½ hours
English Comp. 112C	Roehler	207	2 hours
Descriptive Geometry 226	Loveridge	313	3 hours
Hygiene 112C	Alteneder	310	1½ hours

Wednesday, June 5

West. Civ. 112X, A-B	Williams	L.R.1	2 hours
West. Civ. 112Y, C-D-E	Matelson	Aud.	2 hours
American Govern. 216A	Hartley	304	1½ hours
American Govern. 216B	Hartley (Proctor)	302	1½ hours

CLASS DAYS

Freshman Class Day

"Oh, he flies through the air with the greatest of ease. He's the daring young man on the flying trapeze."

Only "he" wasn't on a trapeze; he was unfortunate to be riding in a Loop-o-plane, and he didn't appear at all daring. He wanted to get off as soon as he could which wasn't soon enough. The inevitable happened—he fainted! He awoke to find himself staggering off his wits and bemoaning his fate.

Who was he? Oh, just one of the Freshies who attended the Freshman Class Day at Palisades Park Friday night.

Through the efforts of our arrangement committee, the Freshman class was able to provide for one hundred of its members transportation to the park and tickets for the various amusements.

Don't we wish that Class Day came at least four times a year!

Sophomore Class Day

Plans for a Sophomore Class Day are nil. President Bernard Siegal may be quoted as saying, "The Sophomores are going on a picnic, maybe. We have not made any definite decisions since there has been no meeting recently."

Junior Class Day

The Juniors will hold a class picnic at the Orange Mountain Reservation Wednesday, May 22. Members are to be taxed twenty-five cents each.

Senior Class Day

The last report was that the Seniors might present the student body with a very "novel" play in the afternoon of Achievement Day.

Girls Advised By Beauty Counselor

The P. and Q. Club of Paterson State on May 13 presented a Cosmetic show for the women. Miss Coppage, head of the Barbara Gould Beauty Council, gave a lecture on the essentials of beauty. "Beauty is every woman's inalienable right, for," she said, "in professional or social life, it is her greatest asset. A clear skin, bright eyes, flattering make-up, well-groomed hair and hand bring radiant self-confidence, even make characterless clothes distinctive, and lend the self-confidence of poised assurance and popularity."

Miss Coppage demonstrated the proper application of make-up and its preliminary procedure. A sample of the Barbara Gould's new "Skylark" powder was given to all those who attended the lecture. She also presented each woman with a booklet called "Any Woman Can Look Lovelier."

The P. and Q. Club is certainly rendering the college an excellent service in presenting such fine lectures.

Incidentals

Orchids should go to Bob Cantor for his flowery speech. Recently Mr. Cantor astounded his class with the following. "Of Mr. Hearst's activities during this time, on such things, I have no information."

* * *

Some people have very individual ideas. Norbert Hasser thinks he can jump as quickly as a frog. Who are we to doubt his word?

* * *

Friends of Andy Fox will probably be interested to learn that Andy is now working at Wright's. Incidentally, Steve Murko has been accepted into the Army Air Corps and will soon be leaving us.

* * *

Boom! Bang! Charlie Koppen decided that he would play the role of a gentleman and pull down the shade. Can you imagine how the class laughed, when they heard a crash and turned around to see the shade on top of Charlie.

* * *

What a touching scene! Can you picture Morris Pressman, our big, he-man basketball player, teaching his class the song: "Wish I Had a Little Tiny Fiddle."

Club Comments

At the last meeting of the Science Club, members Jane Flartey and Anna Mae Woodward gave reports on Volcanoes and Astronomy. Miss Woodward illustrated her astronomy lecture with slides.

The club is continuing work on the nature trail. Two groups are working at present, one on moss and one on ferns.

Friday, May 24, the club will pay a visit to the Eastside High school science department's Herbarian, a display of pressed flowers and leaves.

STATE DEFEATS

(Continued from Page 1)

count 3 and 2, Jankelunas forced Steinetz to hit a fly to Ramsey and end the ball game.

Archie Hay led the nine-hit attack with two singles and a double in five tries, driving in one run. Lou Sirota hit safely two out of four with a double and a single. Hy Miller drove in two runs with his hard hit single in the first inning.

The victory made it five wins against the same number of losses for a .500 average. This is the best season enjoyed by State for many a year.

The next game will be played on Wednesday, May 22, against John Marshall. The game will take place at home, with the field being announced later.

Score by innings:

Montclair 0 0 1 0 0 0 0 2—3

Paterson 4 0 0 0 0 0 0 0—4

Batteries: DeVita, Chiardi and Savelli. Jankelunas and Hall.

Umpires: Wilson and Schultz.
