October 2, 1964

State Scholarship Deadline Set

Deadline for New Jersey State Scholarship applications has been set at November 16, 1964, has announced Mr. John Huber, Department of Student Personnel.

State Scholarships are valued at \$400 annually or the cost of tuition at the college a student attends, whichever is less. Each scholarship is renewable and may be held for a four-year period of undergraduate study.

Applicants for state awards must meet the following qualifications:

1. New Jersey residency for 12 months prior to making application.

2. Financial need in obtaining a college education.

3. Satisfactory score on the qualifying examination.

4. High moral character, good citizenship, and dedication to American ideals.

5. Intended enrollment as a full-time student in an approved college or university.

Interested students should see Mr. Huber (second floor, College Center) for more information and application blanks.

Director Announces Dormitory Vacancies

Dr. Margaret Dunaway, director of residence halls this year, has announced that rooms in Pioneer Hall and Heritage Hall are available for girls interested in living on campus. This year Paterson State is disregarding distance restrictions and considering those students with commuting difficulties and transportation problems as eligible for campus residency.

With the opening of Heritage Hall, 100 more girls can be accommodated in addition to the 148 in Pioneer Hall. All furnish-ings in each room including drapes, bedspreads, blankets, and bed linens are supplied by the college. Both halls have their own lounges, recreation rooms, study rooms, and kitchens equipped with stoves, refrigerators, washing and drying machines as well as ironing boards. The girls eat their meals in Wayne Hall.

Each floor in the dorms is governed by its own officers, all working under the same constitution.

All girls interested in residing in either Heritage or Pioneer Hall should report first to Dr. Marie E. Yevak, assistant director of student personnel, where room reservation contracts can be secured and fees discussed.

DR. FREDERICK M. RAUBINBER, State Commissioner of Education as he spoke at Convocational ceremonies yesterday. Dr. Raubinger's speech stressed the importance of the individual.

"Successful Student Successful College" Says Dr. Raubinger

The official opening of the college year took place yes-terday in Memorial Gymnasium, when Dr. Marion E. Shea, president of the college, presided over ceremonial convoca-tion. Dr. Shea welcomed the student body, greeted 690 mem-bers of the class of '68 and 26 new faculty members before introducing the guest speaker, Dr. Frederick M. Raubinger, State Commissioner of Education.

Dr. Raubinger took note of the fact that the individual in American society is being engulfed by big business, big government, big coïleges; modern life is becoming more and more impersonal. Students find that they are no longer individuals but only statistics.

"The statement, What you get out of college depends entirely on you', is only partly true," the commissioner said. "It depends on the inter-action between student and professor and student and subject matter and on what happens to the student as a person as he goes through college.

"I believe that the mere accumulation of facts is of small value but that knowing how to marshal facts to shed light upon a problem can be important lost two of its charter members indeed.

"In our state colleges," Dr. Raubinger continued, "we have attempted to keep our classes small enough to permit the interplay between teacher and student.

"I hope we measure our success by the number of our students who succeed and not by the false standard that a college is good in relation to the number who fail. I am interested future issues of the BEACON.

in your welfare as a student here; hopeful that with your best efforts for you as a person, your experience here will be good and rewarding...it is still the number ONE that will be the important number."

Committee Plans Leadership Labs

The success of PSC's first Laboratory, held last May Sharpe Reservation, New York. has led to the formulation of plans to conduct a second Leadership Conference. The Planning Committee of this program has increased its number to nine since the original committee due to graduation in June.

The 1964-65 committee consists of seniors George Cass, chairman, Cathy Cahill, and Cliff Williams; juniors Steve O'Connell, Mary Ann Corradino, and Lon Lawson, ex-officio; sophomores Dick Van Emburgh, Sue Matthews, and Carol Luiken; Dr. Marie E. Yevak, assistant director of student personnel, is advisor to the group.

Watch for furthur information on the Leadership Laboratory in

JFK Fund Drive Opens; Deadline Set At Oct. 23

John F. Kennedy was the symbol of America's youth. His freshness, idealism and interest in youth and education have identified him with students in colleges throughout the world. College students now desire to preserve his memory and seek a monument by which the name of John F. Kennedy may be recorded for posterity. Such a memorial is the John Fitzgerald Kennedy Library in Boston, Massachusetts. During the weeks of October 5 through 23, Paterson State College will participate in a nation-wide, campus fund drive to raise \$250,000 toward the library goal from students, fac-ulty and staff. Donations will be accepted in the Octagonal Room of the College Center on Monday, October 5 and Tues-

day, October 6; in the Wayne Hall Lounge from October 7-9. During the week of October 12-16 donations will again be accepted in the Octagonal room; from October 19-23, in the tional community. Wayne Hall Lounge.

The signatures of all who have contributed will be recorded on designated sheets so that we may have a Memorial Book of signatures placed in the library. By signing the sheets, all who contribute to the library will re-cord their admiration for the an Archive and an Institute. late President and their participation in the construction of the structure. These sheets will be on permanent record, bound in to convey the issues, achievevolumes by college, at the library. This program is sponsored Kennedy years. There will be a by the National Student Committee of the Kennedy Library Inc., and will be administered by the Student Government Association on campus.

The Kennedy Library will be erected at a site donated by Harvard University near the Charles River. President Kennedy personally chose this site

JOHN F. KENNEDY

Editorial

Traditionally, college students have always been thought of as being sophisticated-the degree of sophistication proportionate to the college attended. Here at Paterson State however, this mantle of sophistication is perennially shed when members of the sophomore class wreak their vengenance upon the incoming freshmen by using the ridiculous excuse of "getting acquainted." This petty practice, known as hazing, is actually an open season on extroverts. Young men and women, dressed each year in a variety of absurd costumes, are told to perform various and sundry activities which are embarrassing to those commanding the performance, those performing, and those watching.

The result of this year's spectacle seems to illustrate the general opinion of hazing. This fall semester saw the enrollment of 690 freshmen. At no time could we see even half of that number of freshmen in costume on this campus. What happened? Could it be that these new people saw through this childish situation and refused to participate? If this is so, they can hardly be blamed. What is one to think when, upon entering a totally new phase of his life, he is told that in order to make further acquaintance with his fellows, he must dress himself in some outlandish garments and parade himself before the public like the village idiot.

Since the Freshman Dance was such a success, would not other activities in a similar vein be more beneficial and less embarrassing?

A LIVING MEMORIAL

Less than a week ago, the results of an exhaustive search were made known. The Warren Commission report on the assassination of John F. Kennedy, the work of a dedicated team of men, was revealed to the American people. Almost a year of intensive study to determine all that could be known about the tragedy that befell the country last November, has finally come to an end. The Commission, instituted by President Johnson, has been dissolved. There is little more that can be done. John Fitzgerald Kennedy is dead but his memory lives on.

We, at Paterson State, can do much to keep alive the youth. the vitality, the dedication and the love of country that President Kennedy lived and died for. The Kennedy Library to be established in his memory, is a project that the President himself was deeply interested in. Plans for the building of this monument have already been made and the appeal for funds has gone out all over the country.

A special plea has been made to the young people of the United States. Schools and colleges throughout the nation have been asked to participate in fund raising projects to finance this memorial.

We sincerely hope that the students of this institution will join with the thousands of young people in these United States in making this tribute to John F. Kennedy a true example of the American way of life.

(M. A. C.)

STATE BEACON STAFF

The State BEACON is published weekly during the fall and spring terms by the Student Government Association of Paterson State College, 300 Pompton Road, Wayne, New Jersey, with editorial offices in the College Center. It is supported through SGA appropriation and advertising. Contents of this newspaper represent the judgment of the staff, acting in accord with the BEACON constitution, and does not necessarily represent the judgment or beliefs of the SGA, Paterson State College, or the State of New Jersey.

and especially for college students and young people.

Housed in the Archives will be the personal papers of President Kennedy, as well as copies of the public records necessary to an understanding of the issues and actions of his administration. In addition there will be a collection of books, magazines, newspapers and printed documents bearing upon the President and his times. It will also contain study rooms and the most advanced equipment for a continuing oral history project, for documentary reproductions, for use of microfilm and for the full exploitation of audiovisual material. Once again all of these opportunities to see history will prove to be advantageous to college students as well as the general public.

Finally, the Institute will seek to further one of the President's deepest concerns-his continuing attempts to bring together the world of ideas and the world of affairs: the world of scholarship and the world of decision. A prime objective of the Institute will be to enlist young Americans and young people everywhere in the understanding and practice of democratic political life and public political life. Such an institution will be responsive to the needs of the times, and its resources and programs will therefore strive to bring intellectual and public affairs closer together in many ways. Through lectures and seminars by professors, through meetings with undergraduates interested in public affairs, through fellowships for students and scholars, through a publication program and through literary and public service awards, such a program will be administered. While the Institute will not be committed to a program or a policy, it will be established in accord with President Kennedy's own spirit of free inquiry. As the first Presidential Library to be located in a metropolitan area, it will be the most fit-

Letters To The Editor

Contributions to this column are the opinions of the readers and, as such, are unsolicited. All letters are required to be of a standard that will reflect the best interests of the college. Anonymous letters will not be printed but names will be withheld on request. The Beacon reserves the right to edit all letters.

It was most gratifying to me to see how the Freshman Welcome Dance evolved into a well-executed school function. There are so many students to thank that I would prefer not to single you out by name. Instead I shall personally thank each of you for working so diligently to make the dance a huge success. The decorations were beautiful the band delightful!

However, I wish to thank in particular the "professional"

Sincerely, "A Thirsty Pioneer" Dear Editor:

Monday afternoon, I went home with three freshmen who park in the new freshman park. ing lot. They use Gate (2), the same gate used by those freshmen parking in the Veritans lot. We reached the car at 4:30. but it was 5:05 before we came to the Veritans gate. I was told that this happens almost every afternoon.

I realize that employing a policeman to direct traffic outside Gate 1 would be an expense to the college, yet I feel that the freshmen should not have to add an extra half hour to their school day.

Sincerely, Cathleen Sain '67

Editor's reply: The administration is fully aware of the problems mentioned in your letter. However, a more acute problem would have been creatied had the new parking lot not been built, namely, that of accomodating several hundred freshmen. Various solutions are being considered by the administration in order to facilitate the flow of cars out of Gate 1, among them the possibility of a 'raffic light. Another consideration is the widening of the entrance to the freshman lots for more visibility. This matter has been taken up with Trenton since Camp Veritans is not college property.

PSC Enrollment Reaches Height

An enrollment of 2,205 students has been announced by Sam Cooper, Registrar, Dr. comprising the largest number of students ever enrolled at Paterson State College. There are 690 freshmen who were selected out of 2800 applicants. were Approximately one-half of the freshmen are General Elementary and Kindergarten Primary majors. The other portion of the class is composed of secondary majors concentrated in English, Math, Social Science, Biological Sciences, Art and the other new curriculums. These new curriculums of Music and Women's Physical Education were filled to the quota alloted for each. This year's senior class consists of 496 students, the junior

class 515, the sophomore class 504 and the freshman class 690 students.

I.D.'s

those I.D. pictures for freshmen and transfer students who have not had them taken have been scheduled for next Tuesday, October 6, from 10:30 a.m. until 1:30 p. m. in the College Center Conference Room.

Is This Necessary For A Sound Education ?

Experimenters Return **From Summer Abroad**

Four Paterson State students spent their summer abroad in connection with the Experiment in International Living. They are Cathy Cahill, Pete Belmont, Bev Rabner and Lon Lawson, who traveled to Greece, Egypt, Israel, and England, respectively.

The Experimenters, sponsored by the Student Government Association, had orientation meetings before they reached their host countries. Lon left for England in June aboard a boat given over entirely to American students going overseas. His orientation sessions took place on the

ship. Cathy, Pete, and Bev went to Putney, Vermont, home of the Experiment, where they attended orientation meetings. These three ambassadors then left by plane for their respective countries.

The Experiment is a private, don Hall. non-profit organization in the field of international education founded in 1932. The Experiment believes that significant advances toward world peace can be made at the individual level, by introducing the people of one country to the people of another. The essential feature of each experiment, therefore, is the three to four week stay living as a member of a foreign family. After this homestay, the remainder of the stay is spent touring the country in which they were living. This informal tour enables the American student to invite a member of his host family to join him. The tour may be by train, plane, boat, bus, bicycle, on foot or a combination of these. The Admissions Committee for the program places heavy emphasis on the background and

personal preferences of each applicant is required to submit. From these, so far as possible, it is determined whether an applicant can adapt himself to a variety of situations, such as those

would present. Applications will be available for interested students later this semester. Information may be obtained from Dr. Marie Yevak, assistant director of student personnel, in Hale-

Study Lectures Begin Monday

The fourth annual series of freshman lectures concerning study habits will be given by Dr. Grace M. Scully, assistant director of student personnel, beginning on Monday, October Each lecture in the series 5. will be given four times, so that each freshman may attend a session of the program. The lectures will be held in Wing 101, the science lecture hall, at 4:30 p.m. on the following days: When to Study-October 5,

- 6, 7, and 8. How to Study-October 12,

The Department of Health and Physical Education is offering 2 minor teaching fields; namely, Health Education for all students, and Physical Education for women students. The programs for these fields are posted in the lobby of Memorial Gymnasium.

Students interested in Health Education should see Dr. Lepanto, and those women students interested in Physical Education should see Miss Lee. This should be done very soon.

R. Chambers Heads Slater

Mr. R. Chambers, director of Slater food service at PSC comes to this campus with much pastexperience. Having previously worked on the campus of George Washington University in Washington, D. C., he began his career in a chain store and later became interested in food service while on the road for a food company. This interest led him to Slater where he was trained to fill his present position to his fullest capabilities.

Mr. Chambers finds his equipment good and believes his help is both efficient and competent. Conscious of the fact that customer-management relations is of utmost importance, the policy he follows is to please the majority with a main dish and to have a second dish for those who don't like the main dish. The biggest headache he finds in food service in monotony. Mr. Chambers is attempting to vary the meals in such a way as to prevent monotony and, at the same time, to keep within the range of campus tastes.

living in a foreign country sophomores, juniors and seniors. Kappa Delta Pi Elects Officers

The newly elected officers of the Zeta Alpha Chapter of Kappa Delta Pi for the 1964-65 academic year are President, Clifford Keezer; Vice-President, Ethel Gamble; Corresponding Secretary, Gilda Walsh; Treasurer, Rheta Solomon; and Historian, Jeanette Kocak.

The Zeta Alpha Chapter of Kappa Delta Pi, a National Honor Society in Education, was established at Paterson State College on May 31, 1945. The worthy educational ideals, and Mr. Chambers hopes will speed first chapter of this organiza-

tion, however, was formed in 1911 at the University of Illinois.

The purpose of Kappa Delta Pi is to encourage high professional, intellectual and personal standards and to recognize outstanding contributions to education. To this end it invited to membership those person in the senior, junior, and sophomore classes who exhibit comqualities, mendable personal sound scholarship.

Mr. Chambers pointed out that there are no immediate plans for any dramatic changes in the present system. He is working on methods to speed up the present system with such inovations

as new milk dispensers and self-

service soda machines. It is im-

provements such as these which

service and prevent bottlenecks ...

Danforth Foundation Offers Fellowship

Fellowships of up \$2,200 have been announced by the Danforth Foundation. The Graduate Fellowship program was established in 1951 with the aim of giving personal encouragement and financial support to selected young men who seek to become college teachers.

Outstanding intellectual promise and personality, a genuine interest in religion, and high potential for effective college teaching are sought. The age limit is 30. No graduate study prior to application is allowed. Fellowships are open to qualified male seniors and graduates of accredited colleges teaching or research assistant-

in the U.S. in any field of study. The award is for one year and is normally renewable for a total of four academic years of graduate study. Experimental

Courses Set

The Chad Mitchell Trio, musical commentators on the world today, will appear at Paterson State on Thursday evening, October 29, under the sponsorship of the Evening Series Committee of the SGA.

Formed at Gonzaga University in Spokane, Washington, in 1959, the three members of the group are baritone Joe Frazier, bass Mike Kobluk and tenor Chad Mitchell.

Under the musical direction of Milt Okun, the trio has received widespread publicity as a result of their controversial musical satire. Their lampoon. conservatism in "The John Birch Society" was banned from play on several major radio stations because of its biting criticism of the right-wingers. The trio's political observations are York's Blue Angel, and at numalso evident in a soft-shoe spec-ialty, ''Barry's Boys,'' dedicated to nominee Goldwater's followers, and in their critical analysis of Billie Sol Estes' financial dealings in "The Ides of Texas.'

The trio differs from the usual folk music group in that they do not play instruments. Two accompanists, Paul Prestopino and Jacob Anders, provide the chased in the Octagonal Room musical background for the trio. Believing they are not true "folksingers" because they have on October 8 and 9. Beginning not "lived" their songs, the October 15, tickets will again be group obtains its material from sold in the Octagonal Room. Ticvarious sources, ranging from kets for Paterson State students the repertoire of other folk mus- with I.D. cards are \$1.00, and icians to those songs penned by those for guests are priced at today's young writers of folk music.

Although the publicity they have received results primarily from their satire, the trio focuses its main attention on songs in the traditional folk manner, both old and new. The trio has performed at concerts at Carnegie Hall, at nightclubs like New erous college concerts. Among their best-selling albums are "Reflecting," "Blowin' In The Wind," and "Singin' Our Mind."

Tickets will be on sale from October 5 to 9 and October 15 to 29 from 8:30 to 3:30. Students going out on junior practicum should get their tickets before October 9. Tickets may be purof the College Center on October 5, 6, and 7, and in Wayne Hall \$2.00. A limited number of guest tickets will be available.

Two new approaches to General Education have been introduced at Paterson State this year. One coordinates English and Speech into one course; the other is based on a new method of studying biology.

Approximately 115 freshmen and four faculty members are launched on a new General interdepartmental Education program called PROJECT AL-PHA. The new course continues for the entire freshman year and coordinates the writing and speaking skills usually learned in two separate freshman courses. This pilot group of freshmen were selected at random and invited to participate in the program.

The linguistic approach to the study of language, which is new for many students, is highlighted throughout the year. Listening, a neglected skill, is also stressed. The group is under the direction of Dr. Mildred Wittick, professor of English, Mrs. Sidney Berman, assistant professor of speech, Dr. Donald Duclos, assistant professor of English, and Dr. James McCarthy, assistant professor speech.

A second new approach is a course in biology designed for citizens of the space age. It differs from traditional biology in three ways: the year's work is based on a few great ideas of life on this and other planets, laboratory investigations are in a few selected areas for study in depth, and readings from current paperback and offprints from the Scientific American constitute the backbone of the course

One aim of this course is to encourage students to life-long interest in science. The instructors are Mr. W. Engels, assistant professor of science, and Dr. M. Geller, associate professor of science.

Lerner Discusses "Age of Overkill"

"The Age of Overkill' will be discussed by lecturer Max Lerner at 1:30 p.m. October 8 in Memorial Gymnasium. Mr. Lerner, an author, teacher, and co-lumnist, received his B.A. degree from Yale and his Ph.D. the Robert Brookings Graduate School of Economics and to have improved in Mr. Ed-Government. He is a regular wards opinion since his last columnist for the New York trip there nine years ago. Here Post.

Mr. Lerner in the past has said that ours is an "age of the power surplus" and that we humanity 50 to 75 times over, a reality he has termed "the overkill factor."

Several of Mr. Lerner's books are now on reserve in the Sarah Byrd Askew library. Among them are America as a Civilization, Education and a Radical lighted his stay in Spain. Built Humanism, and his latest book, by that country's dictator Fran-The Age of Overkill.

Professor Highlights Summer In Europe

We are all cognizant of the fact that our vast planet is steadily shrinking but try to imagine the look on Dr. Don Edward's face when, three thousand miles from the Paterson State Campus, he literally collided with Mrs. Ruth Fern of the English Department. That is what happened as each was coming from his hotel at Stratford-on-Avon, England.

During his stay in England Mr. Edwards attended the Shakespearian Festival and saw four of the celebrated writer's plays, and was able.

through a friend to visit back-stage. "There was such com-as a memorial for all those who plete organization; everything died in the Spanish Civil War. had its place," he observed. "I was amazed by the terrific weight of the costumes and their elaborate styling." While staying in Stratford, Mr. Edwards bought everything conceivable that had some connection with Shakespeare, but try as he might there was no backscratcher to be found. In London he proved the theory that one can live on five dollars a day when he obtained bed and breakfast for only \$3.50. "It was clean and comfortable," he commented, "and the breakfast was bigger than many I have had in the U.S. You also tend to be thrown in with more fascinating people."

The British economy seems again he noted the superior organization of the city, especially the "tube", or what we know as the subway. Before leaving now have enough weapons to kill the island, he and his companion, a professor from Boston, visited such historic landmarks as Westminister Abbey, Dr. Johnson's house and the royal apartments at Windsor Castle 'which were truly royal''.

The Valley of the Fallen highcisco Franco as a personal

It is hewn out of solid rock in the side of one of the mountains.

October 2, 1964

"Paris is probably the most exciting but also the most expensive city in Europe and the one which seems to be the most expertly planned," noted Mr. Edwards after being asked to compare it to Rome. "Not just the tourist attractions but also many of the cultural events are steeply priced. For example, I paid \$20 dollars for a ticket to an opera, but felt it was well worth it since I could not see it at any other time.

During his stay in Germany he was able to work off some of those gourmet delights enjoyed in previous countries, for it was quite a climb to reach mad King Ludwig II's self-designed mountain castle, Neuschawanstein in Bavaria. He remarked that the view was "breath-taking." The German cities seemed to be untouched by time and much of the medstill reieval architecture mained. "Women Without a Shadow" proved to be one of the trip's cultural highlights. Opening one of Munich's opera houses, it included two Americans in the cast who carried their parts extremely well. "I

Professor Edwards

(Continued From Page 4)

was very proud," said Mr. Edwards, smiling. Another highlight of the trip was at an open arena in Verona where they saw an extravagant presentation of "Faust". Here again the organization was so fantastic that the angels seemed to float down from the heavens. The acoustics were so good that they could hear perfectly, even though they were seated near the top of the arena. One factor did make it rather uncomfortable viewing for the professor. He wished that he had been informed of the coolness of the climate for he found himself in need of an overcoat. This was contrasted by the weather in Rome where he became a victim of a sunburn more serious than any he had received in the States.

"Probably the friendliest country was Greece," he noted but in the same breath the professor also remembered it to be the poorest. He can never forget the sight of a small boy, lying vicinity of cafeteria. If found, on the ground asleep with a please notify Beacon office. Re- or so, as a series of glaciers carvcigar box containing a single ward.

ny. Judging by his experiences the Europeans like Americans more than we are led to believe. Those with whom Mr. Edwards came in contact did not mind going out of their way to help him. Another aspect that was very impressive was the feeling of great loss many of the Europeans felt when President Kennedy was assassinated.

coin of less value than our pen-

"Anyone planning to visit Europe at some later date," he advised, "should try to bring a good supply of warm clothes and avoid the tours unless you very lonely, because they tend to give the tourist only a bird's eye view of the countries." All in all, this trip was very satisfactory since it not only replenished his supply of teaching material but renewed his enthusiasm for many of the countries visited.

Editor's Note: Mr. Thomas is a sophomore GE major from Lyndhurst. He has contributed various articles of his type to several trade magazines and plans to contribute to the Beacon on a bimonthly basis.

THE MEADOWS by Charles Thomas

Situated just west of the Palisades and extending northward from the edge of Elizabeth almost to Hackensack is thirty thousand acres of brackish, foul-smelling tidal marsh known commonly as the meadows or meadowlands. It is to most people an obnoxious, smoldering garbage heap, or at best, a regrettable natural waste converted into a regrettable man-made waste. But here, a scant two miles from the Westside Highway, is an untamed wilderness that hides much of ts natural beauty and wonder from the casual observer by a mantle of vast starkness.

If one should travel by car sandstone and shale between the over any of the many roads that basalt of the Watchung or criss-cross the meadows he may Orange Mountains, near Montnote that in general it appears to clair and the diabase of the Pali- you can the rich botanical and be an endless field of tall brownsades. So filled with water, either fresh gaze in wonder at this bookmark water from the melting ice or in the pages of time.

CORRECTION In the September 25 issue of the BEACON, Dr. Monroe L. Spivak, a new faculty member in the Science department, was incorrectly listed as an assistant professor. His correct title is PROmember in the Science. department.

salt water from the Atlantic or more likely, a combination of the two. The result was what geologists speak of as Lake Hackensack. Laurel Hill, that knob of rock protruding from the meadows which is now occupied by a hospital for the aged and an almhouse and whose western edge is girdled by the New Jersey Turnpike, was an island in this vast lake.

After Lake Hackensack was formed, two layers of sediment settled on its bottom every yeara coarse layer in winter, a fine layer in summer. During that time, the lake became more and more shallow. This was due partly because of the sediment and partly because the underlying shale and sandstone were slowly rebounding from the crush of the ancient glaciers. Its bottom has rebounded to a point where most of it is above water at low tide, but most of it is still under water at high tide. The largest body of water remaining the wandering Hackensack is River, which if not of geological interest to the commuter it is certainly the source of many aggravating moments as he tries to cross it during rush hour.

If the next time you are stopped in the usual jam of traffic along the routes that transverse the meadows or are out for a Sunday drive through them, peer out of the window and through the veil of reeds and discover if zoological lushness hidden there. ciers receded, the gorge became And if you cannot you may still

by Tom Terreri

Now that the third week on the PSC calendar is terminating, it is logical to assume that students are undecided as to what club to join or what activities can render the most good. As you rack your brainpondering the tense situation, it should be pointed out that Paterson State possesses a fine men's intramural program. ("Whew! what a relief, eh?)

The agenda starts with touch football. Any eight men (excluding varsity cross country runners, soccer and basketball players) are eligible. Any eight eligibles constitute a team. All rosters must be in the hands of Mr. Myers, the head of the intramurals program, by Tuesday, October 6. Further details may be secured in the gym office.

There is no longer a need to worry. There is an excellent chance that those strange faces running all over the campus are the basketball hopefuls. Unlike the cross country runners, the basketball players do not know where they are going. Getting lost in the woods and winding up in distant lands is par for the course. Keep up the good work men, October fifteenth is closing in.

PSC4; Shelton O In Season opener

Playing in a continuous drizzle on Tuesday, September 29, Paterson State successfully opened its 1964 soccer season with an impressive 4-0 shutout against Shelton College at PSC's home field.

With both the offensive line and the defensive backfield applying heavy pressure, PSC's first goal, credited to Tony Benevento, came at 20:58 of the first period on a loose ball in front of Shelton's goal mouth.

At 15:22 of the second period, Bielick scored with an assist from Jack Cioce. Maintaining continuous pressure by means of timely substitutions, PSC added to the scoring with two more goals in the fourth period. Hank Saxon then scored on a direct kick at 1:38 and Jack Cioce followed it up with one at 3:07.

The combination of a hustling O.R.-D. Neroni offensive line led by freshmen I.R.-V. Talerico and seniors and a balanced backfield led by Saxon and Ziegfried | I.L.-N. Binder Krause, plus the vital play of O.L.-J. Bielick

goalie Mark Evangilista, paid dividends for Coach Myers and Paterson State.

Clancy, Joosten Head PSC Basketball Squad

Steve Clancy and Bill Joosten have been elected co-captains of the 1964-65 Paterson State basketball squad.

Clancy, going into his second year as co-captain, was the team high scorer last year averaging better than twenty points a game for a twenty game schedule. He also pulled down a little more than ten rebounds per game and finished the season with 436 points to his

credit. Clancy is a 230 pound 6'5" graduate of Bloomfield High where he was a member of the varsity football team.

Bill Joosten, at only 5'10" and 160 pounds, seems like a midget on the court next to Clancy but this by no means detracts from his ability. Also starting his third year on the squad, Joosten is a

and calls Paterson his home. Though he only averaged a little over three points a game last year, Bill is quick on his feet and Coach Wolf expects him to become the backbone of his backcourt.

Returning lettermen to the squad are juniors Vince Ditta. Harold Dodds and sophomore Tom graduate of Manchester Regional DeStefano while from last year's

Cindermen Pick Team Captains

Joe Dziezawiec and Bill Hagman have just been elected as co-captains of the Paterson State cross country team with

the season a week away. Joe, a 5' 9'' 135 lb. junior, is beginning his third year on the Orange and Black varsity. Having come into his own last year by finishing first in seven out of eight dual meets including the last six in a row, he is looking forward to a successful season both personally and for the team. Joe hails from Paterson and calls Paterson Tech his alma matter.

Bill Hagman is a graduate of Passaic Valley High and lives in Little Falls. Bill is also a junior but is only in his second year on the team and is hoping to improve his initial output. He checks in at 5' 11'' 160 lbs.

Runners Face Tough Schedule

Paterson State College's cross country team faces this year one of the toughest schedules ever attempted in the history of the rugged sport at our school. In addition to an extremely rough schedule, four new teams have been added-Trenton State, Hunter College, Brooklyn College, and Stony Brook State College of New York. This brings the total number of meets to twelve, plus the N.J.S.C.A.C. championship which is held on November 7 and the NAIA District 21 championship to be held November 14.

Dr. James Lepanto, coach of the PSC harriers, feels that the team has the material to repeat last year's 7-1 record. All of last year's squad is returning along with a few new faces which will give added strength overall. Joe Dziezawiec is out to further his personal string of six consecutive victories. In doing so, he is also out to help the squad lengthen its own record of six straight victories. Giving him aid in this effort will be Cliff Williams and Bill Hagman, two of our team's toughest competitors, along with Bill White, Ronny Simmons, Tom Dowd and Tom Vitolo, who round out the returning members of Coach Lepanto's squad. PSC has also been blessed by the addition of Ron Schopperth, a freshman hailing from Passaic Valley High. Ron is expected to greatly improve and add strength to our already strong front runners. Frank Karpati and Bill Rosacker round out this fine squad.

Junior Varsity are juniors Tom Terreri, Bill Tierny, Jim Fells and sophomore Art Steward. Re-
turning to Paterson State basket-
ball after a year's absence is Bill
Kopcho. Coming out for the first
time are juniors Paul Reilly, Ro-
bert Claire and sophomore Tom
Nichols. With five returning let-
termen and three former JV play-
ers Coach Wolf is expecting a
good season come December 1st.

Practice Begins For PSC Foilers

This year seven members of the varsity fencing team are returning to the squad. Fencing for their third year are John Cilio, Lon Lawson and Chet Pilgrim; in their second year are Jim Lawther, Tim Szabo, Dave Birkner and Scott Dyller. Those but more men are needed since having over twenty college wins this past year were John Cilio (28-7), Lon Lawson (27-9), and Monday, Wednesday and Fri-Scott Dyler (251-1).

nament. Captain this year is John Cilio. Electrical manager is Tim Szabo and team manager is Scott Dyller.

Practice has already begun, there are openings on the varsity squad. Practice is held on day from 2:30 to 4:30 on the

Last season, O.S.C. won third gym stage. Anyone interested place at the North Atlantic tour- should report at these times.

Each fall the Student Government Association releases the college budget, which is derived from the student activity fee, to the BEACON for publication. The budget for the 1964-65 academic year is based on a 2100 student enrollment. The activity fee of \$20.00 each semester brings the total annual income to \$84,000. This amount will be spent during the year by the students as follows: Fixed Expenses:

100 million 100 mi	Class Dues (2100 students at \$1.00 per student) Prepaid Alumni Dues (at \$2.00 per student)	\$ 2,100.00 4,200.00
