Dear Colleague and Friend:

Hobart Manor is the "centerpiece" of our campus. Originally the home of the family of Garret Hobart, Vice President of the United States, it serves as our tie to the past and our focus for the future.

Starting with the recognition of the Manor as a state and national landmark in 1976, the worn college treasure was stabilized in 1987 through considerable efforts of the college.

With the structure soundness of the building assured, the Alumni Association raised the funds to furnish the Dining Room and the Billiards Room.

We turn to you the William Paterson College Faculty and Staff and the regional community to share in this prestigious project to continue the building's refurbishment.

On June 16, at 8:00 p.m. Mark Russell, political satirist and former William Paterson College Distinguished Lecturer, will once again delight us with an evening of bipartisan comedy and irreverent song to benefit the restoration of Hobart Manor.

Will you join us? Quite simply, we need your support to reclaim the soul of this grand building.

Sincerely,

Anna Daube Freund
Chairperson,
Alumni Hobart Manor Committee

Sincerely,

Dr. Ken Job
