## Dr. Hood Currently In Asia Teaching English To Afghans

Dr. Leon C. Hood, Director of Admissions at the college, his wife, and daughter have now been gone six weeks on a tour of duty with the International Co-operation Administration in Afghanistan. Dr. Hood is on a leave of absence from the college, and Mrs. Hood is on a leave of absence from the Coleman School in Glen Rock.

The Hoods will be working with the Columbia University team in the United States Operational Mission teaching the Afghans English as a second language. The local language is Persian. Dr. Hood is a specialist in instructional materials in language, while his wife is a specialist in elementary school language arts.

### Long Letter Describes Sights

Dr. Hood did take time out from his work to write a long letter to the college in which he describes the sights which he has seen, and the work he is doing. Following are several excerpts from the letter which illustrate his points:

"On all sides about us in the distance are the encircling mountains, grey and amazingly beautiful. At evening the mountains take on a faint hue. The stars come out and shine more brightly than we have ever seen them.

"We go out from our compound in the morning to be greeted by a flock of fat-tailed sheep being driven by a shepherd boy down the Russian built black-top road.

"Everything here is as strange as we could have wished. The towns and villages, the ruins of old dynasties and zoroastrian fire temples and all they stood for, the speech, the customs, the clothes, and the faces have engaged us. But in spite of the utter foreignness, there are outstanding possibilities for the active gift of friendship from the Americans among them.

"My immediate job is to get materials at hand for the Dardel.

(Continued on Page 3)

## English Class Presents "Death of a Salesman"

The English Club will present the film version of "Death of a Salesman" Tuesday, November 29, at 7:30 p.m. in The Little Theater.

Written by Arthur Miller, this play won the Pulitzer Prize and the New York Critics Award. "Death of a Salesman" is one of the most extraordinary plays of our time. It has been transformed to the screen in a powerful production with all its drama, compassion, and tragic impact.

The cast is headed by Frederic March as Willy Roman, the salesman who believed and taught his sons that a likeable personality was the key to success. Mr. March gives one of the most unforgettable performances in his distinguished career. Mildred Dumlock, Kevin McCarthy, and Cameron Mitchell are the other important members of the cast.

The Stanley Kramer production has done full justice to Arthur Miller's biting portrait, tempered with pity of man's illusions.

## NJEA Convention Attended By 25,00 Educators

The world's largest gathering of teachers took place in Atlantic City November 3. The New Jersey Education Association held its annual convention Thursday, Friday, and Saturday, November 10-12. More than 25,000 teachers converged on Atlantic City, and most New Jersey schools were closed Thursday, November 10, as well as Armistice Day, November 11.

Many Noted Speakers Appear Among the principal speakers at the convention were Sam Levenson, ex-teacher who won fame as a radio humorist; Max Lerner, noted lecturer and writer; and Joe A. Chandler, executive secretary of the Washington Education Association. Governor Robert B. Meyner addressed the opening session of the convention. Other convention speakers were Ewald Turner of Pendleton, Oregon, president-elect of the National Education Association; Dr. James M. Lynch, dean of students at Glassboro State College and president of the New Jersey Education Association; and Dr. Frederick M. Raubinger, State Commissioner of Education.

Much of the teachers' convention time was spent on meetings of more than forty teacher groups concerned with special subjects and special areas of interest. Roy Wilkins, executive secretary of NAACP, addressed the social studies teachers. Joseph Papp, producer of New York's Shakespeare Festival spoke to the English teachers and Joseph Krumboltz, author of prize-winning children's books was the speaker for the School Library.

## SHEA REPORTS BUILDING PROGRAM "PROGRESSING"

The Paterson State College expansion program is steadily progressing, reports Dr. Marlon E. Shea. Plans have been made to utilize both the 1958 appropriation of \$3,057,000, and the 1959 bond issue of approximately \$2,500,000.

### 1958 Appropriation Utilized

The 1958 appropriation from the state was used for the renovation of Haledon Hall, the new wing on Hunziker Hall, and the food-service building. The food-service building and the Hunziker Hall wing are expected to be completed and ready for use after January 1.

This new cafeteria will consist of two levels — one for lounging and one for dining. The ground level will be for smoking, relaxing, and will contain adequate facilities for books and coats. The second floor contains separate dining rooms for students, teachers, and maintenance men. The upper level will have glass siding and face New York City.

Wayne Hall, the present cafeteria, will be converted into a College Campus Center for student uses. The Central Heating Plant is now in partial operation — one of the three boilers is currently working.

### Dormitory Planned For 1962

As accorded by the Bond Issue, dormitory plans are probably going to bid in December. This girl's dormitory is expected to be completed by Spring, 1962.

(Continued on Page 3)

## Holman Advises Purchase of Student Policies

Dr. Mary V. Holman, Dean of Students, has advised all students who are not covered by the student insurance plan that they can now procure this coverage for the coming semester.

Students who failed to get insurance during the first semester may pay \$6.75 for coverage during the second semester. The student is protected in the following ways:

Accident Benefits — Reimbursement will be made up to \$500.00 for each accident occurring during the policy term. It makes no difference whether the accident occurs at College, at home, or while traveling. Expenses include X-rays, hospital bills, registered graduate nurses', physician's and surgeon's fees, laboratory, medicines, operating room, anesthesia, surgical dressings, casts and use of wheel chair, crutches or ambulance. Reimbursement for injury to sound natural teeth is covered up to \$500.00. This coverage is blanket in that all bills are paid regardless of individual amounts and not subject to the limitations set forth for sickness claims.

Sickness Benefits — Reimbursement will be made for actual medical expenses, not to exceed \$500.00 for each sickness contracted and causing loss during the policy term according to the following schedule:

Hospital Room and Board — up to \$12.00 per day.

Miscellaneous Hospital Expenses — X-ray examinations, laboratory, anesthesia, use of operating room, temporary surgical appliances, etc., when a student is confined as a

## AAUP Grants Chapter To PSC

Paterson State College was recently granted a chapter in the American Association of University Professors.

This organization seeks to help its members achieve their fullest professional growth and to help its members keep up their professional standards.

The elected officers of the chapter are: President, Dr. Alfred F. Young of the social science department; Vice President, Mr. John Fallon, English department; Recording Secretary, Dr. Ralph H. Walker, education department; Corresponding Secretary, Dr. Doris G. White, science department; Treasurer, Mrs. Ellen-Claire Wolf, education department.

Leon C. Hood

## Sophomores See Varied Activities At Stokes Forest

Extended hikes, conservation projects, evening campfires, and lectures highlighted the most recent sophomores stay at the New Jersey School of Conservation at Stokes State Forest.

Sunrise Mountain, 1,853 feet high, commanding a view of both Pennsylvania and New Jersey; the forest fire tower; and Swenson's Pond, inhabited by many busy beavers, were the goals of the hikes. Some hikers volunteered to accompany sixth grade children from Fair Lawn who were also camping at Stokes; others hiked in groups composed solely of college students.

Sophs Dump Shale, Saw Trees

The sophomores participated actively in conservation projects. They attempted to prevent soil erosion from exposed tree roots by dumping shale from wheelbar-

(Continued on Page 2)

## Poetry Society

### Announces Anthology

The American College Poetry Society has announced that its fourth semester anthology of outstanding college poetry is now being compiled for publication early next year. All interested students are urged to take advantage of this opportunity to have their work published.

Contributors must be the original work of the student (who shall retain literary rights to the material), and be submitted to Alan C. Fox, Executive Secretary, American College Poetry Society, Box 24463, Los Angeles 24, California. The entrant's name, address, and school must be on each page.

Poems, which may deal with any subject, may not exceed 48 lines; nor may any individual submit more than five poems. Entries

## Developing Independent Reading Is Theme of PSC Conference

Over 500 educators from many elementary, junior and senior high schools in the nearby counties were on the campus of Paterson State College in Wayne, New Jersey, Saturday, October 29, for a conference on the subject of "Developing Independence in Reading."

Dr. Mark Karp, Dr. Helen Robinson, and Dr. Marlon Shea at the Reading Conference October 29, 1960.

The BEACON staff is pleased to announce the distribution of the "Paper Back Review" with this issue. We hope all will find it helpful.

Dr. Helen Robinson of the University of Chicago, nationally known expert on the teaching of reading, and consultant to many schools and colleges on this im-

# Let's ALL Get Together Again

Well, the debates, the promises, the rallies, and the victory parties are over. The Democrats are victorious, and John F. Kennedy is the new President. He will represent the United States as a leader for four long years. In this crucial period he will be praised and he will be criticized. He will, in all probability, do his best to further democracy and to keep peace for the sake of his country.

Some who are disappointed are going to tear down the new President at every opportunity, and others will be big enough to respect his position and to accept his decisions.

As college students and future professional people, we must not let our emotions control our behavior. To outwardly display disgust and discontent is to futilely "beat our heads against the wall."

Many students at Paterson State were industrious in backing a candidate, and these people who conscientiously took a part in national politics must be congratulated. It is a difficult thing to select the man who you feel is best qualified and then devote time to promote his campaign in your community.

We should all, however, strive to raise the standards of our country by taking advantage of our democratic rights and privileges and by alleviating the twisted ideas in the minds of others through education. Thus we may proudly get others to stand with us as a flag goes passing by.

We must respect our responsibility as U. S. citizens and in doing so, accept and respect the leader voted for by the people.

## remember to give thanks

Of all the countries in the world the United States of America is one of the few countries that is living in inherited freedom, for this generation has never witnessed the thrill of gaining independence or the struggle of fighting for freedom.

Freedom is something taken for granted by people of this country because freedom has always existed as far as this generation is concerned. To be free from fear, to be free from hunger, and to be free from persecutors is a privilege for the common man in most countries. In this country, however, these freedoms are accepted by the common man without any thought whatsoever, although our forefathers sacrificed their lives, their possessions, their peace of mind, and their families because they had faith in the future generation.

One day is set aside each year to commemorate their optimism and faith. This day is Thanksgiving, a holiday for all Americans. As the nation celebrates this day, all Americans should remember to be thankful for the abundant wealth and freedoms which they now enjoy, and perhaps pray that the unfortunate people of the world might share these gifts.

The Beacon Staff wishes everyone a happy Thanksgiving.

## "E" and "I" Inquiring

**Question—**What is your opinion of Jr. Practicum?

**Anne-Marie Spelling:**  
I found Junior Practicum an inspiring and a valuable experience. My only regrets are that the practicum did not exceed the three weeks and that we were not assigned to observe in all the grades, for this is our only opportunity to see them in session.

**Claudia O'Connell:**  
I feel Junior Practicum gave me the opportunity to be true for myself what I had felt to be true for a long time. It is indeed very difficult, if not impossible, to put the theories learned in our classrooms into practical use in the actual schoolroom. While observing, I had the opportunity to visit several classes and I don't think many of our theories were put into practice.

**Irene Bayda:**  
Junior Practicum gave me the opportunity to be recognized as a teacher and to see all that goes on in the classroom during a period of three weeks. I felt it was very beneficial because it gave me the chance to work with children and to learn the experiences they encounter which can't be taught in a text book.

**Audrey Thalshelmer:**  
Experience is the best teacher and one never knows exactly what he will encounter until he is face to face with an actual situation. I found Junior Practicum extremely valuable and an experience all future teachers should be subjected to, before Senior Practice Teaching. To study "method courses" is one thing but to apply them in actual day to day teaching experiences is another matter entirely.

### Coronation Ball

The Coronation Ball is in the air. Last week the Sophomores cast their votes in the cafeteria ballot box for the band of their choice. Sophs will be notified as soon as one is chosen.

### SOPHOMORES

(Continued from Page 1)  
rows over these roots. To further the growth of good trees, they sowed down those that were unproductive and crowding out others.

Fine arts and music majors from Montclair State College joined with the PSC sophomores in evening campfires and other activities which included skits, games, dancing and singing. Entertainment in the form of ghost stories and square dance calling was provided by the MSC campers during two evenings. PSC students led one campfire, presenting skits and running a song contest. They also had charge of a game night, in which faculty and students both participated.

**Perinent Lectures Heard**  
Lectures on different phases of conservation were given by members of New Jersey State Conservation Department throughout the week. The topics included forest fire prevention, the facilities of state parks in New Jersey, and aesthetic appreciation of New Jersey's scenery.

## FACULTY SPOTLIGHT

Richard S. Desmond

Richard S. Desmond, Associate Professor, Director of Admissions, B.A., Antioch College, M.A., Teachers College, Columbia; Doctoral Candidate, New York University.

Mr. Desmond has taught grades 7 and 8 at Blair Academy, eighth and ninth grade English in Teaneck, and been director of the evening session at the Teaneck division of Fairleigh Dickinson. He comes to us from a position as Administrative Assistant and then Curriculum Coordinator in Paramus. He took his first two years of college work at Paterson State in 1937-39. He is married and has three children.

Leonore Hummel, Assistant Professor of Education; B.S., Queens College; M.A., Teachers College, Columbia University; graduate work at Miami University, Athens, Ohio, and at Columbia University School of Library Science.

Mrs. Hummel has taught mathematics and science in New York City schools, and has been librarian at the Bergen County Vocational and Technical High School for the last three years. She has done some work in market research, time study, and cost accounting. She is married and has one son.

Leonore Hummel

## Mock Election Results Parallel Real Thing

The results of a mock presidential election at Paterson State College—November 7 and 8 were as follows:

|                              |     |
|------------------------------|-----|
| Kennedy (Democratic-Liberal) | 487 |
| Nixon (Republican)           | 349 |
| Haas (Socialist Labor)       | 5   |
| Sinatra (The Clan)           | 1   |
| Lee (Conservative)           | 1   |
| Rocketeer (Republican)       | 1   |
| Total                        | 605 |

The election was conducted by the Problems of Contemporary Society classes.

### Practical Practicum

by Jane Ann Meyer

Practicum's practical—that's for sure! Before heading out for the three weeks of combat maneuvers, juniors were herded into the gym for an exhausting catalogue of do's and don'ts. But, oh how much was omitted!

Everyone knew that cooperation with school personnel was to be an area of rating but no one ever stretched cooperation to include scrubbing fast drying flo-master ink from the classroom floor or erasing the remains of Cabbage Night from the front walk.

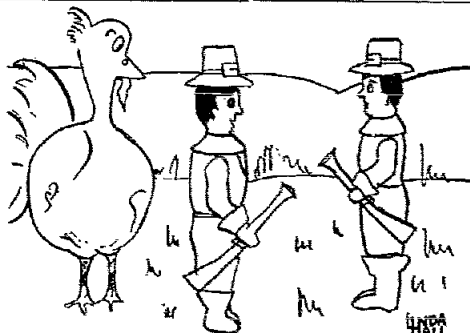

One "teacher" without benefit of PSC training in the intricacies of flag raising found herself confronted daily with thirty-third graders, a flag, and a flag pole. The professional answer: improvise! No less a challenge was keeping a straight face when the same third graders insisted upon confiding their "seriousst" problems.

"Observing" may include anything from greeting mothers at the front door to sipping tea in the home of one of the little pupils. Both are equally important to the students.

Hallowe'en is always looked forward to by first graders and even practicum teachers. One over-worked PSC junior dressed as an old lady accompanied by her dog, another junior, found herself visiting each classroom with a lecture on Hallowe'en.

Learning is a primary factor in junior practicum, and that's just what many of the future teachers did. "Pig in the Puddle", proved to be a fascinating word game for one of the first grade teachers.

Each day unfolded new and unexpected experiences. No two days could be the same, and certainly no day was dull. The results of this observation period has made more juniors eager to see what's in store for them when they reach senior year.

Don't Shoot Until You See The Whites . . .

# Educators Call 1961 Year of Decision; Foresee Pressure on All Colleges

"Next year will be the year of decision for New Jersey colleges," teacher spokesmen told the first of the college budget hearings at the New Jersey Education Association in Newark recently. They appeared at the review of the Newark College of Engineering budget, with statements urging adequate appropriations for all eight state-supported institutions and substantial increases in faculty salaries.

### Lynch Sees Pressure On Colleges

Dr. James M. Lynch, Jr., president of the New Jersey Education Association, forecast a major increase in pressures on the colleges by 1962, and insisted that the State must act this year in order to make good use of the new buildings authorized by the 1959 college bond issue.

Pointing out that there will be at least one-third more pressures on the colleges by 1962, Dr. Lynch said it would take two years to plan the equipment and recruit the faculties for the college buildings, which are now on the drawing boards. He especially urged action on the college salary program approved by the State Board of Education for all state-supported institutions of higher learning.

### Raichle: Salaries "Unrealistic"

Donald R. Raichle, professor of history at Newark State College and chairman of the College Salary Committee, spoke for the State Board's salary proposals. He called present salaries in the colleges unrealistic. "When the average 1960 June graduate is paid \$5400 a year, it hardly makes sense to offer \$4988 for an instructor who must have a master's degree and two years of experience," he said. "Not enough young men and women are entering the profession... and many because they cannot afford to although they would like to teach. With industry, other branches of government and local school systems offering more money than the present college salary schedule, we cannot hope to provide top flight instructors in our colleges and the university."

### 1961 Real "Year of Decision"

Nineteen hundred sixty-one — not 1969 when the college bond issue was passed — is the real "year of decision" on college opportunities for New Jersey youth, September '63, when many of the new buildings will be ready (and only 14 months after these budgets run out), the college pressures seem certain to be at least one-third greater than they are now even if we ignore the forces which are driving more and more New Jersey youth every year back into the state for their college education.

### NJEA CONVENTION

(Continued from Page 1) Association. Dr. Marion E. Shea, president of Paterson State College, discussed teacher recruitment at a meeting on teacher training.

### Other Special Interest Activities

Other major features of the three-day convention were an exhibit of textbooks and school supplies at which more than 635 dealers displayed their wares in an effort to interest the teachers; the traditional concert by the All-State High School Chorus and Orchestra, involving some 500 high school students; a series of special meetings on the problems of new teachers at each grade level; a travel fair to help teachers plan their summer vacations; and a number of special conferences on problems of certification, retirement, salaries and public relations.

## New Nurse, States Hope For Good Will

Mrs. Zybas

"I wish to establish a friendly feeling between the nursing of the sea and the students," states Mrs. Zybas, R.N., the new nurse at Paterson State College.

Mrs. Zybas, who is now working for her B.S. degree at Fairleigh Dickinson University, is in her first position as a school nurse. Formerly, she worked as a private nurse in an institution after attending Christ Hospital School in Jersey City. Mrs. Zybas is the mother of three children and has an adopted Korean boy who is now sixteen years old. At the present time she is saving money to bring him to America to attend college.

### HOLMAN ADVISES

(Continued from Page 1)

bed patient therein, up to \$75.00. Surgical Operations — Benefits are in accordance with a graduated schedule ranging from \$5.00 to \$150.00. This schedule is a part of the policy of insurance issued to the College — up to \$150.00.

Physician's Fees — Up to \$3.00 per visit on nonurgent cases while the student is confined as a bed patient in a hospital; or \$5.00 up to \$20.00 per visit elsewhere after the second visit — up to \$75.

Ambulance — For a community or hospital ambulance, up to \$15.00. Please make your application for insurance at the office of the Dean of Students prior to registration.

Payments may be made by check or money order and made payable to Student Government Association — Insurance. This insurance may be purchased prior to registration on February 1st. February 10 is the deadline for insurance payments. Although checks or money orders may be received earlier, insurance coverage begins on Monday, January 24, 1961.

Students under eighteen are often covered by the family Blue Cross Plan.

### POETRY SOCIETY

(Continued from Page 1)

which are not accepted for publication will be returned if accompanied by a stamped, self-addressed envelope, but they cannot be otherwise acknowledged, nor can the Society compensate students for poetry which is published.

All entries, to be considered, must be postmarked not later than midnight, December 9, 1960; the decisions of the Society judges will be final.

## USMC Recruiters To Visit Campus

The U. S. Marine Corps Officer Selection Team will visit the PSC campus November 21, 1960.

Marine officers will be here to interview interested students for both the ground and air officer training programs. These programs are the Platoon Leaders Class, the Officer Candidate Course and the Women Officers Training Class.

The visiting Marine Officers will furnish full details on these programs during their visit, including eligibility requirements and how to initiate applications. They will be located in the cafeteria from 9:30 a.m. to 2:30 p.m.

## SHEA REPORTS

(Continued from Page 1)

A large spectator gymnasium with accommodations for both men and women is also being designed. The future holds a new curriculum in women's physical education. The future also holds the possibility of a pool. The design of the new gymnasium will enable both men and women to utilize the pool with ease.

### New Auditorium To Seat 1000

The third building under process is the one-hundred seat auditorium. It will hold the music, speech, and dramatics departments. Paterson State is now working towards offering a major in music.

Because the speech department will move, the library will be able to employ full use of the entire building. The library will be remodeled and there is a possibility of an addition.

# "Country On The Move" Resis Describes Russia:

"A country on the move" was Albert Resis' summary description of Russia at an assembly November 8 in the Memorial Gymnasium. Mr. Resis, who toured Russia this past summer, stated that the country is a land of changes — in education, attitudes, economics, and

Mr. Albert Resis addresses an audience of students and faculty in the Memorial Gymnasium.

## DR. HOOD

(Continued from Page 1)

Mr. Altemain winter session for approximately 700 teachers. We are also in the midst of revising the English textbooks (grades 7 thru 14) and the whole range of science and social studies texts."

military matters. "Kruschnev's Russia" was the title of his talk. Education is geared to the importance of the field and the needs of the country. It is not strictly academic but is combined with factory and farm work.

Various Attitudes Have Changed. Attitudes of the people have also undergone changes. Few people know the actual political organization of our system. Nevertheless, they still consider theirs far superior. The people no longer fear the secret police because this group has lost some of its power.

Kruschnev is considered a very able leader by most; however, a few think he is too weak because of his permitting the U. S. flights over Russia.

Although Russia is considered an atheistic nation, the moral code appears to be rigid. The mores favored and taught are quite similar to that of Christians, especially Protestants. Public opinion is extremely powerful.

The principal change in Russia has been the economic growth it has undergone during the twentieth century. A reason for this, of course, is the fact that the Russian government can place emphasis on any sector of the economy that needs development. In any event, the important point is not the reason for their economic growth, but the growth itself.

Russia Presents Challenge. The challenge that the new U. S. President will have to meet — the challenge of the '60's — will be that of peaceful coexistence with the new Russia, which is reaching towards the U. S. in all fields with hopes of surpassing it by 1970.

John Civitello Awarded Prize For Abstract Arts. John Civitello, a senior at Paterson State College, was awarded a \$50 prize for abstract arts in the 29th annual New Jersey State Exhibition. He was presented with the Mrs. Victor R. Seidler Award at the Monclair Art Museum for his work entitled "Composition."

An art minor at Paterson State, Civitello has taken several art courses at the college, and is also a student of Stevan Kissel, a former member of the art faculty of PSC.

# Sports Whirl

## CROSS COUNTRY

Brian McColgan won his seventh consecutive cross-country race Saturday, October 29, by defeating the best from Cheney, Pa., Montclair, Rider, St. Peter's, and ersy City. Brian ran the fastest race of his college career at this meet. His time for the four mile course was 20:57. Brian also won a gold medal at this meet to accompany the bronze one he won last year. The Montclair Invitational meet was also our best team performance since the sport was started here in 1958.

Paterson was assisted by Bob MacGuire of the soccer team who ran his first cross-country race and finished tied for eighteenth place with Bob Fleming, also of Paterson. Roy Marshall, Tom Gillispie, Ron Currie, and Hank Edelhoiser all ran their best.

The Queens College meet followed the Montclair Invitational. On the Queens course every man from Paterson ran his best time. Paterson members took the first 5 out of 8 places. McColgan ran his best five mile time of the season at 28:11 to king first place. Bob MacGuire running his second cross-country meet placed third, Roy Marshall was sixth and Hank Edelhoiser was eighth.

## PRE-SEASON BASKETBALL

Paterson State visited Upsala College last Thursday for a pre-season scrimmage. If this scrimmage was any indication of how the boys will play throughout the season, I believe we can look forward to a winning record this year.

John Jacone, our new captain is one of the six returning lettermen from last year. Armand Palmisano, Art Boune, Cliff Knapp, and Jack Moran are the others. Added to the squad from the J.V.'s are Joe Ciggan, Jack Paladino, Richie Trexler, Lou Garich, and ulcer-ridden Richie Garafalo. Also back after two years is Bob Jones. Coach Ken Wolf is expecting this miniature obelisk (6'7") to add a considerable amount of strength to the team.

In recent interview, Coach Wolf said that he was really pleased. "They're playing good ball," he said, with a hint of complacency.

This season's basketball highlight will be the game with Manhattan College on December 13.

Coach Vital one made his final J.V. cut last Thursday. The J.V. team consists of eight new freshmen, and one new sophomore. Gerry Genese, John Spreen, Dennis Quardt, and Steve Geydoshek are expected to give the greatest amount of help to the J.V.'s.

## SOCCER

The 1960 soccer team deserves quite a bit of praise. It is the first team at Paterson to ever have a successful season. Our record for the year is 5-3-1. Congratulations, Doc Houston and worthy players!

The Bloomfield soccer game last October 27 was a good one for Don Erskine. He scored three goals in less than ten minutes to break a 0-0 tie. The final outcome of the game was Paterson 5, Bloomfield, 0.

Well, gang, it's that time again. The time when the coaches, the players, and the few sports enthusiasts start pleading for some support at our basketball games. Try to make one game — will you? Just one!

**"BIG MAN"**  
**GEORGE MIKAN** - JOINED THE MINNEAPOLIS LAKERS IN THE LATE '40'S AND MADE THEM CHAMPIONS FOR 4 YEARS -

IN 1950-1951 MIKAN SCORED 1932 POINTS, GIVING HIMSELF A 7 YEAR AVERAGE OF 2.6 POINTS A GAME FOR 290 GAMES!

MIKAN'S PERCENTAGES- 77.6% FOR ALL SHOTS FROM THE FREE THROW LINE- 41.7% FOR FIELD GOALS - THESE ARE THE HIGHEST IN THE HISTORY OF THE SPORT!

# Leave It To The Girls

by "Sam" Levy  
 Due to difficulties beyond our control, the high school playday for November 5 was cancelled. We, the officers of WRA would like to thank all the girls concerned for their enthusiasm and co-operation. We feel this playday will be more successful if held in the Spring. Please be as enthused then as you have been up to this point. All students now on committees will be asked to volunteer their time and services again in the Spring.

Our Paterson State girls participated in a playday given by Glassboro State College November 16. It was an all-day affair, starting at 12:00 when we left the campus by bus to travel down to Glassboro. When we arrived we had a registration and coffee hour with all the other colleges participating. Then the fun began. We were divided into teams for volleyball, basketball, and bowling. Following the activities, a meal was served. We all must add that Glassboro girls are as friendly as Paterson girls in every way.

We meet Jersey City State on November 29 for a volleyball playday on their campus. Results for all playdays will be posted on the gymnasium bulletin board.

## Danforth Invites Senior Applicants

The Danforth Foundation is accepting applications for the tenth class (1961) of Danforth Graduate Fellows. Applicants may be college senior men and recent graduates who are preparing themselves for a career in college teaching, and are planning to enter graduate school in September, 1961, for their first year of graduate study. The foundation recognizes men from the areas of the natural and biological sciences, the social sciences, the humanities, and from all fields of specialization to be found in the undergraduate college. Other qualifications for candidacy are: outstanding academic ability; personality congenial to the classroom; and integrity and character, including serious inquiry within the Christian tradition.

**Holman Named Liaison Officer**  
 President Marion E. Shea has named Dean Mary V. Holman as the Liaison Officer to nominate to the Danforth Foundation two or at the most three candidates from the college for the 1961 fellowships. These fellowships are fundamentally "a relationship of encouragement" throughout the years of graduate study, carrying a promise of financial aid within prescribed conditions as there may be need. The maximum annual grant for single fellows is \$1,500 plus tuition and fees charged to all graduate students; for married fellows, \$2,000 plus tuition and fees charged to graduate students, with an additional stipend of \$500 for each child. Students with or without financial need are invited to apply.

**Other Scholarships Permitted**  
 A Danforth Fellow is allowed to carry other scholarship appointments such as Rhodes, Fulbright, Woodrow Wilson, and Marshall, concurrently with his Danforth Fellowship, and applicants for these others are cordially invited to apply at the same time for a Danforth Fellowship. All applications, including the recommendations, must be completed by January 15, 1961. Any student wishing further information should contact the Liaison Officer.

# McColgan Wins Invitational; Harriers Take Queens 22-33

Sophomore Brian McColgan won the fifth annual Montclair State College Invitational Cross Country Meet, Saturday, October 29, in 20:57, 10 seconds off the course record. McColgan and Ron Sullivan of Cheney State College ran side by side for the first 3 1/2 miles with Brian winning in the last 100 yards.

Cheney State won the team title with 35 points, Montclair was second with 39, and Paterson was third with 33. St. Peter's Jersey City State, and Rider College did not enter complete teams.

Paterson's next finishers were Bob MacGuire and Bob Fleming, who tied for 18th place. Bob MacGuire, soccer team halfback has been a great asset to the team since coming out in early November. He has finished second for Paterson in both races.

Paterson State's cross-country team won their second meet of the 1960 season defeating Queens College 22-33 at Van Corland Park, The Bronx on Wednesday, November 2. Brian McColgan won his eighth race in a row, six this year, as he toured the five mile course. Gine and Bob Fleming finished in a tie, this time for third place. Paterson State is getting double duty from MacGuire who also plays halfback on the soccer team.

The Summaries: Paterson 22, Queens 33.  
 1. Brian McColgan, Paterson; 2. Bob Fleming, Paterson; 3. Bob MacGuire, Paterson.

## SOCCER TEAM ENDS SEASON WITH 5-3-1

Paterson State's soccer team finished its second season of intercollegiate competition with a 5-3-1 record. In its last three games, the team beat Bloomfield 5-0, lost to Jersey City 4-1, and lost to Trenton 7-2.

In the Bloomfield game, played at Wightman Field, Sophomore Don Erskine loomed in three goals while Bob Demarest and Art Borne had one each. Erskine, center-forward, scored three of the four goals scored in a slam-bang fourth quarter.

Paterson could only come up with Bobby Demarest's score as they lost to Jersey City State 4-1.

In the last game of the 1960 season, Paterson State lost to Trenton State by a 7-2 score. Two Freshmen, Carman De Sapo and Jim Heffernan stopped the game from being a complete rout as they each scored one. Playing in the last game of their collegiate career, Art Borne, Cliff Knapp, Bill Schmitter, John Corcoran, and Bill Fleming put their all into it, but it was not enough to stop the Trenton team, who were also the league champions with a 5-0 record.

# Pioneers' Prophecies

- Nov. 22—Freshman-Junior Class Meetings—1:30 p.m.—Memorial Gym
- Nov. 23—Thanksgiving Recess Begins 9:30 p.m.
- Nov. 28—Thanksgiving Recess Ends—8:30 a.m.

- The Scarlet Letter — Nathaniel Hawthorne
- Gargantua — Rabelais
- Madame Bury — Flaubert
- Faust — Goethe
- Manon Lescaut — Antoine Provoost

## DEVELOPING

(Continued from Page 1)  
 portant subject, was the main speaker.  
 Dr. Robinson defined independence in reading as the ability to be self-motivated — to operate without guidance or assistance — to learn how to learn by and through reading. Children begin to read books earlier than they used to, with almost all junior-high age children reading under direction. The percentage of readers declines in high school, with many reading little after they graduate. Do we leave students dependent upon teachers to direct, guide, and select their reading? Dr. Robinson thinks that we do.  
 Is all this worth the trouble? Dr. Robinson feels that any teacher who does not believe that it is eminently worth the trouble is in the wrong profession . . . that "book-love" is the key to life long pleasure and profit that every teacher covets for his students.
