

# STATE BEACON

VOL. VII—NO. 11

WEDNESDAY, JUNE 2, 1943

PATERSON, NEW JERSEY

## Crouch Elected Editor Of Beacon

At the annual get-together of the BEACON staff on May 5, Laura Crouch was elected editor-in-chief of the BEACON. Norma Giordano, present editor-in-chief, declined nomination for a second year in that capacity and Miss Crouch was unanimously elected to succeed her.

LAURA CROUCH

Laura Crouch has been president of the Psychology club, and member of the Geography and Art clubs. In her sophomore year she was secretary of the Student Council. On the BEACON, Laura has served as reporter, feature editor, and news editor. She has not announced her staff for next year.

Florence Miskovsky was elected to fill the position of Business Manager of the publication. Florence is also co-editor of the Yearbook and has been active in the FTA. This year she was treasurer of the Student Council. She has served on the BEACON staff for three years.

The entire staff and faculty adviser, Miss Trainor, enjoyed a supper preceding the business meeting. Plans for the supper are arranged by Lanell Turner and Jeanne Smyth.

The BEACON awards, the school year, will be presented at the commencement day exercises. The awards go to Florence Miskovsky, Shirley Mehringer, Ruthann Shagin, Elizabeth Brookman and Jeanne Smyth. The award of \$15 key stands for two years of service on the BEACON.

## Prom Cancelled Due To Restrictions

New gasoline rationing restrictions have had a very personal effect upon State in that the plans for the Junior Prom have been cancelled.

In spite of the fact that the juniors had planned a dance on war-time basis, the Faculty Executive Council voted to disperse the club and not violate the spirit of the government regulations.

Most of the New Jersey colleges have done away with their evening social affairs this Spring. State is not alone in giving up one of its oldest traditions.

Thus far Commencement Week activities will not be curtailed by government restrictions.

## Geography Club Elects Turner

A slate of officers chosen by the executive committee was passed unanimously by the Geography club at their meeting on Wednesday, May 26.

Officers chosen for next year were all members of the Class of '44. They are: Lanell Turner, president; Jeanne Smyth, vice-president; and Marion De Baun, secretary-treasurer.

Lanell Turner is an outstanding club leader having had two years experience as president of the Art club. During her presidency, the Art club had one of the largest and most active memberships of its history. A member of the BEACON staff for three years, Lanell has been exchange editor and make-up editor. Lanell also holds the office of treasurer of the Zeta Kappa Chi sorority.

Jeanne Smyth, the new vice-president has been a regular committee worker in the Art club for two years and the Geography club for one year.

Marion De Baun has had financial experience as cafeteria cashier. Her club work has been done this year in the Geography club, her most outstanding job being chairman of the Latin American tea. She served as this year's secretary, succeeding Ruth Stoffer.

## Six Students Get Camp Scholarships

Six students to attend the National Camping Institute at Sussex, have been awarded to six State students.

Due to the fact that most of the applications were made by Juniors, six Juniors were selected by a joint faculty-student committee. Girls were chosen who would use the Institute's valuable teaching in camping and education when they teach and take part in the camping movement.

One-third of the scholarships were sponsored by the student council, the rest by the administration.

The Institute will take place at National Camp from June 19 to June 29. This camp is meant especially for adults and is the leader in a new movement in education. The credo of this movement is "Teach in the classroom that which should be taught in the classroom; teach out-of-doors that which belongs out-of-doors and that which should be learned through personal experience."

Those selected to go are: Maudie Beckingham, Harriet Burger, Norma Giordano, Ruthann Shagin, Lanell Turner and Florence Miskovsky.

## Shagin, Basinski Vie For Presidency Of Council

RUTHANN SHAGIN

JOSEPHINE BASINSKI

At their meeting, the Junior class nominated Ruthann Shagin and Josephine Basinski to run for the office of president of the Student Government Association.

Ruthann Shagin and Josephine Basinski are both well-qualified for the position. Ruthann transferred from Bergen Junior College in her sophomore year. She has done extensive work in planning meetings as program chairman of the F. T. A. and two years as program chairman of the Art Club. As president of the Geography Club she carried out one of the club's most successful years, presenting the Latin American tea, the Kiddie Party for the seniors and the Latin-American fiesta at Guest Night and in assembly at School 15. Last month Ruthann was elected as corresponding secretary of the Zeta Kappa Chi sorority. During her first year here, she maintained the highest academic record, 11 grade points higher than any other student in the college.

Josephine was president of the Junior class this year and chairman of the Senior Ball committee. She was an active member of the Student Council serving on many committees. Josephine has also had experience in planning programs as program chairman of the Psychology Club. A member of the Varsity Debating team, Josephine also was a member of the Publicity committee for the college during her sophomore year. Her sorority is Phi Omega Psi.

The Sophomore class chose four candidates, two for the office of treasurer and two for vice-president. Those running for vice-president are Josephine Kohout, ex-Science club president, and Lillian Kosheba, an active worker in class activities.

Norine Fogel, a transfer from Tusculum and Ruth Hutchison are candidates for the office of treasurer.

Freshmen candidates for secretary are Blandine Pelusio and Alice Stempel.

Elections will be held at a future date to be announced by Miss Daulton, in Student Council.

## Indian Point Scene Of June Play Day

Two choices were given the students by the Social committee for the place in which our annual Shaffer Play Day will be held. One choice was to go to Palisades Park for the day and evening or to Indian Point up the Hudson for the day.

An overwhelming number of students favored the boat ride up the Hudson.

The date for the excursion is Wednesday, June 9. The boat leaves 42nd Street at 10:00 A.M. or 12:5th Street at 10:15 A.M. The 42nd Street (West Shore) ferry can be reached by taking the number 16 bus from Paterson. The number 1 bus from Paterson makes connections with the 125th Street ferry. The boat will return to New York at 8:00 P.M. The park provides facilities for picnicking, sports, and swimming.

Some sort of amusement ticket or boat fare will be provided by the Social committee for the benefit of those students going. The exact form and use of this ticket has not yet been decided.

## Paleteers Hold Art Conference

Small delegations from neighboring high schools and colleges attended the first Eastern Arts Convention ever to be held at Paterson State. The conference was held in the college auditorium Monday, May 17.

The theme for the meeting was "Art in Time of War." Miss Florence Besse, supervisor of art in Passaic schools spoke on "Art in the School." Her talk featured materials and methods for war time when many art supplies are not available. Her lecture was illustrated with drawings actually made in Passaic schools and with samples of available materials. Mr. Charles Robertson from Pratt Institute discussed the value of art in war time in an illustrated lecture. Speakers were introduced by Ruthann Shagin, program chairman; Lanell Turner, president,

(Continued on Page 4)

## State Loses Nine Men As Army Calls Reserve Corps

If any of you saw a group of forlorn looking boys with duffle bags over their shoulders, walking down the street last Monday, you say State's Army Reserves leaving for Newark.

Nine men were called from State's lists of reserves. They were: Bill Loveless and Ernest

Mueller, seniors; Harry Lister, Rocco Monteano, and John Fredericks, Juniors; Herbert Guerrant and Anthony Corrallo, sophomores; and Bill Deserett and John Ariens, freshmen.

Most of them were glad to know finally that it was time to

## STATE'S NEW ARMY

Katherine Cooke announced at the Student Council meeting that the Women's Sports Club was being reorganized for an active season next year. We are all glad to hear of this, for next year women's sports at State must come into their own or all sports must die out altogether. The Women's Sports Club reorganized by an unusually active group of freshmen should be the leader in organizing girls' sports in the school, and we feel that it has a good chance to take over this leadership and make a success of it.

There are many sports available to Staters. Tennis courts are nearby as are riding academies. Paterson has facilities for swimming. We have an excellent basketball court and equipment, we have new archery equipment, and we will be able to get money for more equipment next year if we show any intention of using it. Since the Athletic committee for the boys' teams will be practically non-existent, we can after many years of neglect get money for girls' sports. The Women's Sports Club should be the leader in handing in a budget to the Student Council for women's athletics next year.

Competition is motivation for sports. We can have competition. We may have to start with intra-mural contests, but those will be necessary and sufficient to build our skill for possible inter-collegiate competition later on.

We upper classmen must help this ambitious group of freshmen. Remember girls, it's good for your figure, good for your disposition, good for your morale. It's helping in the war effort by keeping fit. So let's go girls. Keep State's athletic reputation on the top. Let's start next September with State's own special women's army, the WSAPS . . . the Women's Sports Association of Paterson State.

## WRITE MORE — WRITE WELL

Nine more Staters have left to begin new careers with the Army. When the service flag goes back up it will represent 146 men from State in the armed forces. How many of these do you know? Everyone must know a few of them. If you do, not only think of them, but write to them. They appreciate news and gossip from home. That they can't get except through letters. Letters are their chief opportunity of maintaining contact with the community to which they will return.

When you write, don't expect too lively a correspondence from your soldier, sailor, or marine acquaintance. Whether he is in this country or overseas, he has a full daily schedule to fulfill. He has only a few minutes a day to devote to personal affairs such as letter-writing and he no doubt has a longer correspondence list than you have. So if your letter is unanswered for a longer period of time than you like, remember that it isn't lack of appreciation that delayed his answer, but lack of time. Every man in the service appreciates a letter from home even if it's an ordinary list—like descriptions of your doings.

But your letters don't have to be ordinary any more—they can be as newsy as the local paper now, for your correspondent is far away. Remember how you knew him and instead of writing down all the general information you can gather, stick to news about the activities through which you became friends. His various correspondents' letters taken together will give him all of the general news he needs in addition to the more interesting details. Many letters nowadays are philosophical in tone. These are often even more interesting because they give a picture of the personality of the person writing them. Sob stories are out for the duration. If you can't be cheerful, don't write.

Ruth Gelderman  
Becomes Engaged

By now we all know why Ruth Gelderman has stars in her eyes. For Ruthie and Sid are engaged. Sid being Sidney Preswyck Howell, Jr. of Ridgewood. He will be graduated this week from Princeton University where he has been an honor and scholarship student. He is also a member of the varsity swimming team. Incidentally, he wrote his senior thesis on Alaska. (Ruthie's influence, no doubt.) After graduation he will enter Officer's Candidate School at Fort Sill, Oklahoma. Ruth, who is practice-teaching in Ridgewood, now has been an active participant in State affairs. She is chairman of the Assembly committee and a member of the Student Council. Most of us remember her Masque and Masquers contributions with a great deal of pleasure.

As yet, no date has been set for the wedding, but Miss Woodruff (who should know) was bet a cake that Ruth will be Mrs. Howell by Christmas. In any case, we wish them the best of everything always.

## Summer Fashions

Summer is really here, skirts and sweaters have disappeared from State's corridors. Instead, we see brightly flowered broomstick skirts, peasant blouses, and checked gingham. The idea is to be cool and comfortable, yet still look your prettiest.

The two piece dress or cotton suit-dress is at the top of the list of hot weather costumes and it deserves the honor.

No other kind of outfit can give you so much variety or be so practical. Wear your suit with a fluffy jacket and you're ready for a gala evening. Substitute a washable halter-dickey and you are a tailored model of efficiency.

There are so many lovely cottons, pique's and seersuckers to choose from this season, you should have little difficulty in keeping within the confines of the most limited budget. Let simplicity and durability be your guide—you can't go wrong.

1943 PIONEER  
Pays For Itself

The first PIONEER ever to pay for itself was put out in May by the Class of '43.

The money for the publication was earned by advertising, patrons, boosters, and subscriptions.

The yearbook contains several innovations, such as two pages of candid camera shots of the seniors taken during their school history. Pictures of all classes and the student council group make this a yearbook of interest to all.

Cuts from past BEACONS reviewed the school history for four years.

The administration was pleased with the PIONEER's ability to pay for itself, and asked Evelyn Foote, editor, to write a monograph discussing the phases necessary in publishing a yearbook. This monograph is nearing completion and may be published soon. A few subscriptions are still available this week.

FINAL EXAMINATION SCHEDULE  
Lower Division Students

Final class periods should be used for examination in Public Speaking, Physical Education, and Psychology of Personality.

# STATE SPORTS

## Panzer Rally Defeats Pioneers

Pateron State Teachers' baseball team for the second time this season was defeated 4-1 by Panzer College of East Orange at Eastside Park.

Panzer did all of its scoring in the first inning. Dan Jankelunas fanned the first batter of the game, but "Red" Herdic doubled and Jankelunas filled the bases by walking Tachino and hitting Mooney with a pitched ball. Rocchere, on a squeeze play, hit to Jankelunas, but the throw to first was dropped, with one run scoring. Another run crossed the plate on Lefrandino's infield out, and Lau's double sent to runs home.

Except for the wild first inning, Jankelunas was complete master of the situation, fanning ten batters and allowing no bases on balls.

Pateron's lone tally came in the first when Johnson fanned but went all the way to second when the catcher dropped the third strike and then threw to right field in trying to catch him at first. An error brought Johnson across the plate.

The score:

Pateron	AB	R	H

PATERSON ..... 100 000 000-1

## Upsala Wins Over Paterson Nine

On Friday, May 14, Paterson State Teachers College suffered a 83 setback at the hands of Upsala College at Eastside Park.

The visitors scored first with a run in the third inning. Paterson came back with three runs in the third for its complete scoring for the afternoon. Okkema and Pacilio walked and Piazza singled to fill the bases. Johnson's single drove in two runs and Dennis singled to bring in the third tally.

Templeton, pitching for the first time, looked good until the sixth when the opposition crowded him for three runs. Jankelunas then took over the mound. The locals looked the bases in the fourth with one out and two on with none out in the seventh, yet

## Paterson State Loses To Army

A pair of pitching coaches opposed each other when Paterson State and Fort Hancock met at Eastside Park. The soldiers won out, 12-6 with poor fielding support hurting the home team.

Dan Jankelunas, State's first and only first string twirler hurtled against Second Lieut. Frank Senerchia, former Fordham star who also coaches the Army team. The latter triumphed after the squads had see-sawed through some turbulent action.

The crowd saw Joe Osmanski, former Holy Cross backfield star lead the attack against the locals with two triples. They also saw Hoffman at first base, a former player with Montreal of the international league make a sensational backhanded stop.

The soldiers scored four runs in the first inning on three hits, a walk, two errors and a fielder's choice. State scored a run in the bottom half of the same round and then went ahead in the second on four runs. But the Army team's power was too much when they came back with two and three more in the fourth.

## Schmidt Writes To Jankelunas

Dear Dan:  
How is the baseball team making out these days? That was some game we had with Montclair. Dr. Wightman told me all about it. I received a letter from Don Hall last week. He is at Syracuse, starting his C.P.T. flying.

Everything is going well out here. I'm in charge of a platoon of 55 cadets. In the sports program, I coach a swimming team. We have won three meets, lost two and tied one. The baseball team out here opened their season last Saturday with a 12-0 win over Iowa State. Bob Kennedy formerly third baseman with the Chicago White Sox plays for the team.

I've recently joined a golf club out here, so I expect to play a lot of golf this summer. I've lost ten pounds already—two hikes a week (each about ten miles), basketball, drilling, etc., takes the weight off pretty fast.

Give my regards to all the boys and girls left at State. I'll bet there aren't many boys left. How is the Frat these days? How is the faculty? Did any of them leave yet?  
Lot's of luck, Dan.  
COACH.

## Panzer Wins Over Pioneer Squad, 5-4

Pateron State's baseball nine lost to Panzer College at East Orange on April 27 by the close score of 5-4. Despite a four run upsurge in the fourth inning, State was on the losing end. Trailing 3-up to that point, the Panzers put together a hit batsman, two bases on balls, an error and a double deep into right centerfield by Dennis for their four runs.

But Panzer came back in the last half of the seventh to put across two runs and a close decision. Jankelunas struck out ten rivals and gave up five hits. Paterson collected three hits over Panzer's Bocchere.

## Pioneers Defeat Upsala College, 8-6

Pateron State Teacher's baseball team defeated Upsala College at East Orange 8-6. The game was a slugfest with State winning with the more hits and runs.

State put across two runs in the fourth, when Engleken led off with a single through first and stole second. Ayoub was then hit with a pitched ball and Okkema safe at first on an error. The bases were loaded when Pacilio drove in two runs with a single to left field.

In the fifth, State again scored two runs. Jankelunas was hit with a wild pitch. Engleken hit solidly into center advancing the pitcher to second. Ayoub walked, filling the bases. Okkema singled two runs across the plate. Pacilio ended the inning by striking out.

State put three more runs across in the sixth on a single by Dennis, then Jankelunas got to first on an error. Templeton hung a clothes line single over third base scoring Dennis from second. Templeton and Jankelunas scored on errors. Ayoub ended the inning by fanning out.

Jacobson was the big gun for Upsala. He banged out two doubles bringing in three of Upsala's six runs. Upsala put on a threat in the ninth when Darcy led off with a single but the next three batters went off—one, two, three.

Both State and Upsala came up with two double plays. Vargo and Darcy struck out nine. Jankelunas struck out three. Vargo was the losing pitcher.

## Pioneers Trounce Indian Rivals, 6-1

Jankelunas, Montclair nemesis, again returned to the mound, after a one day rest, to pitch the Pioneers to a 6-1 triumph over Montclair at Pennington Park. Playing the last game against Montclair for the season, Jankelunas added insult to injury, gave the Indians only three hits and except for an error with two out,

## Jankelunas Hurls No-Hit No-Run Game At Montclair

Pateron State Teachers baseball nine edged out Montclair State Teachers by the score of 1-0, with the contest being called at the end of five innings.

The game, played at Montclair during a cold afternoon, saw Jankelunas, State pitcher, turn in a neat no-hit no-run ball game. The local pitcher was never in trouble the whole afternoon. He struck out ten batters, walked one and allowed one ball to be hit out of the infield. Issler and McNally shared the mound duty for Montclair. Both team pitchers hurled no hit ball.

Jankelunas, State pitcher-coach, won his own ball game in the fourth when he was safe at first as Gersie failed to make a clean play on a hard smash through the infield. Jankelunas, then stole second standing up; went to third base on Johnson's well-placed bunt, and scored on Sheradsky's infield out.

## Skull & Poniard Holds Stag Party

The annual Stag banquet of the Skull and Poniard fraternity was held at the Cedar Cliff Hotel on Tuesday, May 18. In previous years this was held in June, but due to imminent army call of several of the Brothers the date was advanced. The occasion served as a farewell for three of the brothers who reported for service, Brothers William Loveless, Ernest Mueller and Rocco Montesano.

After the dinner Brother Leo Shannon acted as master of ceremonies for our awards. Brother George Reilly, now in the Air Corps, was awarded the Skull and Poniard Achievement Cup presented annually. In his absence Brother Bulter accepted the trophy for him.

Brother Shannon then awarded scrolls to the brothers who are graduating this June. They are as follows: Reilly, Breithaupt, Christie, Jankelunas, Mueller, Loveless and Bulter. Brother Shannon then called on each one present to speak. We were fortunate in having Lt. Mike Lobosco present who spoke briefly and left for a previous engagement.

The banquet concluded with all present agreeing to meet at the college on June 1, 1944 for our annual stag. Those unable to come here at that time will celebrate, wherever they are and silently toast the brothers of the fraternity.

Present officers of the fraternity are: John Bulter, Master; Leo Shannon, Deputy Master; William Platt, Scribe and George Reilly, Funds Master.

They voted to carry on their duties for the duration. Other brothers present were: William Loveless, Thomas Templeton, Fred Engelken, Ernest Mueller, Rocco Montesano, Dan Jankelunas, Mike Lobosco, Tony Barbarito, and Richard Dennis.

All brothers now in the service, or who expect to enter soon are asked to forward pictures of themselves in uniform for our Honor Roll in the college. This picture is to be one and one-half by two inches.

Address all correspondence to the fraternity care of the college.

## Geier To Speak On Station WPAT

Final programs concluding State's thirteen week radio series will be given this month.

George J. Geier, principal of Hawthorne High School spoke Monday, May 24 on the "Importance of Commercial Education." Mr. Geier discussed the values of Paterson State's addition of a curriculum preparing commercial teachers. This addition is especially important in this commercial and industrial area. Young people are needed who understand the commercial phases of both war and peace time economy, for the accumulation and recording of accurate information is necessary in industry at all times. Mr. Geier also discussed the character building values of training youth to earn wages. Outside of the valuable characteristics obtained by working for a wage, this working is usually necessary to the young person's very existence.

Miss Helen Hill, vice-principal of Teaneck High School spoke on May 31 about the necessity of guidance for youth in time of war.

## Fulbeck Enjoys Army Training

Hello students,  
I have been in uniform approximately two months. The first month I spent at Atlantic City, basic training center. During this training many of us wondered whether we were in the Army or in the Women's Aid Society. We were taught such feminine func-

tions as bed making, sewing, cleaning rooms, dusting, washing dishes (KP) and mopping floors. The Army has succeeded in making me a well-trained wife for some girl! However, the discipline behind the routine training of every soldier is even more valuable than the practical knowledge gained. We learned other things, dealing with the destruction of the human body, which are better spoken of with actions rather than with words when the proper time comes—and that time will come.

From basic training we went to Michigan State College at East Lansing, Michigan, to pursue an academic course that would prepare us for flight training. We are taking pre-officer courses as well as technical courses. We are called "Mister." We are treated like gentlemen and enjoy excellent living conditions. We receive college credit for the work taken here which should just about give me my degree.

We room in dormitories. Four men to a room. Rooming with me is a Major's son from Florida, a farmer's son from Iowa, and a salesman's son from (of all places) Brooklyn! The men here are from all parts of the country. It is interesting to note that no matter where a fellow comes from, they are fundamentally the same. I, at one time, thought that a farmer from Kansas was quite different from a mechanic from, say, New York. I was wrong. There is little difference. They both have the same ideals, determination, good attitude and definite purpose. They may differ a bit in accents and interests but in the things that count, they are the same. Maybe that is what makes America great!

The most unique thing about the Army is its efficiency. Dealing with millions of men makes efficiency more than an asset. It is a necessity.

The training we receive in the army is far more valuable than the money, clothes, food, or anything else you receive from the army. In short, the army gives you far more than you give it, even if you give your life. The habits you are forced to acquire in the army will be with you long after the flags have stopped waving and the uniform is packed away. To those of you who are coming in—meet the army half way and the army will meet you all the way.

From college we go on to pre-flight where we learn the theory

## Excerpts Of Letter From Lt. Berneson To Dr. Wightman

April 8, 1943

Dear Dr. Wightman,

Your "V" letter dated March 19 arrived this morning. Knowing how busy you are and cognizant of your heavy responsibilities, this pseudo-airman is proud indeed that you find time to write the interesting and absorbing missives that you do. You are occupied with your executive duties at the college and yet you find time for other activities...

The BEACON arrives regularly. It is a well balanced newspaper and those who are responsible for its publication are to be commended.

Although one little realizes it while he is at school, one's college days are the finest years of his life. It is regrettable that the war has made one's schooling unorthodox in the sense that it is supposedly secondary to the war effort. Most of us here feel that those who are at college should be permitted to carry on as always. These people are preparing themselves to lead and guide others. Their work, while not so dramatic, is important and should not be curtailed or hindered.

Many of us have met French families. Through them we observe and learn their customs and ways of life. When this conflict will have terminated, our country will carry on trade with Africa in great volume. Fertile rich earth is to be found almost everywhere and there is an abundance of natural resources. The citrus fruits here are wonderful, dates and olives are also plentiful...

To get back to Africa, recently we acquired a stove. Heretofore, I had never used an axe, but with practice, learned how to make little logs from big ones. It is good exercise and a lot of fun (actually you and I know the only reason we do it is to keep from freezing to death.) The weather gets warmer and more beautiful with each passing day, and soon we'll be sitting about absorbing the comforting rays of "Old Sol"...

In a short time I expect to make an extended pleasure trip. I'll tell you more about it later on. Best wishes to you and the faculty.

## Ari Conference

(Continued from Page 1)

and Dr. Wightman welcomed the guests to the meeting. After the meeting, tea was served to the guests.

The regional conference was held here because the annual conference could not be held in New York due to transportation difficulties. The Paleters therefore decided to hold this conference so that the schools in New Jersey would maintain their interest in the Eastern Arts Association until another meeting can be held in New York.

of flight, communications, etc. Then to primary training to learn to fly and to advanced training to learn to fly and fight. Then a pair of silver wings and a second Lieutenant's rating. Then peace—at least we hope so.

As ever,  
CHARLES FULBECK  
AAF Sq. G. Rm. 216  
Mason Hall  
East Lansing, Michigan

## Letter From Sgt. Ralph Smith

Dear Miss Abrams,

Here it is a Saturday night once again, and it is also back to the old grind after several days at home.

the typewriter.

My new assignment put me into one of the higher units of organization in the Anti-Aircraft. Being assigned to Brigade headquarters is quite an honor. The only outfit bigger than us is a division. It seems funny to have a general as your boss instead of a usual lowly first Lieutenant.

I was only here two days when a promotion was thrown at me and now I am a staff sergeant. I am the Brigade master gunner, and between all of the staff officers, my time is kept pretty much occupied. However, one can never tell what he will be called upon to do as a master gunner. It may be surveying a sight for a military road or a trivial detail as painting a few signs. The latter being my present job for the adjutant.

Most of last week was spent in drawing maps for the colonel. Every one has the printing signs for them. It really is something different and something interesting every time. That makes the time fly by when the jobs are assorted.

Spring hasn't arrived on Cape Cod as yet. Ever since I have been here, the weather has been somewhat chilly and cold at night. We have lots of rain but no warm weather as yet. What a difference there is in this crisp Yankee air as a change from that thick, soupy southern air.

Haven't been off the post as yet, but next weekend I'll probably go to Boston, or probably to Falmouth some ten miles from here.

You certainly were right in your estimation of the time since I arrived in camp a little after three in the afternoon. So while I am still able I guess I shall be seeing Jersey a little more often.

Rumor has it that the brigade will spend the spring and half the summer here on the Cape, from then on any rumor is as good as the next.

That is about all from here at the present, so I'll bid a pleasant good-bye until soon again.

Sincerely as ever,  
RALPH SMITH.

## Achievement Plans Tentative

At a fiery class meeting sophomores were able to make no final decisions concerning Sophomore Achievement. The plan for an evening entertainment was to be changed to a morning program due to time restrictions. However, making arrangements with Senior class to combine achievement day and the Senior class day in a morning program many of the sophomores, for an evening program.

The boys who are soon to be the college feel that this be the last time they participate in an exercise resembling graduation, so they wanted it as normal as war-time permits.

## Statlers Leave

(Continued from Page 1)

go. They felt as John Artens "It's about time." But they left school with regrets. Rocco Montesano expressed the view of most of them when he said, "My only regret is leaving great bunch of classmates." Loveless was the only one however to have already graduated, but Ernest Mueller also graduated enough work to get credit for his senior year. Though he attended State only one year, Bill Dessereit the same as the others said that he would "miss the kids."

The upper classmen are the hardest by the loss as there are only two men left in the senior class and one in junior class.

Now stationed at Fort Dix, fellows are still together for at least a few days.

Their classes in school gave boys various gifts before they left. An unofficial delegation of several State students took trip to Newark last Monday see them off for camp.
