Letter from President Kathleen Waldron

Dear Graduates:

Congratulations! You are now officially part of William Paterson University's long history of Pioneer pride and excellence. As President of William Paterson University I salute your accomplishments. I am honored to address you in this special memento of your college career.

A Yearbook is so much more than a collection of portraits and snapshots of University life. A Yearbook is about preserving memories - the friendships and relationships you formed here, the special events that you organized or attended, the teammates with whom you shared competition and camaraderie and the faculty and staff who mentored you. These memories, though fresh in your minds now, will inevitably fade over time as your academic, professional and family lives develop and mature.

I hope this Yearbook helps to provide the connection to cherished memories associated with the time you spent at William Paterson University for years to come. I am confident that what you

learned in our classrooms, our student clubs, or on our athletic fields, and in all the other places where you shared the college experience with your peers and our outstanding faculty and staff, will serve you well. You have received a foundation of excellence on which to build whatever future you choose.

As you move forward through the years and share your personal recollections of your time here, your stories combine to provide a sense of William Paterson University for the world beyond the campus. Your graduation links you with the many generations of students who have achieved success at this great institution.

I wish you the best in everything ahead and I encourage you to stay connected to William Paterson University. Now that you have become a part of WPU history, I hope you continue to be a part of the WPU future.

Best wishes for health, happiness and success.

Sincerely,

Kathleen Waldron
Kathleen Waldron

In Memory of Dean Roland Watts

"Compassionate, Honorable, Dedicated, Uplifting, Mentor, Friend and Father and Uncle are how many students and other community members would describe Roland Watts at William Paterson. His years of service to the community were filled with many joys especially when he felt he had transformed lives or enriched the student experience. Roland was a humble person who devoted himself to others and intervened often to help students resolve problems. His fair assessments and judgments were noted often and for many he inspired them to achieve success."

-Francisco Diaz

"Your contagious smile, courageous spirit and the undeniable will to see others succeed. These are the things I have missed most."

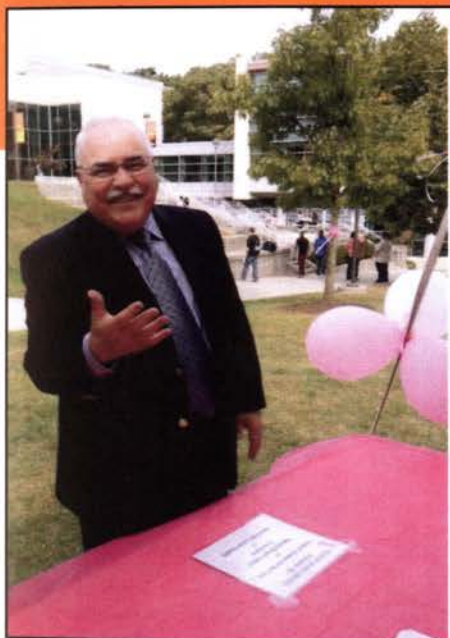

-Tiffany Rice

"The definition of a William Paterson University Pioneer...that's what Dean Watts was."

-Carlos Cano

"Dean Watts treated everyone like they were the most important person in the world. Whenever he saw me, he made me feel like I mattered. It was like a recharge for the day and this is from someone he really didn't spend much time with over the years. So, I can only imagine how those closer to him felt."

-James Mercer

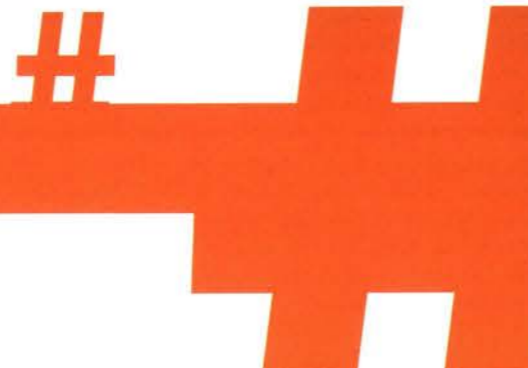

A Farewell to Dr. John Marton

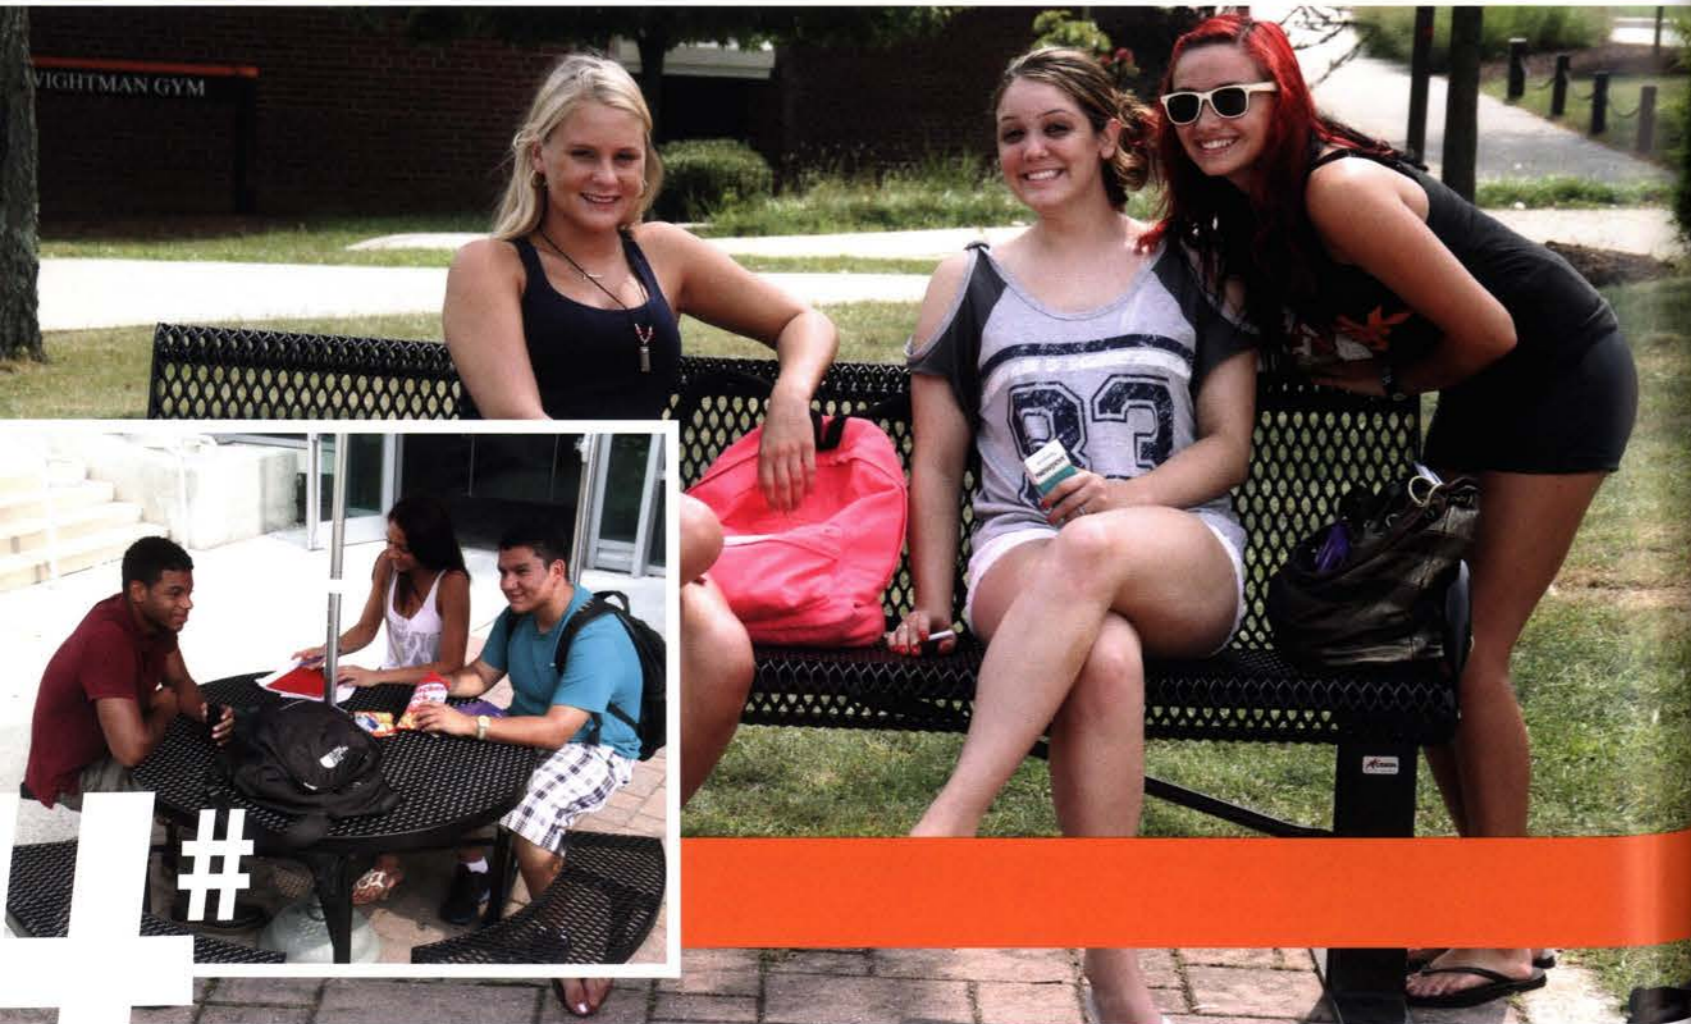

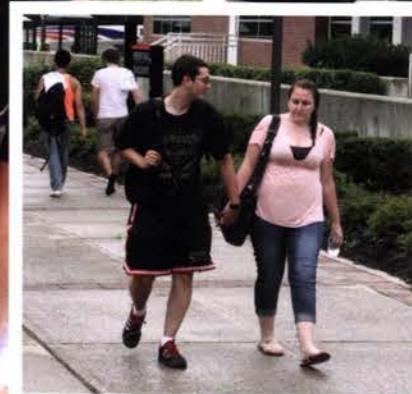

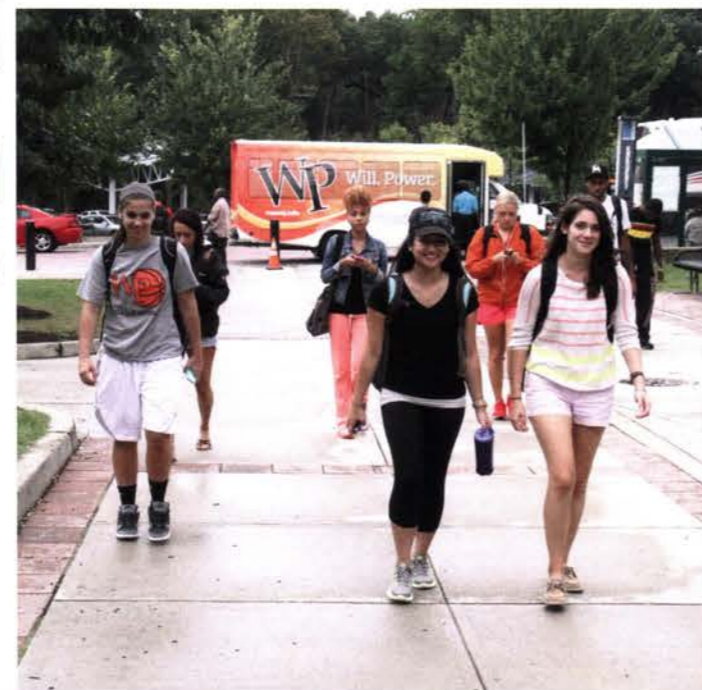

Students! Students! Students! When asked, that is my immediate response to what I miss most upon retirement students that kept me motivated and dare I say; were my Picture of Dorian Gray, during my 43 year career in Student Development...Student Life...Student Affairs. The division had many names over my career but students were always the basis of my professional life. This was true wherever I found myself beginning at University of New Mexico as a Student Development Assistant and ending at William Paterson University as Vice President of Student Development. Once beyond student development was always my opportunity to work with staff and professional administrators that keep me engaged and committed....whether new hires or seasoned oldies; the ability to shape a mission, adhere to it, see it evolve and immediately begin to change to meet ever changing campus and student needs was always so exciting. Combining these two constituencies toward common goals and good work was always critical to me. Fostering the realization that they had much more in common was imperative through out my career. Likewise, having fun and doing it was always important. Keeping spirits up and myself in tune with student and campus needs was always at the heart of my efforts. William Paterson University provided a wonderful opportunity as the final chapter in my career. WPU students were some of the most spirited and delightful students I ever had opportunity to work with. The staff and administrators were so committed and willing to change, evolve and change again, some would say; in our efforts to provide the highest performing Student Development Divisions of my career. What I have found challenging in my retirement to stop my "To Do List" mentality from creating that list over morning coffee and allowing it to , as it were, shape my life. I find a "To Do List" of simply...Enjoy the Day...suffices.

Welcome to Dr. Miki Cammarata

I was seeking an opportunity to serve as a Vice President of Student Development/Student Affairs and was particularly attracted to William Paterson University because of the size and diversity of the student body, the leadership team, the Strategic Plan and the commitment to Student Development. I arrived in February, with the Spring semester underway, and recognized that I would have to hit the ground running. Now almost four months into the job I can say that the transition was fairly smooth. I had prior experience working at a New Jersey public College and had great support and warm welcomes from colleagues, faculty, staff and students. I have found the WPU environment to be dynamic, stimulating and welcoming. I am thrilled to be here! I hope to have a positive impact on student success, which I would generally define as students being meaningfully engaged in the curriculum and co-curriculum, making good academic progress, graduating in four years and moving on to further education or a career they are well-prepared for and excited about. Specifically, my colleagues and I in Student Development are seeking to increase and enhance student engagement in the co-curriculum through additional civic engagement (service) activities, leadership training/development, involvement in and support of clubs and organizations and participation in major campus activities and athletic events. We have a number of new programs and events planned for 2014-2015 that we hope will excite and engage students. In my four months at William Paterson University I have come to appreciate the people and the vibrant and upbeat environment - where the faculty, staff and students I have interacted with seem genuinely happy to be here and appreciative of one another and the work we do together to make WPU a great place. There is a sense of pride and energy here that is infectious. I am a high energy and "all-in" kind of person and administrator. I want students to see me as accessible and responsive.
