"As a professed Marrist and Socialist, I do not hesitate to state my position. I stand side by side with Prof. Geno-vess, I don't fear a Viet Cong victory in Viet Nam, I wel-come it." This is a statement made by James Mellen, a his-tory instructor at Drew University, at a recent teach-in for accientic freedom held at Rutgers University.

accernic freedom neid at Rungers University. How far do free speech and academic freedom extend? In the United States do we have the freedom to wish that our country might be defeated in war? I feel that every American should have the right to disagree with any po-licy of the administration in office, and he free to voice his optimion on the subject. However, should anyone have the right to speak out in favor of an enemy victory? A statement such as Mellen's, in my optimion, oversteps the bounds of academic freedom and borders on treason.

bounds of academic freedom and borners on treason. How can an educated man, who has received part of his education through a National Defense Education Act Loan, wish for a Viet Cong victory which would help the spread of Communism in Southeast Asia, and mean, along with the loss of American lives, a defeat for the way of life that has helped him continue his education and fight for his idea of academic freedom?

Renot the vary thing they are fighting for. We have more freedom than any other country in the world, we can speak when and where we please, provided we don't signder another person or inhibit his rights; we cannot, however, under the Constitution of the United States speak out in favor of an enemy winning. "I am sorry that I have but one life to give for my coun-try," or "Give me liberty or give me death." Today, the feeling of many Americans is an idea of "I am sorry I have but one life and the country won't get it." We are fighting for a way of life, the American way of life. If some people don't begin to realize this and stop camplaining and start doing their share, they may wake up one morning with no freedom at all. Ronald Hoffman

Every time a college or university professor is able to line - up another "catch" for a protest march, he receives three points in the "Great Score-Card In The Sky." By getting a total of seventy points within one year, the professor is entitled to:

1. A year's subscription to Pravda, or

2. A record albumn entitled "The Best of the Moscow Firing Squad," recorded live (?) on a tour of East Berlin, or

3. Ten books of Green Stamps. These protest marches are usually scheduled for long distances (18 miles or so), but usually peter out after three blocks because of flat feet or some other 4-F ailment. Hence, we may generalize that these marches are sometimes led by professors who are frustrated be-cause (for some physical or mental reason(s) ) they were re jected by our army. They usually want to be involved in the action no matter what side they fight for - hence the "peace movement.

## Focus: Viet Nam Fruits Of Victory

EDITOR'S NOTE: The title and content of this article are both the express opinion of the author. It is hoped that this article will stimulate thought and contrasting colutions, and offer both students and faculty alike the opporing opinions, and o express their ideas.

We Americans have been advised by our government that the war in Viet Nam is being waged in order to secure independence for South Viet Nam and liberty for the South Vietnamese. Certainly, such goals may seem very meritor-ious, but are they in fact valid goals for South Viet Nam? Are these goals the ostensible "raison d'etre" for the war, likely or even attainable in the event of an American "vic-tory"? Can we really expect or would be the put force? that a new era of liberty and democracy for South Viet Nam cy would be the ruling force? Is the U.S. really fighting a war for Vietnamese liberty and sovwould ensure a Viet Cong de ereignty, or are the American feat? Is it really possible for people being asked to the U.S. government to guaranthemselves to an IDEALOGICAL tee such an era for the country WAR, which might well esculate in which, thus far, the western into an IDEALOGICAL WORLD concept of "democracy" has WAR? by Ron Hoffman Sports fans at Paterson State have something to talk about after hearing the results of the last two soccer games. Coach Myers' booters fought from behind to the Monmouth College 22. Ken Modeska scored the goal that tied the game. On Saturday the Pioneers won an impressive victory over Queens College, 4-0. Both the defense and offense played an outstanding game. The Cross Country team also opened home last Satur day and defeated Jersey City State. The meeting of the Beacon sports staff went over quite well with everyone who attended receiving an assignmut. The meeting lasted all of thirty seconds because yours tru-ly was the only person to attend. As the saying goes, "If at first you don't succeed try, try again." We are tryiny again with another meeting scheduled for three-thirty Tuesday in the Beacon office. Anyone interested in becom-ing Assistant Sports Editor or just working as a member of the staff is invited to attend. This will be a short ten minute meeting. nated the play. The pressing tactics enabled PSC another meeting missed the goal. In the format period, center forward K e n Madeska, split the uprights to tie the score at 2-2.
