PATERSON (N. J.) STATE COLLEGE

OCTOBER 23, 1964

13 Juniors Begin "Sussex Project"

Thirteen Paterson State College juniors participating in the first live-away Junior Practicum experience have begun assignments fifty miles away from campus in Sussex County. Their room and board during their three weeks of public school teaching experience in October and March are being provided by residents of Sussex County.

The Sussex-Wantage, commonly called the "Sussex Project," and Ogdensburg schools

have opened a new type of experience to these teachers-to-be. In order to fully understand the school system, the community, and the role of the teacher, Paterson State has attempted to have selected students relocate in the community during their Junior Practicum and Senior Teaching Laboratory Experience in grades Kindergarten to 12. This year, two experimental projects of this nature have been set up in Sussex County. Ten juniors are in the Wantage-Sussex Consolidated School District and three Juniors are in the Ogdensburg Public School. All of these students are majoring in the general elementary or kindergarten - primary curricula. They will be in these school districts from October 12 to October 30 and from March 1 to March 19.

Of the thirteen girls involved in this experimental movement, four are from Bergen County, two are from Essex, two are from Passaic, two are from Sussex, one is from Ocean County, one is from Warren County and one is from Monmouth County. The girls represent a cross section of the upper middle half of the state of New Jersey. The girls participating are: Margaret Pierson, Dorothy DeFay, Barbara Richards, Andrea Falk, Mary Provost, Norma Fritz, Patricia Godleski, Bette Sims, Janet Rubenstein,

Grace Lee, Elaine Eddington, Barbara Biscamp and Jane Anderson.

The college coordinators for this program are Dr. Kenneth B. White, Dean of the College and Dr. James Houston, Chairman of the Education Department.

PSC Harriers Over Monmouth, 27-30

Paterson State's cross country team won its second meet of the season last Saturday, October 17, at its homefield. The winning tally over Monmouth College, was 27-30.

The rain let up to a drizzle by race time after a steady downfall early Saturday morning. The rain and the soft, slippery course handicapped the runners. Individual winner in the race was Pete Coleman, a Monmouth freshman. Not only did he win the race, he beat Joe Dziezawic, Paterson's ace harrier, by a minute. Coleman's winning time of 24:39 set a PSC record. Other finishers in the top ten were Cliff Williams, third, Bill Hagman, sixth, Jim White, seventh, Ron Simmons, ninth, and Ron Schopperth, tenth. PSC's next meet on October 24 is against Brooklyn College at Van Cortland Park, New York City.

Freshman Reps Elected To SGA

Results of Tuesday's Freshmen SGA elections have been announced by Elections Committee chairman John Arendas. The sixteen are: Chris Boggio, Mike Broome, Wendy Brown, Naomi Calka, Mike Fitzgerald, Bill Grigat, Georgette Klemchak, and Alexis Lugawe. Also elected are Elaine Matelli, Barbara Quick, Robert Reilly, Trina Scherer, Alan Sponzilli, Genevieve Super, Gail Tonnessen, and Walter Turner. The new representatives are to meet with Dr. Greunert and Dr. Yevak on Tuesday, October 27, at 1:30 p. m. in H102.

Due to certain last-minute renovations in the Beacon office, it was possible to print only two pages this week. Standard publication will resume next week.

PETER BELMONT, PSC EXPERIMENTER, relates his experiences in Egypt in connection with the Experiment in International Living. Above, he shows the native dress of an Egyptian. Peter also displayed some of the souvenirs he acquired in Egypt.

Experimenter Relates Summer Experiences

Pete Belmont, PSC Experimenter to Egypt, presented highlights of his summer there to students and faculty members at an Experiment in International Living program held October 15 in W101. The Experiment believes that world understanding can be achieved at an individual level, the theme of Pete's presentation centered on the people of Egypt. During the program, he emphasized this by saying he was "learning about their culture from the inside, on a personal level." He also remarked that this learning and understanding "cannot be obtained from any newspapers, books, or the like. In the Experiment, we are dealing with people—human minds and human hearts—not newspapers, books, or foreign policy.

Living in Cairo with his Egyptian mother, 23-year old brother, and two sisters, ages 19 and 12, Pete found that being an Experimenter has two aspects. Not only did he learn from the people of Egypt about their country, he also had to present a picture of American life to them. He said that his family "was very anxious to find out about America and what its people were really like." Pete discovered that his family already had a quite clear picture of America, since the young people had attended the American School in Cairo, in which the teachers were American. Most of the Egyptians Pete met eagerly asked him about the upcoming American elections, financial earnings of Americans, college life, and dating customs in the United States. The information Egyptians already had about America was obtained from American movies, and since most Egyptians speak English, these movies have a large audience.

In addition to showing slides of his family and the places he visited in Egypt, Pete had several students model native Egyptian costumes, both ancient and

Soccermen Tally Third Shutout

by Richie Gore

Out of fifty-one shots, Paterson State's soccer team was only able to put one into the Newark State Net — a fourth period goal by Tony Benevento — and therefore were held to a slim 1-0 victory over Newark, Thursday, October 15, at Wightman Field.

Looking at the final score, those who failed to see the contest would undoubtedly assume that the game was extremely close in all departments. This would be a mistake because only the score was close in the final score sheet calculations. Paterson's goalie Mark Evangelista had only four saves in the game, compared to the twenty-nine credited to the Newark goalie. In corner-kicks, Paterson had four to Newark's none. Shots at the goal were divided between seven Paterson State men, while the four shots by Newark State were all taken by their outside-left.

The final statistics given above again exemplify the teamwork which is being shown by the Paterson State soccer men and which is responsible for the teams current 3-1-1 record. The three wins are all shutouts and this points to the importance of the defensive backfield. Men who helped the defensive unit click in the Newark game as they have done time and again were Cliff Raymond, a senior playing his fourth year for Paterson State, Hank Saxon, a freshman playing fine ball for the team, and Rick Gore, a senior playing his second year, who incidently, was injured in the Newark State game and will be out of action for about ten days. Paterson State's next game is tomorrow at Upsala at East Orange. Next home

game is on Tuesday — Montclair.

Paterson State Lineup

G — M. Evangelista
RB — G. Steffanacci
LB — Z. Krause
RH — J. Pasquariello
CH — R. Gore
LH — C. Raymond
OR — V. Talerico
IR — D. Neroni
CF — C. Keezer
IL — T. Benevento
OL — N. Binder

THE MITCHELL TRIO will appear in concert at Paterson State on Thursday evening, October 29, at 8:15 p.m. The members of the trio are, from left to right, Mike Kobluk, Chad Mitchell, and Joe Frazier. Tickets are being sold every day from 9 a.m. to 3 p.m. in the Octagonal Room.

NJEA Consultant To Address SEA

The Student Education Association will present a guest speaker, Mr. Gerald Snyder on October 29. Mr. Snyder, who is the student NJEA Consultant, advises all FTA and SEA groups in the high schools and colleges of New Jersey. Working on local leadership and state campaigns and arranging all NJEA workshops and conferences also are among his responsibilities.

Mr. Snyder received his B.S. degree in East Stroudsburg, Pennsylvania and later obtained his Master's degree at Lehigh University. In 1959 he appeared in *Who's Who in the East*.

The Student Education Association will also sponsor a Speaker's Bureau Session on October 31st. It will be held at

either Jersey City State or Trenton State College. All the students wishing to travel to different schools and relate their college experiences will receive the opportunity to learn the various ways of delivering an effective as well as informative speech. The session will begin at 9:30 a.m. and will end at 2:45. Speakers will include Mr. Gerald Snyder and Mr. Sam Marino, who is in charge of the Speaker's Bureau. The participants will learn about the purpose of the Bureau and will be assigned to groups where a leader will teach them about the various techniques involved in making speeches. Then they will be given the opportunity to deliver their own presentations.

There will be a Sophomore Class meeting on Tuesday, October 27, at 1:30 p.m. in H 106.....The sophomore committee planning the Coronation Ball will meet on Thursday, October 29 at 1:30 in W11. Sophomores are encouraged to attend.....Tickets for the Chad Mitchell Trio are on sale in the Octagonal Room until the 29th of October or until the concert is sold out.....Any student interested in planning for the Christmas Dance must attend a planning meeting on Tuesday, October 27, at 1:30 in Wing-103.....There will be a "Block 43" meeting for Kindergarten-Primary and Secondary majors on October 29, at 10:30. The K.P. majors are to meet in Wayne Hall Conference room. Their responsibilities in student teaching will be discussed. Attendance is required. The Secondary majors will meet in Memorial Gymnasium. Mr. William Sheridan, Director of Personnel in the Scotch Plains-Fanwood Public Schools will conduct mock interviews and discussion.....There will be a meeting of Group III sophomores going to Stokes on Thursday, October 29 in W101.

modern. One such costume was the \$50,000 costume used in the movie "Cleopatra." Pete also displayed some of the souvenirs he obtained in Egypt, which are presently on display in Hunziker Hall.

In summing up his experience as an ambassador, Pete said, "Through meeting the friends and neighbors of my Egyptian family, I was able to gather a better understanding of the country and pick up the pulse of life by mingling with what causes any country to have a pulse — its people."

AEC Presents
Special Exhibit

A special exhibit of the United States Atomic Energy Commission entitled "Nuclear Energy in Space," will be presented in Wayne Hall on October 19-23. The local showing of the new AEC exhibit is being sponsored by the Science Department of Paterson State College and assembled through the courtesy of the Natural History Club.

"Nuclear Energy in Space" is a series of colorful displays providing a graphic explanation of the role nuclear energy will play in the nation's space program. Some of the major topics covered are the types of radiation surrounding the earth; methods of detecting radiation in space; nuclear propulsion systems for space exploration; and safety in space exploration for the protection of the world's population. All of the displays are presented in simple language in an effort to underscore the importance of space exploration and experimentation.

The AEC traveling-exhibit program is administered for the Commission by the Information and Exhibit Division of the Oak Ridge Institute of Nuclear Studies, Oak Ridge, Tennessee which is a non-profit educational corporation of Southern universities and colleges. All the Commission's exhibits—including the American Museum of Atomic Energy in Oak Ridge—are made available to the public without charge on a year-round basis.

Letters To The Editor

Contributions to this column are the opinions of the readers and, as such, are unsolicited. All letters are required to be of a standard that will reflect the best interests of the college. Anonymous letters will not be printed but names will be withheld on request. The Beacon reserves the right to edit all letters.

Dear Editor,

In your last issue, Mr. Rosacker complained about the lack of support given to our athletes. However, isn't this a real description of the general apathy on campus? Perhaps this is due to our being a commuting college. But couldn't it also be that we are just content to sit back in the snack bar and watch others participate? Why are there so few active members of the organizations on campus? Yet, we hear that there are no activities. How come there are so many complaints, but still no action taken by the complainers? Shouldn't we ask what is wrong with the students rather than the campus? How many know what the SGA, one of the largest organizations on campus, really stands for? Also, how many know what makes up a good college newspaper, yet are ready to complain when the newspaper doesn't fulfill their expectations. Who is really to blame?

Thank you for giving me a chance to stand on my soapbox.

Joann Greco
class of '67

by Tom Terreri

Well, it's time. It's been time since October 15. Last Tuesday was the day all prospective Pioneer hoopsters took the court. All candidates are working extremely hard in view of Paterson State's first encounter December 1 against Upsala. You know something — it looks pretty good.

Paterson State has an array of returning varsity lettermen. Junior co-captains Steve Clancy and Bill Joosten, both two-year lettermen, lead the Pioneer squadron. Other juniors include Harold Dodds, recuperated Vince Ditta (who saw limited action because of three broken fingers sustained in last year's game with Pace), and, returning after a year of absence, Bill Kopcho. Juniors Jim Fells, Bill Tierney, and Tom Terreri, plus transfer juniors Bob Clair, and Richie San Severino, should help the Pioneer cause. Returning sophomore lettermen Tom De Stefano and Art "Geet" Seward will render plenty of speed in the backcourt. Also working out with the varsity are sophomores Ron Van Dunk, Tom Nicholls, and Tom Rogasis. Final varsity cuts have not yet been made.

The team seems to be more closely knit and much more enthusiastic than any Pioneer squad has been in a long time. The boys have size, spirit, and speed — don't miss them.

DR. GRACE SCULLY, assistant director of student personnel, emphasizes a point at one of her "How to Study" lectures. The lectures are designed primarily for freshmen, but it is not unusual to find upperclassmen attending to pick up additional study pointers. This is the fourth consecutive year that Dr. Scully has conducted these lectures, which have helped many students improve their study habits and their grades.
