PSTC Band Makes Initial Appearance Arbor Day Features Faculty vs. WAA Game By DENA GUTTMAN

April 30 was "C"-day at our college. Clean up the Campus was the password as students went off to work. After classes everyone gathered in front of Hunziker Hall to listen to a short band concert with Mr. Weldner and Mr. Hatrak at the helm. Everyone was properly attired in work garb, and garden tools of all varieties could be seen. At the south side of Hunziker Hall, the seniors presented an impressive

tree planting ceremony.

The following members of Paterson State lent their services to the Arbor Day Program by playing in the Band and heralding the start of the activities. Musicians were as follows: Trumpet: Marilyn Perrius, Eleanor Prendergast, and Marlene Winkle. Drums: George Ligos, Bruce Ho-well. and Dolores Wayne. Saxophone: Vic Rabasca, Phil Russak, Frank Napier, Dino Tordino, and Gene Fichter. Clarinet: Elizabeth Breeman, Kay Tucci, Joyce Le-Rose, Rudy Rotella, Janice De-Korte, Audrey Smith, and Ellen Wood. Barbara Smith played the flute, Earl Wiedner played the Sousaphone, and Ted Hatrak and Bob Urban were on trombone.

A picnic for all the hard

workers began at 12:30. Students brought their own lunches, and cooked hot dogs and hamburgers

The program will be concluded with the singing of the college song

Freshmen Class Tour U.N. on Field Trip

On Wednesday, May 5, 1954, the Freshman class traveled to New York City to visit the United Nations Building. Buses left the Paterson State campus at 8:15 a.m. and Manhattan Terminal at Market and Clark Sts. at 8:30 a.m. At 10:00 a.m. students arrived at the United Nations Building and the group proceeded on a guided tour through the General Assembly Building.

After lunch a speaker told the group some of the principles and objectives of the United Nations. Buses left New York at 2:30 and returned to Paterson by 4:00 p.m. Mr. Baumgartner and Mr. Simon were the faculty advisors who accompanied the group.

NJCPA Conference Features Workshops

The Spring meeting of the New lersey Collegiate Press Association was held May 1, at the State Teachers College in Trenton.

At the meeting the Association featured several workshops. They were: Make-up and Lavout, Busiess Management, Editorial Policy, Photography, Sports, Faculty advisors, Features, Exchange and News and Yearbooks,

Following was a critique in-cluding a summary of the proceedings and recommendations of hose present.

Representing Paterson State at the conference were Elaine Vis-lotsky, Editor-in-Chief, and Elaine Pantel, News Editor.

Spotlight Reveals State Fair

The alumni of Paterson State are an important part of our college life. This can be seen from the annual "State Fair," their successful carrillon project, and the reunion tea held at the Traymore Hotel during the Atlantic City Con-

It is pleasant to be able to look toward graduation from "State" not as the end of your college years but rather as the beginning of a new career.

Knowing you may still be an active participant through a strong and friendly Alumni Association creates a feeling

of "belonging" to a constantly growing institution.

Each graduating class becomes a part of the large body
of alumni who endeavor to maintain a high standard for our college. One example is the present committee conducting a poll on those interested in taking courses for a Masters Degree if they were offered at our college.

Seniors please note: In the words of the alumni paper, "Spotlight", "Contribute your dollar for the 'Best Investment of the Year' so that this organization can move ahead continually as did the earlier "Ploneers."

Music, Music, Music

Congratulations to the students and advisors of the Paterson State Band for a job well done. The band, organized this year under the direction of Mr. Hatrak and Mr. Weidner, provided a welcome background for the work squads and Arbor Lay ceremony. Students are now hoping to hear the "All College Band" do a repeat performance.

Section Or Cafeteria Voting?

A freshman representative recently proposed that voting on matters such as the amendment to the SGA Constitution be held in class sections. At the present time major proposals is held during specified periods in the cafe-teria. Assuming that everyone knows the facts or has ample opportunity to find out any necessary information which method is better?

Advocates of section voting say that since these proposals affect all of the students, everyone should vote and this can only be accomplished by holding elections through these classes. When students must go to the cafeteria to express their opinions they tend to forget or for some other reason

their opinions they tend to forget or for some other reason don't take advatage of their voting privileges. It is argued that this method would prevent a small percentage of students from passing an important measure.

Individuals in favor of the present system whereby students who are interested to vote during the appointed time in the cafeteria, state that only those who are conscientious enough to vote deserve this privilege. The class section method would mean "captured voters", or that many would vote without really having considered the matter. No one should be made to vote but rather they should do so willingly, as in the case of local and national elections. as in the case of local and national elections.

You have read some of the major points of each group and no doubt have heard various opinions on each plan.

Which method do you prefer?

EDNA HEROLD

Edna Herold, whose nickname is "Doll", hails from Glen Rock. She is a Business Education Junior and a graduate of St. John's High School, Paterson.

This fair-haired beauty loves Allyson and movies and June Gary Cooper are her favorites. Her interest in sports is shown when she is defending the famed New York Yankees for Miss Herold is one of their greatest admirers.

EDNA HEROLD

Edna is usually seen "floating round" campus with Marilyn Mead and Minda Eckstein. Incidentally, if anyone has any extra salt and pepper shakers, Edna would be only too happy to relieve you of them for she makes a hobby of collecting these articles. As of now, she has 50 sets in her collection.

Her interests here at state include membership in Debits and Credits and Theta Delta Rho Sorority.

MARIAN SCHRIEKS

Marlan Schrieks, a lovely Business Education Senior, is a native of Lodi and was graduated from Lodi High School. Her activities here at the college include membership in and secretary of Kappa Delta Pi, member of Pi Omega Pi and Debits and Credits.

MARIAN SCHRIEKS

Marian considers dancing ten nis, and swimming to be her main hobbies. Her favorite food is Chinese, and Stranger in Paradise is her favorite hit tune. However,

aside from these interests, has one favorite, Chester Kulik.

Miss Schrieks is looking for ward to graduation and owning her own car. She plans to take a Master's degree at Montclair State Teachers College in guidance.

MARGARET RYAN

Marge Ryan is the versatile, dark haired sophomore, who can usually be seen attempting to perfect her skill as a basketball forward or taking part in the many other WAA activities. In addition to her sports activities, "Margie" is Vice President of the WAA, President of Phi Omega Psi, SGA section representative and a member of De La Salle:

Music and photography occupy this General Elementary students free time and she is now looking forward to another summer down at Lavallette. Marge graduated from St. Joseph's High School in Paterson and hails from Fair Lawn, Believe it or not this gal also enjoys writing poetry, usually humorous. You probably remember her as one of our candidates for Campus Queen.

FTA To Sponsor High School Visiting Day

The Paterson State Teachers College chapter of the Future Teachers of America met recently and decided to sponsor a high school visiting day in the Spring. Rose Jung, of Fort Lee, was named chairman of the committee to plan this project.

Assisting Rose will be Marleen

Winkel, of East Paterson; Grace Parkin, of Haledon; Ethel Ingram of West Englewood; Margaret Faltings, of Clifton; and Marilyn Klick, of Midland Park.

Dr. Mark Karp is the faculty adviser of the Future Teachers of America Club.

SUMMER SESSION OFFERS 23 COURSES

The 1954 Paterson State Teach ers College Summer Session will offer 23 courses according to an announcement made by Dr. Kenneth B. White, Dean of Instruction and Director of the summer program, The first term is scheduled for June 18 to July 21 and the second term is from July 21 to August 11.

A six-credit seminar course for teaching in the elementary school will again be offered. This course is designed especially for college graduates with no professional education. A special feature of the Summer Session will be a play school for children between the ages of 3 to 11.

The workshop for officers of Parent-Teachers Associations, a speech and dramatic workshop, and special courses for high school graduates who expect to enter college next September will also be available. Further information may be obtained from Dr. White.

Combine Study And Fun At Stokes This Summer

The New Jersey State School of Conservation is sponsored by the six State Teacher Colleges. Its courses are open to undergraduate and graduate students, Many of the courses offered may be credited toward elementary or econdary certification.

In addition, the school co-sponsors many conferences for such organizations as; Future Teachers of America, Woman's Athletic Association, Science Clubs, Camping Education groups Student Government Councils, Audubon Society, and recreation associations. All of these are open to students in the teacher colleges of New Jersey.

The fees are modest and include tuition, board and room, and use of all recreation facilities. The school provides a perfect place to combine study and recreation. Students who plan to work at camp this summer will be particularly interested in the course offered during the June 16:26 session. These courses are designed primarily for under-grabackground material which will be useful whether the student has accepted a position as water front director, crafts counselor, cabin counselor, or nature specialist Student Go. vernment Organizations are sponsoring scholarships for this ses-

SPORT SLANTS

By JIM ALEXANDER

Without a doubt, baseball is one of the most demanding sports an individual can participate in as far as various physical skills are concerned. Any baseball player must have physical skills are concerned. Any baseball player must have speed of foot, stamina for the long hot games, the ability to throw the little white pellet with distance and accuracy, good enough sight to hit a ball traveling toward him at better than 80 miles per hour, physical readiness for the jolting collisions at the bases, and generally good coordination for all phases of the contest since each is executed in a split

I guess there is little doubt that we are building up to the forthcoming baseball season at Paterson State. It might be valuable if we could inject here a few points which probably will not be brought to light in the regular news stories published on the other side of this page. There is only one lefty batter, Ted Stephens, and this sets the team up as yet now resides with his wife in the regular news are the probably will not be brought to light in the regular news stories published on the other side of this page. There is only one lefty batter, Ted Stephens, and this sets the team up as yet now resides with his wife in the probable of the proba "patsies" for a right pitcher with a good curve. Anyone with a decent curve will be able to make the locals reach for the tosses as right handed curves normally hook away from a righty batter. It should be quite a different matter if we oppose any lefty twirlers.

As far as outfield distances are concerned, it is a clout of better than 300 feet to right and right center field and a titanic blast exceeding 400 feet to left and left center. This means that the orthodox righty batters really have to shellack a pitch to get a homer to left.

It looks as though tall Tom Wesling has an in as the Pioneer starting pitcher as he is gifted with a mystifying knuckler. As is the custom with knuckle balls, it does crazy hops and twists as it nears the plate as big as the proverblal balloon. Tom also has a promising fastball and hook. Most college pitching hopefuls rely mainly on a fastball and a curve so it is quite unusual to see someone come out with a controlled knckler.

Another very promising ball player is Bill "Bull" Flynn who is earning his keep at the present time behind the catcher's mit and mask. Bill seems to know all the techni-calities of his job and in addition he is very ruggedly built to withstand forceful slides into home when the main objective is to uproot the catcher.

Lewe Stanaland seems to be a diamond star from way back in his high school days. The always unassuming soph-omore just donned his spikes and proceeded to belt the ball over the place as well as looking snappy as a new girdle at second base.

A note of irony must enter into this matter to make it complete. It seems that Roger Clarke, the one student most responsible for the baseball team as chairman of the magazine drive, is one of the expected standouts of the squad yet, when the local newspapers heralded the Pioneer team they completely left out his name. Roger was always on the short end of the publicity angle in baseball also. Our advice to Roger is to get a new press agent.

When I opened the mailbox a few weeks ago I was very happy to see a letter from Lemny Freilich staring me in the face. Lenny was captain of the baseball team last year and without a doubt one of the most popular and respected mem-bers of the team. Len was famous for his humor which made the long bus trips enjoyable experiences for all.

Lenny is presently in Germany serving the United States Army and he wrote that he is anxious to start a team in his group even if he has to do it all by himself. He sends all his best wishes to the gang at State. I thought it might be nice to pass on his address so that anyone so inclined could write to a really swell guy. Here it is:

Judging by the budget request submitted by the WAA, they are trying to line up their most active year in the history of the organization. The girls found firm footing for the group this year and it looks as if they are going to really move ou from here.

There is little doubt in my mind that Paterson State baseball fans who are style conscious will appreciate the uniforms sported by this year's SQUAD. The uniforms are grey and trimmed in orange and black with red numbers. The caps are black with an orange button and the socks are mostly black with orange at the bottom. In the words of the immortal bopster, they're real cool, man.

A question 'o art lovers: "What would you say if you saw Whist-immortal bopster, they're real cool, man.

So long 'til the next issue.

"How bad did Dave beat you? This is the question usually asked when two ping-pong players meet at Paterson State. We refer to, of course, the uncrowned king of table tennis, Dave Alexander.

Everyone groans when they remember that Dave is but a freshman and will reign supreme on sored by the MAA. There will be the tables for at least three more a complete tournament with years. On the other hand, this is very good news for the Pioneer

DAVE ALEXANDER

In the recent intramural tournaments, Dave outlasted all the competition available to capture the men's singles title. It might have been that Dave made his opponents lose by laughing as he is notorious for his sense of

Be sure that the next time you walk through the ping pong room School Paramus, presided. you notice the moustached fellow at the other end of the table knocking the ball around as if it were on a string. This will surely be Dave Alexander.

LEAVE IT TO THE GIRLS

By LUCY DRAKE

This column has never before been entirely devoted for two particular personalities. The two girls to whom we wish to give a salute, however, are the exception to the rule. They are the best imaginable companions, whether it is on a long trip to Glassboro, a week-end at Stokes Forest, or the re-hearsels for the All-College Review—no matter how you look at it, they're TOPS!! Tall, blonde Janet Dykstra is from Little Falls, while her sidekick and cohort, Joyce Windt hails from Garfield. To someone who has known them for three years, Janet and Joyce are "the greatest."

This happy-go-lucky duo is very active in college ac-tivities and the WAA in particular. They have helped with the banquets, served as club officers, worked on the Allthe banquets, served as club officers, worked on the All-College Review skit, assisted in arranging playdays, provided transportation to and from games (a la the Yellow Cab Co.), swept gym floors before basketball games, run errards, taken pictures for publicity, provided articles for the Paterson papers, and are the co-champion "Old Maid" players.

I doubt whether the "twins" have a serious moment between them more than twice a year, but these two K. P. (sometimes this does mean Kitchen Police) seniors are deneadability nersonified.

pendability personified.

Thank you is the simplest form of gratitude that all the girls who have worked with them can extend. Some have known Janet and Joyce for one year but others for four. Long or short, the acquaintance has, I'm sure, been a pleasure.

It is difficult for me to say how much we shall all miss Janet and Joyce come June 10. Joining with all the others, I would personally like to wish them all the sincerest good luck for the future.

"She's off her rocker."

Note: For best results, read this article before June 10.
After this date, the title will read: "Janet Dykstra—Gone With the Windt."
