College Bond Issue

Vol. 30—No. 3

PATERSON (N. J.) STATE COLLEGE — OCTOBER 9, 1964

Professors Unite in Hindu Kush Mt.

An association of former Paterson State College professors has been formed in the kingdom of Afghanistan in the Hindu Kush Mountains. Co-presidents of the new society are Dr. Stanford Hendrickson, Dr. Leon C. Hood, and Dr. Walter Simon. Their wives Flo, Nellie, and Virginia are non-office-holding members.

Dr. Hendrickson is the social studies specialist with the Columbia University team working with Kabul University. He is on leave from the Paterson social science department.

Dr. Hood is an English language specialist working with the Columbia team to assist the Ministry of Education in developing its national English language program. He was, until last February, on the PSC English faculty. Previous to his first tour in Asia he was director of administration at PSC.

Dr. Simon, formerly professor of art on the Wayne Campus, is the new Cultural Affairs officer of the American Embassy in Kabul. Previously he was Assistant Cultural Affairs Officers with the Embassy in Cairo.

Noted Speaker To Discuss N.J. History

Miss Joan Hull, an authority on teaching New Jersey history in the elementary school, will discuss "New Jersey History in New Jersey Classrooms" on Thursday, October 15, at 10:30 a.m. The program, to be held in Memorial Gymnasium, will be addressed to general elementary majors in their senior teaching orientations session, and is being sponsored by Dr. H. Lee Ellis, chairman of the social science department, and Dr. Kenneth Job, associate professor of social science.

Miss Hull received her B. A. degree from St. Lawrence University and earned her M. A. at Montclair State College. After working in business, she joined the faculty of Butler High School. At Butler, she established the Butler High School History Fair which received national recognition, winning a certificate of commendation from the American Association for State and Local History.

Miss Hull's professional affiliations include membership in the National Education Association, the New Jersey Education Association, and the National Council for the Social Studies. She has also given service to the New Jersey Historical Society, the Morris County Historical Society and the Butler Historical Society.

ical Society and the Butler Historical Society.

Miss Hull has been named director of Junior Historical Societies and is a member of The Jerseyman Program. The latter is a program for schools and communities in New Jersey. Through this program, Miss Hull has encouraged 2,000 students to develop an active interest in their community, county, and state.

Any girl interested in attending "The Sound Of Music" at the Papermill Playhouse, Millburn, N. J., on Friday, October 16, is asked to leave her name at the desk in Pioneer Hall by Tuesday, October 13. Price of the ticket is \$4.30 including bus fare.

1 Grad, 2 Students Receive Top S.S. Department Honors

Dr. Mildred Weil, Chairman of the Awards Committee, Department of the Social Sciences has announced the awards made to social studies majors for the 1963-64 school year.

Miss Jacqueline Parrillo, Class of '64, was awarded both senior awards - a \$25.00 award for the highest academic average for four years of the graduating social studies majors, and a \$15.00 award in books for the best research paper submitted by any junior or senior social studies major. Miss Parrillo is attending graduate school at the University of Cincinnati.

Parker Hannon received the sophomore award of \$10.00 in books. This prize was given for the best paper turned in in connection with the course in Introduction to Research in the Social Sciences.

Miss Linda Oswald received the freshman prize of \$10.00 in books for the highest academic average for freshman social studies majors.

S.G.A. To Campaign For '64 Bond Issue

At Tuesday's General Council meeting, the Student Government Association passed a motion that the SGA sponsor a campaign in support of the 1964 College Bond Issue in cooperation with SGA organizations of the other state colleges. New Jersey voters will decide the fate of the Bond Issue on November 3. If passed, the Bond Issue would provide 4.1 million dollars for new facilities at the six state colleges along with Newark College of Engineering and Rutgers, the State University. These new facilities would expand the capacity of New Jersey's colleges to accommodate over 10,000 additional students. Payments on principal and interest of the Bond Issue will come from existing state taxes, with interest not exceeding 4 percent.

The passage of the 1964 Bond Issue would effect construction of two new buildings on the Paterson State campus. A classroom building, costing \$1,300,000, is proposed to have thirty classrooms, including lecture halls and seminar rooms. Faculty offices would also be provided for the Education, English, and Social Science Departments. Also included in this building would be a faculty and a student lounge.

In addition to the classroom building, a new library, costing \$1,800,000, is proposed for Paterson State. This facility would accommodate 5,000 students as opposed to the present library's capacity for 300 students. Also in this building would be two library science classrooms and an audio visual aids center.

In the five years since the 1959 College Bond Issue was approved by New Jersey voters, the state's public institutions of higher education have experienced unprecedented growth. Although the expanded facilities resulting from this bond issue funds enabled the eight state-supported institutions to double their enrollment, the accelerating numbers of high school graduates seeking admission to college has brought about the 1964 College Bond Issue referendum. The 1969 measure provided \$66.8 million, of which \$29,350,000 went for construction at Rutgers, \$29,050,000 to the state colleges, and \$7 million to NCE.

At Rutgers, one of the most

spectacular results of the bond issue was rapid development of a science center at the University Heights campus in Piscataway. Bond issue funds, plus revenue from other sources, paved the way for establishment of \$20 million worth of facilities for biology, chemical engineering, microbiology, psychopharmacology and physics.

The engineering building, one of the first tangible fruits of the bond issue, has made possible the granting of a degree in chemical engineering at the State University, a particularly significant development in view of New Jersey's position as the nation's leading chemical manufacturer.

On the main campus in New Brunswick, the bond issue financed construction of four dormitories, which now house 1,000 students, and helped build Stonier Hall dormitories and the new University Commons, which enabled the University's food services to catch up with expanded enrollment.

At Douglass College in New Brunswick, the State University's women's division, the 1959 bond issue made possible construction of a building for home economics and psychology, the new Loree Gymnasium, and a 1,000-seat dining hall which takes care of residents of new dormitories.

When Rutgers' new downtown Newark campus is completed, it will be the first new campus in the country to be built entirely on urban renewal land. Building construction here has been slowed by the complexities of the urban renewal process, but Ackerson Hall, the proposed law center, is expected to be ready

(Continued on page 2)

Pioneer Players Present "Clown Who Ran Away"

The Pioneer Players' coming production of Conrad Seiler's "The Clown Who Ran Away" deals with the renegade Dodo, who decides to leave his circus friends and earn his living by telling stories. As the callopie music fades, Dodo meets a group of children who ask that he tell them a story. They insist, however, that this story be both happy and sad, that it be about robbers, and dolls, and about a clown like Dodo who ran away. This story must be better even than Cinder-

ella; Mr. Frumpkins, Warren Pahlvianian; Andrew, Dennis Austin; The Dolls, Sue Stoveken, Maryann McBride, June Marino, Elaine Oglivie, Pavls Katz, De De Patella; Rudolph Bernard Boo, Joe Triolo; Ugly, Jonas Rosenberg; Lady with baby carriage, Judith Nann; Girls in automobile, Brenda McDonald, Carol Delhager, Mary Ellen McNally; Policeman, Richard Chabers; Girl with loipep, Pat Szykewski; Gladys, Barbara Abbate, Jill Haigney; Lady with lornette, Irene Caguidina.

The cast of "The Clown Who Ran Away" is as follows:

Dodo the Clown, Leslie Orme-

Editorial

The college bond issue, if passed, could be called "the greatest good for the greatest number." The six state colleges, NCE and Rutgers, the state University, have nothing to lose and everything to gain if the \$46.1 million dollar bond issue is approved on Nov. 3.

For Paterson State, the passage of such a measure would mean a new library seating 5,000 students, as compared to the limited capacity of the Sarah Byrd Askew library; it would mean a new classroom building, housing 30 classes. The 1959 bond issue provided PSC with a new dormitory for women, an addition to the gymnasium, and a laboratory school.

The SGA has passed a motion to "sponsor a campaign in support of the bond issue;" one of the implications being that it will inform the voters of the issues.

The decision, however, rests with the voters. Weigh the facts, and vote on November 3.

(M. A. C.)

Bond Issue

(Continued From Page 1)

for occupancy by September, 1965. Contracts are about to be let on a classroom building, a laboratory building and a library. All four buildings resulted wholly or partly from the 1959 bond issue.

Construction of a science building and a college center at Rutgers College of South Jersey in Camden was step in improving a blighted neighborhood in Camden's citywide rejuvenation.

The bond issue money, combined with funds from a variety of other sources, enabled Rutgers to implement a \$74 million construction program in the past five years, so that full-time undergraduate enrollment there rose from 6,002 in 1956 to 11,022 in 1963.

With its \$7 million share of the 1959 bond issue, Newark College of Engineering first acquired 18 acres of land from the Newark Housing Authority. Again urban renewal delays prevented an earlier start on construction, but work now is well underway on three new NCE buildings.

These include a 4-story academic building, primarily for electrical engineering; a physical education building and a student center. When the new buildings are completed, additional space will become available in present quarters for an enrollment increase of several thousand.

Bond issue funds brought Trenton State College a student enrollment of 2,437 in 1963, up from 1,907 in 1956, and five new buildings, including Armstrong Hall, an industrial arts building with shops, offices, classrooms and laboratories; Decker Hall, a dormitory for 300 girls with food service facilities to handle twice that number; Bray Hall, devoted to the music program; a science and mathematics building, the largest on the campus; and Packer Hall, a gymnasium extension.

Teacher shortages in industrial arts, science, mathematics and art also are being alleviated through expansion of these programs.

A unique result of the bond issue at Newark State College in Union was the establishment of a campus school for children from nursery school age through sixth grade for the primary purpose of giving prospective elementary school teachers a real life "laboratory." The community benefits by having another school.

Enrollment at Newark State has almost tripled since 1956, from 783 to 2,005. Constructed with bond issue aid were additions to the fine and industrial (Continued on Page 4)

New Parking Lots Available

Freshmen students who park their cars in Camp Veritans, Gate 1, may move their cars to the upper lots, Gates 3 and 4, after 3:30, reported Dr. Grace M. Scully, assistant director of student personnel.

This regulation has been made for the convenience of those students who will be on campus at night or for Saturday and Sunday events. Freshmen may also use Gates 3 and 4 for college dances. Other regulations regarding speed and parking are not to be violated.

Letters To The Editor

Contributions to this column are the opinions of the readers and, as such, are unsolicited. All letters are required to be of a standard that will reflect the best interests of the college. Anonymous letters will not be printed but names will be withheld on request. The Beacon reserves the right to edit all letters.

Dear Editor:

As a member of the sophomore class, I must take issue with you for your stand against freshman hazing in last week's editorial.

Aren't you exaggerating when you use the phrase, "members of the sophomore class wreak their vengeance upon the incoming freshmen?" Did you really see or hear of anything so terrible as to deserve so weighty a judgment? I assume this was sarcasm used to reinforce your point. I agree that most hazing situations seem "ridiculous," but there is, after all, a purpose to hazing. Hazing is a means of integrating the freshman into the college community at Paterson State. I believe the freshmen who participate learn to laugh at themselves. Isn't that something we all have to learn, sooner or later?

These freshmen will be asked to do many things they won't like, here at Paterson State, and in the world outside. Hazing is for many a testing ground in their social adjustment. The freshmen meet many students in hazing, not only those sophomores hazing, but members of their class as well. You may say that they would meet these students anyway, but I think not so early in the school year. You say that half of the freshmen didn't seem to participate. That happens at any school; there are those who can't face the challenge (?) of hazing. If they don't want to become involved in life at Paterson State, I think that is their loss.

Be it assumed that your editorial is the opinion of the entire BEACON staff, I wish to make it clear that I disagree with your stand here. I defend your right to what you say in that editorial (you are the editor) even as I realize that an editorial is one man's opinion.

Sincerely,

Cathleen Sain '67

You are wrong to assume that any sarcasm was intended in the editorial of October 2 since we felt that there was none needed for reinforcement. Our main contention is that hazing itself forces people to act in a certain manner and within rules set down by another group who seem to feel that this conduct will compel them to make "friends" on the campus. This forces an individual to act in a way that is almost certainly "out of character."

People make acquaintances first and then friends. It is virtually impossible to force an individual into any situation where he will be guaranteed these acquaintances.

We must take this opportunity to clarify two more issues concerning last week's editorial. The first is that the opinion of the editor in no way reflects the opinion of the editorial board of the BEACON. The second is that, with the exception of Mr. Van Embergh, no one has seen fit to mention the work, planning and success of the Freshman Welcome Dance or the Hazing Program itself. EDITOR.

Dear Editor:

This letter is in regard to your editorial in the Beacon, October 2, 1964. As a freshman who participated in hazing, I found it quite enjoyable and worthwhile. It is true that during that three day period the degree of sophistication was shed, but isn't it a good thing to "let loose" once in a while, as long as nothing harmful is involved? During the three

days of hazing, I met quite a number of people who, if not for hazing, I would not have met and thus would not have felt more at ease here. It is true that less than half of our class participated in hazing, but couldn't it be that they were afraid to participate because they are not used to being an active part of a school and joining in activities with others? I don't know if you asked those people who participated in hazing if they enjoyed it and thought it was worth while, for I did, and perhaps if you had taken the time, you would have found that everyone of those people enjoyed it and did think it was worthwhile.

Sincerely,

Jack K. Zellner '66

As to whether or not it is a good thing to let loose once in a while, that is a matter of opinion. But to say that you could not have met these other people is stretching your opinion rather thin. It is almost impossible to get involved in college life, especially in a college of this size.

You stretch your opinion even further when you say we do not inquire of those participating as to their degree of enjoyment. It would be totally irresponsible of the BEACON editor to take an editorial stand without first making sure of facts and establishing his position.

EDITOR

Dear Editor:

I believe that the hazing period is fun as well as necessary. People who participate have school spirit. Hazing is necessary because it offers an individual the chance to become acquainted with new people. One can make friends this way. If one participates in hazing, he is showing that he has an interest in the school as well as in the students.

Alan Sponyelli

Dear Editor:

I thought that the hazing period was good because it was a very large contributing factor towards meeting of fellow classmates and becoming acquainted with a large part of the student body as well as faculty.

In spite of the idea that the dress was silly, it was enjoyable and did not go too far in the way that it was only required on campus. Those who did not participate were not penalized and those who did enjoyed the whole program.

John Sabanash

Dear Editor:

As a member of the Sophomore Class, I feel it is my duty to answer your ridiculous editorial.

First, I will start with the pictures printed in your paper. Don't you think it would be advisable if you were to tell the student body that you had the people in these pictures pose the way that you wished them to pose!

Secondly, what ever gave you (Continued on Page 3)

SQUIBBS

Senior class individual portraits and retakes for full-time part-time and evening division students will be scheduled for Oct. 13 and 14 from 3 to 8 p.m. at the Irwin Raveson Studio located in the Preakness Shopping Center. This will be the only opportunity offered to those who have not yet had their yearbook pictures taken. Please sign sheet in the Octagonal Room. Sophomore Cindy Delhagen has been chosen to head the College Center House Committee. For information regarding the Danforth Fellowship Foundation, see the Oct. 2 issue of the BEACON. Any interested student should see Dr. Paul Vouras in the Social Science Department. Musicians are still needed for the newly formed PSC stage band. Especially needed are a drummer and a guitar player. Anyone interested should see Dr. Martin Kriven in room 111. The twenty-five sophomores, juniors, and seniors who were placed temporarily in Veritan's parking lot (green decals) should bring their green decals to Dr. Scully in exchange for hill parking (yellow decals). These students must see Dr. Scully personally. Residents of Pioneer and Heritage Halls will hold open house on Sunday, Oct. 11. The living quarters will be open to the public between the hours of 2 and 3 p.m. Guided tours will be held periodically throughout both buildings. Friends, family and members of the faculty are invited. Refreshments will be served in Heritage Hall. Yearbook group pictures (clubs and activities) are being scheduled for Oct. 20 through Oct. 23. Students whose groups are scheduled will be allowed to leave classes for the ten minutes necessary for each picture.

Letters To The Editor

(Continued from page 2)
the idea that hazing is just a time when the sophomores get revenge? If you believe that this is true you are missing the whole point of hazing! Hazing is a time to get these freshmen to know the members of their class and other people on campus.

Thirdly, if you consider the costumes that this year's freshmen had to wear outlandish, let's take a look at the costume your class made the incoming freshmen wear. A burlap bag shirt that after the first rain smelled very foul, a muskrat or racoon's tail from the beanie, a pair of old pants with fringe, a make-believe gun and a book for signatures. Oh, and let's not forget about the game of "Cow-boys and Indians". They had to play, or the fact that they had to "shoot" the enemy every time someone yelled a certain phrase.

Fourthly, I have asked any freshmen to write a statement concerning hazing, good, bad, or indifferent. Almost all of the reactions were good as you can see by those I enclose.

Fifthly, I want you to know that the Sophomore Class Hazing Committee worked hard to design a costume that could be put on at college and would look less ridiculous than the ones we had to wear. We know that the costume is on the way out, and we took the first step in that direction. I only hope that this year's freshman class will continue in that direction.

Respectfully,
Richard W. Van Emburgh '67
The delicate phrasing of your letter forces me to reply numerically.

First, we did not request anyone to pose for any pictures that would have misrepresented them in any way. We had requested Miss Yvette Segall to gather a group of freshmen into a series of positions that would illustrate the philosophy of hazing on this campus.

Secondly, since sophomores traditionally do the hazing to the exclusion of other classes, we feel that they are, as previously stated, "wreaking their vengeance." Hazing offers us no point, hence our editorial.

Thirdly, if all hazing, as we stated, is absurd then it does not include those activities which we conducted in the past.

Fourthly, those replies that you enclosed numbered exactly two. While they were "good" their very number also makes them "indifferent."

Fifthly, if the previous costumes looked ridiculous, then your statement that this year's costumes "were less ridiculous" lends much support to our argument. EDITOR.

Freshmen Attend "Great God Brown"

The entire freshman class will leave campus today by bus for a trip to the McCarter Theater in Princeton, N.J., to view a performance of "The Great God Brown" by Eugene O'Neill.

Thirteen busses will be waiting in the front parking lot near gate Four. Freshmen should board quickly so that the busses may leave as soon as possible. The trip will take about an hour and a half, and the curtain will be held until all students are seated.

The Newark State game and will be out of action for about ten days. Paterson State's next game is tomorrow at Upsala at East Orange. Next home

PETER BELMONT, PSC's UNOFFICIAL AMBASSADOR TO EGYPT through the Experiment in International Living, will present highlights of his experience abroad in a program entitled "Egypt" on Thursday, October 15, at 1:30 in W101.

Cairo City of Contrasts Relates Experimenter

Pete Belmont, after spending this past summer in Egypt in connection with The Experiment in International Living will present his impressions of that country at 1:30 p.m. on Thursday, October 15 in W101. Pete's presentation will include films and slides of Egypt. Students will also have the opportunity to view some souvenirs Pete brought back to the campus with him. Because the Experiment feels its contributions to world understanding can be made on the individual level, Pete's talk will center on his impressions of the people of Egypt. Because the Student Government Association sponsors the Experimenters from our campus, the

contrasts to the visitor, as illustrated by the coexistence of the pyramids and the Sphinx together with the massive new Aswan High Dam. Pete found time to visit these landmarks in between visits to the Gaza Strip, a boat trip on the Red Sea, and visits to Luxor Karnak and Aswan. Pete's discussion is the first in a series of four to be given by Paterson State's Experimenters this year. Students and faculty are invited to attend each program.

The Experiment is organized so that student ambassadors live with a family, sharing their daily life, meeting their friends and relatives, and learning the culture of that country from the inside. Upon their arrival in Egypt, Pete and his fellow ambassadors were met by their Egyptian leader, Mr. Ibrahim Attallah, and their host families. Commenting on his first thoughts after arriving in Egypt, Pete said, "The responsibility was as great as the privilege, because I had to live up to every confidence that so many people had placed in me." Pete discovered that his Egyptian brother had graduated from Cairo University and had accepted an offer to study in America. Pete found that his brother was typical of Egyptian youth who "take pride in their country's development and are eager to show the new Egypt to their visitors."

Living in Cairo for the summer, Pete found the city to be full of contrasts. The people there are of Asian, Nubian, Arabian, and Mediterranean descent, and live harmoniously together since there is no racial inequality existing in Egypt. Egypt itself seems to be a country of

by Tom Terreri

Gun Bow nipped Kelso last Saturday - this is history. Do you know what else is history? Paterson State's '64 baseball campaign. Unfortunately the NJSCC posted its individual picks after the last issue of the BEACON was published last school year. Therefore, we feel it is better to recognize these Pioneer standouts four months later than not at all.

Named to last year's first team were freshmen second sacker Tom DeStefano and junior outfielder Mark Evangelista. Last year, senior Bill Born sported a 4-1 conference record working 39 innings while whiffing 37. Honorable mention status was accredited to senior infielder Richie Witte, junior Dave Alexander and junior outfielder Vince Lupinacci.

Conference record holders included Tom DeStefano, who batted 46 times more than any other player. PSC's Tony Colletta closed out his career by scoring 16 runs, more than any other individual.

Alexander led the league in doubles with four while Colletta and Mike George were accredited with three triples apiece to share honors in that department. Evangelista had seven stolen bases in conference play to top all other runners. PSC finished second with seven wins and three losses in conference play and thirteen and five overall. Montclair's 8-2 took the conference title.

PSC Harriers Dumped, 4-0

The harriers from Paterson State opened their dual meet season last Saturday against Jersey City State College. The meet was held at Lincoln Park in Jersey City. The season began on a sour note with Jersey City taking home a 26-29 victory.

Individual winner in the race was Jeff Stehli from J.S.C. The Pioneers' first runner to cross the finish line was Joe Dziezawiec who took second spot. For the Goths the race

PSC Keglers Elect Alexander, Margarita

At the opening of the New Jersey Division of the Eastern Intercollegiate Bowling Conference in October, the men of Paterson State had formed what they hoped would be the strongest team since their entry to the conference.

The Pioneers will be led by four returning lettermen including co-captains Dave Alexander and Martin Margarita.

Dave, a 5' 8" 160 lb. senior starting his third year as a Pioneer kegler, is also starting shortstop for the Pioneers baseball team. He has been active in league bowling for a number of years and now sports a 180 average. In his freshman year Dave also played basketball for the orange and black, but decided to concentrate on baseball and bowling.

Marty is known on campus for his continuous interest in all Pioneer athletics. Besides starting his third year as a kegler, he is also the varsity manager for all the men's athletic teams on campus and does all the sports publicity for Pioneer athletics. Marty has also been interested in bowling for a number of years and sported a hefty 181 average last year.

placed three of the first four runners. From the start Jersey City took the lead. Their first three men shot out to lead the pack, and with exception of Dziezawiec they were never to be passed. The boys in orange never could get going, and throughout the race they were unable to make up the distance lost in the earlier going. With about 3/4 of a mile remaining in the race Hagman, Williams, Schoppe, and White became confused with the course resulting in the loss of two more points to the Goths.

The order of finish for P.S.C. in the top ten were as follows: Joe Dziezawiec second, Bill Hagman fifth, Cliff Williams sixth, Ron Schoppe seventh, and Jim White ninth. The loss makes the Pioneers' early record 0-1, but they hope to improve upon it Wednesday when they open their home schedule. The opposition will come from Montclair State who sports a strong squad this year. Montclair in an earlier meet defeated Jersey City State 29-31. However, the team expects to bounce back from its initial loss and defeat the Indians.

ing at the season's beginning. New opponents this year include St. Peter's College and Upland College. The Pioneers will play host to Shelton College in their first encounter.

1964 PATERSON STATE SOCCER TEAM. Kneeling, left to right, Richard Pantale, Clifford K. er, Richie Gore, Vic Talerico, co-captain. Mark Evangelista, co-captain. Gerald Stefanacci, R. Cowan. Bond Issue

(Continued from Page 2)

arts facilities, the gymnasium, the college center and the library.

Through bond issue funds, Glassboro State College in Gloucester County has nearly quadrupled its enrollment since 1956, going from 683 to 2,442. With such new facilities as Boss-hart Hall for arts and science programs, a new library, two dormitories, a new gymnasium and field house, and a central heating plant adequate for on campus expansion in the future, Glassboro was able to enroll majors in art, science, women's physical education, music and mathematics. None of these had been available as major subjects previously. A number of graduate programs also have been made possible.

Enrollment at Jersey City State College has more than quadrupled since 1956, with 2,200 full-time students enrolled last year compared with 541 in 1956. Room for the increase was provided by construction of a 4-story arts and sciences building with 30 rooms, including modern science and art laboratories; food service facilities to accommodate 1,200 additional students and dormitories to house 100 students, and improvements in health and physical education facilities, all through bond issue help.

Science and music were the two critical areas at Montclair State College which benefited from the 1959 bond issue. Malory Hall, the science building, provided for the first time such facilities as separate laboratories for physiology and anatomy. Music majors now have a building devoted exclusively to that field.

Also built at Montclair State with bond issue aid were a men's dormitory for 100 students and a women's dormitory housing 200, and a new library building permitting a doubling of volume space and enlargement of reading space. Renovations to College Hall are nearing completion.

As a result of this construction, Montclair State doubled its enrollments from the fall of 1956 to 1963, from 1,339 to 2,780.

Booters Bow 4-0 To JCS Eleven

The weather was ideal on Saturday, Oct. 3, but the final score was not, as Paterson State's soccer team took it on the chin by a 4-0 score against Jersey City State at Lincoln Park, Jersey City.

Paterson State, unable to get any momentum started, fell behind 1-0 on a deflected goal in the first quarter and, except for a brief spell in the second quarter where they forced play to JCS's end of the field, were outmaneuvered and seemingly outplayed throughout the third and fourth period. Two goals were scored in the final period against Paterson, one due to a defensive mixup in PSC's backfield in which Paterson scored for Jersey City.

Jersey City, fielding a team of eleven returning lettermen, appears to have the necessary manpower to make a run at the State Conference Championship.

Although they lost this game to a very strong JCS outfit, it appears that Paterson State, with more experience and the return of several injured men, will make it a rough season for many of its opponents.

The Lineup

G.—M. Evangelista
R.B.—G. Stefanacci
L.B.—Z. Krause
R.H.—C. Raymond
C.H.—H. Saxon
L.H.—R. Gore
O.R.—J. Cioce
I.R.—V. Talerico
C.F.—T. Benevento
I.L.—N. Binder
G.L.—J. Bielick
Substitutes— Damon Neroni
Joe Pasquariello

When all four buildings provided by the bond issue at Paterson State College are completed, the school's enrollment will be 2,300 students, compared with 823 in 1956.

The first building completed was Pioneer Hall, a dormitory for students. Under construction are an auditorium-music building, and a campus laboratory school.

Soccermen Elect Senior Co-captain

Mark Evangelista and Vic Talerico have been elected co-captains of the Paterson State College Soccer Team for the 1964 season.

Last season Evangelista's "honorable mention" goal while playing in only one-half the games at that position in the New Jersey State College Conference. A Junior High School senior, Mark is currently serving as vice president of the Student Government Association.

Though he is a comparatively new member of the soccer team, Talerico was selected "honorable mention" lineman in the New Jersey State College Conference. A senior General Education major, he was also captain of the 1962 junior varsity basketball team.

The Pioneers will travel to Bloomfield College on Saturday, October 10, for a non-conference encounter. On Thursday, October 15, they will play host to New State College in a New Jersey College Conference encounter. Game times are 11:00 a.m. and 3:00 p.m. respectively.

World Series Facts, Figures

For the past four or five years the team that won the first game of the World Series went on to win the coveted pennant. The St. Louis Cardinals have won the first game of the '64 series but theoretically at least, won't make them the winners of the year's contest.

Facts and figures on the World Series: Opponents: St. Louis (National League), New York (American League). Six games 1 and 2 having been played at St. Louis' Busch Stadium on Oct. 7 and 8, games 3, 4, 5 will be played at Yankee Stadium on Oct. 10, 11, and 12.

Previous series victory history by league: American National 23. (Americans lead games with 194 victories, 155 losses and three ties). By club: New York, 29 series and 20 victories. St. Louis, 9 series and 6 victories.

De Sopo and Witte, they were goalie Mark Evangelista, back Sigfried Krause, linemen Norm Binder and Vic Talerico. Evangelista and Krause played these positions in only one-half of con-

ing at the season's beginning. New opponents this year include St. Peter's College and Upland College. The Pioneers will play host to Shelton College in their first encounter.
