3:04 ms lc ⑤ I enjoy being involved in this project
selfishly because part of JPF's stated
purpose as a Co is to be involved in
Community Affairs and have a say
to our local community. Paterson
has given to us and we enjoy giving
to the surrounding community. But most
importantly I'm enjoying being involved
& having our Co. involved as a
support member of the team. Dedicated
to the dev. of this project
creating a tie between the Comm
at large, local industry, & Education
