Young Boy's Plagued By Hereditary Disease

The mystery of hemophilia lies in the manner in which it is transmitted. Passed on to male siblings from mothers, the disease has been the costly and dread plague of fourteen year old Ricky Hummel all of his life. As Ricky can testify, hemophilia victims do not bleed severely from a tiny cut on the skin's surface. These external injuries can be taken care of with applied pressure but it is the threat of internal bleeding, which accompanies bruises and falls, which is of major concern.

The son of Mrs. Lenore Hummel of the Education Department Ricky is prevented from participating in the strenuous sports so much a part of the high school years of most boys his age. He knows which activities he would like to participate in but he finds it difficult to prepare further ahead than one day. A future profession of writing is the only long range consideration Ricky has made and yet he has been able to keep up with his studies and is presently in the 10th grade.

This year the junior class along with Mrs. Hummel asks students and faculty to donate one pint of blood so that Ricky can have the assurance of an adequate blood supply to meet his ever demanding need. With each donation of a pint of blood, by Paterson State students, The Bergen County Blood Bank puts one pint towards Ricky's account. This year especially, donors are needed to aid in the continuing research done toward finding a way to control this hereditary disease. As was the case last year, a portion of Ricky's "credit" will

RICKY HUMMEL

SNEA Partakes In Florida Convention

Three members of the Student New Jersey Education Association attended the Student National Education Association Convention held in Miami Beach, Florida from June 20th to June 28th, 1966. One hundred and thirty-seven students from all over the United States attended the conference entitled "The Challenge of Change."

Dr. Dirck Brown, Associate Secretary of the National Commission of Teacher Education and Professional Standards, asked the students to recognize the substantial role they have in influencing the direction of education in this country and to accept the challenge that it presents. Other keynote speakers were: Gertrude Noar, Author of a book entitled, *The Teacher and Integration*; Warren Hill, President, Trenton State College and Chairman of NCTEPS; Don Davies, Executive Secretary, NCTEPS; Herbert H'te, Professor of Education, Washington State University; Edward D. Eddy, President, Chatham College Pitts-burgh, Pennsylvania; and the Honorable Charles Lonstreet Weltner, Congressman from Georgia, and author of *South-erner*.

Committee work and seminar meetings were an important part of the convention schedule. Most of the ideas and ground work for the events of the coming year were initially begun there.

The three New Jersey participants were: Samuel Marinox Vice President, SNJEA, from Jersey City State College; Ruth Nolder, Secretary, SNJEA, from Paterson State College; and James Murray Treasurer, SNJEA, from Montclair State College.

Aid Offered To 1967 Seniors

Applications for the Danforth Graduate Fellowships for 1967-1968 are now available to seniors and recent graduates of PSC.

Established in 1951, the program aims at providing personal encouragement and financial support to college seniors and graduates who seek to become college teachers. Applicants may not have undertaken any less than thirty years of age at the time of application, and may not have under taken any graduate or professional study beyond the baccalaureate.

Special attention is given to three areas in considering candidates for Fellowships: 1. Evidence of intellectual power which is flexible and of wide range; of academic achievement which is a thorough foundation for graduate study. 2. Evidence of personal characteristics which are likely to contribute to effective teaching and to constructive relationships with students. 3. Evidence of concerns which range beyond self-interest and narrow perspective and which take seriously the questions with which religious expressions attempt to deal.

Candidates for appointment to the Fellowship should see Dr. Paul Vouras, special Liaison Officer for the PSC campus, in the Social Science Department.

Experimenters Explain International Program

This summer's student experiments are meeting with interested students and faculty on Tuesday, October 11, in the Center for the Performing Arts. The purpose of this meeting is to present to the students first hand information on the Experiment in International Living and to extend application to interested and qualified students.

This past summer, Paterson State sponsored five students in the experiment. Tom Seiz visited Sweden, Richard Sacks visited Austria, Geri Trovato resided in Italy while, Jean Schell spent the summer in Nigeria. Arlene Hamlett who will be the coordinator of the program spent the summer in Canada. Each of the five experimenters will be showing slides and costumes relating to their audience some of the interesting and unforgettable experiences they have had during their various homestays. Each of the experimenters will attempt to bring to the students some of the significance of the program.

Applications will be given out to those students desiring to apply for the Experiment in

International Living during the Summer of 1967.

In addition a showcase with exhibits of the various countries will be available in Hunziker Hall.

The meeting is scheduled for 7:30 p.m. and is open to all.

Prof. Addresses Senate Committee

During this past summer, the Ad Hoc Committee headed by Dr. Edward Ward, met to review the S - 434 Education bill which was formulated by the Paterson State Faculty Association. Dr. Ward addressed the State Senate Education Committee to suggest changes in the S-434 bill.

Supported by Senator Fildman and Governor Hughes, the bill offers changes which according to Dr. Ward will help to enable the S - 434 to "make our institutions of Higher Education as strong as possible." Dr. Ward spoke of changes to provide faculty and administrators with local autonomy, each with their role of participating in decision-making and long range planning. Another change presented by the PSC Faculty Association was to assign fiscal autonomy to each state college. Other recommendations were to institute a single salary schedule for all state supported institutions of higher learning; and to increase the representatives on the Board of Higher Education for State Colleges.

Governor Hughes, pleased by the work of the College's Faculty had this to say in regard to the work done concerning amendments: "this confirms my belief that the bill would be improved to consultation with those who have best working knowledge of the work of our State Colleges - our State College Faculty."

**ATTENTION
COMMUTING STUDENTS**
Bus line 66-88 will run an additional bus from Pompton Lakes at 7:05 a.m. and Retzer Road 7:15 a.m. The bus arrives at the college at 7:30 a.m.

Cafe To Open New Snack Bar

Beginning Monday, October 3, the Wayne Hall Food Service Building will be open from 8:00 a.m. to 3:30 p.m. for the purpose of providing additional Snack Bar space for the students.

The College and the Slater Food Service Company have worked out a plan whereby one section of the student dining hall space will be used as a Snack Bar. It has been decided to designate the number 3 area closest to the faculty dining room as the area for the Snack Bar. For lunch, both lines will be open; however, from 8:00 a.m. to 10:30 a.m., one line will be open and such items as coffee, cake, rolls, desserts and cold sandwiches will be served.

In view of the crowded conditions, the existing Snack Bar, in the College Center, will also remain open and this facility should be used by those who wish soda fountain items and grilled items which will not be available in the Food Service Building.

It is hoped that many students will take advantage of the Snack Bar in Wayne Hall, thereby alleviating the crowded condition in the College Center. We express our appreciation to the Slater Food Service for helping the College in finding a solution to this problem.

We hope that we can receive the full cooperation of the student body in such matters as bussing tables so that Snack Bar operation in both buildings will be presentable. Up to this time the crowded conditions have made it difficult to maintain a presentable facility.

**Attention: Ricky Hummel
Donors**

1. You should not eat fatty foods four hours prior to your appointment. It is suggested that you take only black coffee and toast (with jelly).
2. Donors will not be accepted if they have contracted in the past malaria, jaundice, or hepatitis.
3. Those who have had mononucleosis within the past three years will not be accepted.

Notes: This year we are fortunate to have 5 technicians and 12 tables. You should donate at the time of your appointment.

Fellowships Taxable In Some Instances

Fellowships are grants made to graduate students at colleges or universities. Like scholarships granted to undergraduates, not fellowships are exempt from Federal Income Tax.

However, according to Joseph M Sholz, District Director of Internal Revenue for New Jersey, there are our major exceptions to this general rule:

1. Any portion of a fellowship grant which represents compensation for teaching, research, or other services in the nature of part time employment is taxable income unless such work is required of all candidates for a particular graduate degree.
2. Grants made to enable a student to pursue studies or research primarily for the benefit of the grant do not qualify as fellowship grants. They are taxable income to the recipient.
3. Grants which are compensation for past or future services are not fellowship grants. They must be reported as taxable income.
4. Payment made to a student for services performed on a research project for which the school is being paid is taxable income to the student.
5. Grants made to graduate students under Title IV of the Nat-

Editorial

The average American student hardly ever gives the many physical aspects of his life any thought. Yet they are of prime importance to his life.

Did you ever run a race, roller skate, play football, basketball or baseball? I am sure that many of you have participated in these events at one time or another. I am also sure that many of us never realize it is because we are able to do these things, because we are in good health.

Ricky Hummel cannot play basketball or baseball. Ricky, unfortunately, is prevented from engaging in these active pastimes because he is a hemophilic. As a "bleeder," Ricky cannot afford a bruise or fall because they could lead to the serious complication of internal bleeding. Such complications require frequent trips, and often stays in the hospital and numerous blood transfusions.

The Junior Class, following a student tradition, is asking every eligible person on campus to give five minutes of his time and one pint of his blood so that each time Ricky is in need of this lifesaver, it will be readily available. Every pint of blood is a valuable contribution because for each pint donated, one pint is put towards Ricky's credit. Ricky requests your help not only for himself but as an aid to researchers who work toward a medical control of this hereditary illness.

Recently someone told me that they hesitated in giving blood because of the anticipated pain. Well there isn't any pain. Even if there were, a small thing like that shouldn't be a hindrance. What these people should be thinking of is the help that their contribution will be giving.

Don't sit back and feel sorry for Ricky Hummel. He doesn't want your sympathy; he doesn't need your sympathy. He needs blood. On October 4, give just a little of your time and a little of yourself to Ricky.

R.H.

From Your SGA Office

by Jim Lawther

This year the Student Government Association is getting an early start with the problems facing the PSC student.

Already, we have allocated funds to improve the quality of our campus publications by sending members of the BEACON and PIONEER staffs to conferences in their respective areas.

The New Campus Ticket Agency is now open as a joint effort of the Student Co-op, English Department, and the SGA.

Aside from these allocations, the SGA has been snowed under with complaints about the parking situation and the computer registration. In dealing with these problems, we have been channeling each complaint into the proper place for its solution. The parking problem cannot be solved in one or two weeks, but it has, through the SGA and other student groups, such as the BEACON, been brought to the attention of the proper administrative officials. The present construction near the "air strip" should be an indication of the fact that the problem is realized and answers to the problems are being sought. The second major complaint is the computer schedules; they are here to stay. (And about the mistakes; did you ever do anything perfectly the first try?)

As for the rest of the year, the future is bright. We plan a fuller social schedule; more personal contact between the SGA and the students they represent; several campus projects; and an extension of the Jimmy Thorland Scholarship Fund; These are just a few of our programs.

If you have any ideas that you feel will be beneficial to the student body in the coming year, please stop or leave a note at the S.G.A. office on the second floor of the college center.

SCULLY STUDY LECTURES

(repeated four times)

Oct. 3	4:30	SI01
Oct. 4	4:30	SI01
Oct. 5	4:30	SI01
Oct. 6	4:30	SI01

How to Study

Oct. 10	4:30	SI01

Do not attend the second lecture if the first lecture has not been attended. All students are welcome.

ATTENTION ALL JUNIORS AND SENIORS

The following meetings are required of all juniors going out on Practicum Oct. 10, Tuesday October 4 KP-GE-MR majors (A-L)

3:30 p.m. - Little Theater Thursday October 6 KP-GE-MR majors (M-Z)

3:30 p.m. - Little Theater SENIORS: Miss Alice Meeker will discuss "Organizing the First Day" Thursday Oct. 13 at 2:30 p.m. in the Performing Arts Auditorium.

This meeting is a specific requirement.

Letters to the Editor

Contributions to this column are the opinions of the readers and such are unsolicited. All letters are required to be of a standard that will reflect the best interests of the college. Anonymous letters will not be printed but names will be withheld on request. The Beacon reserves the right to edit all letters.

Dear Editor,

I read your editorial regarding student parking with great interest. You may have noticed that we have already tried one of these ideas, for example, we have designated the unmarked area between Gate 3 and 4 for "Compact Cars." You make mention of a designated area for "Foreign Cars," which is somewhat similar. Incidentally, we have found that the special area for "Compact Cars" is working out quite well and has enabled the parking of more cars.

We are also prepared to park cars on the lower drive leading to the Heating Plant. If a student has no place to park, he may wish to park on this road. If students park on this road, they should park on the west side and the car should be pointed in an exit direction. In view of the backlog of traffic on this road, you can imagine how difficult it would be for cars to turn and attempt to exit at 4:30.

The small stretch between the new parking lot and lot 9 has been marked No Parking, because in the past experience has shown that this is not a good idea. On one side the land drops sharply, and at times tow trucks have been called to pull cars form this spot. There is also so much traffic at this point that a dangerous condition is created if parking is permitted on the east side.

We have been very concerned this year regarding the parking problem. We had asked to have the additional lot completed in time for the opening of College in September. Since we must rely on state funds to build the parking lots, the lots must be constructed in accordance with state procedure. The additional lot will be completed before winter, thus easing the problem at that time. The current problem will be solved in two weeks, in view of the fact that some of the Juniors and Seniors will be going off campus for Junior Practicum and Student Teaching.

I wish to take this opportunity to commend the Freshmen for moving their cars during the rain storm on Wednesday, September 21st. This difficult task was performed during trying conditions.

We are trying to be as reasonable as we can regarding traffic violations in the parking lots in view of the parking shortage. We are hoping that within two weeks the student body will observe the usual parking regulations.

We are continuing to request more parking space for the College. We are doing everything we can to secure next year's allotment early so that the lots will be ready for the opening of College in September.

Sincerely yours, Frank J. Zandino Director of Business Services

The Physical Education Department is in need of a small piano for use in Modern Dance Class.

Dr. DeBaw would appreciate your calling attention to it if you have one which you will donate.

Dear Editor,

I would personally like to thank the Sophomores for a spectacular Kangaroo Kourt and a highly successful dance. Saturday night was a fine example of the kind of activity an organization or class can have when it has good student support.

Also in fairness, a thank you to the class of 68 whose welcome Dance and Kangaroo Kourt served as a fine example to follow. Thanks again to all the Sophs that made Saturday possible.

Bill Masto Soph. Pres.

On The Go

by Laura Jeanne Leger

The coming autumn weather along with the Bronx Zoo make an enjoyable and unique afternoon for college students in the New York Area. Each weekend brings an influx of students photographing and feeding the animals, (and their dates).

Remember how Penguins use to make you laugh? They're still there. A little fatter, but just as funny as ever. You're still permitted to feed the elephants and if you give them candied popcorn they'll let you touch their trunks. A species of giraffes with zebra stripes are a part of the Zoo's recent collection along with the old Camel that use to do the "I Want a Clark Bar" add. Buffalo herds, alligators, snakes from the Far East and of course monkey and Sea Lion cages are all part of the Zoo's sights.

There are two main dining terraces where you can purchase hot meals for about \$1.00 and snack stands are scattered all around the grounds selling hot dogs, popcorn, ice cream, and helium balloons in all colors.

The Bronx Zoo is one of the favorite places of all New Yorkers who are young or just feeling young. It's interesting, with it's history and records of all the animals, amusing with the actions of the animals and people, and refreshing, as it brings you closer to nature. You may even buy a helium balloon at the end of the day.

Please note however, no matter how young and happy you feel, you still can't get into the Nursery Zoo unless you're un-

Fellowships Taxable

(Continued from Page 1)

1958 Defense Education Act of 1958 to assist them in preparing for careers as college teachers are not taxable.

Amounts received by United States citizens for study and research abroad under the Fulbright Act are not taxable but additional amounts received for teaching and lecturing abroad are taxable.

Graduate students who are not candidates for a degree are limited in the amount of a qualified fellowship grant which may be excluded from income but degree candidates have no such restriction.

Fellowship holders who have further questions on the tax status of their grants may have them answered at any Internal Revenue Office.

Halls Initiate New Frosh

Heritage and Pioneer Halls opened their doors to approximately 270 girls this past September 11. Along with the so-called "veterans" came a new group of "pea greens." To make adjustment to dormitory life easier and a little more interesting, both dorms have instituted the "Little Sister" program whereby each sophomore adopts a freshman for the year. Sue Irons was in charge of this program in Heritage Hall and Dolly Tych was Hazing Chairman.

In both dorms the freshmen were put through vigorous hazing programs. Pioneer girls, under the direction of Janet Dualey, newly elected president, briefed the girls on what to expect and presented a skit. These skits were representative of dormitory living. One group satirized the ever growing book store line while another group presented our famous fire drills and the unexpected call of the Matron, "Man on the floor!" The frosh were then given their chance to be hams. Two groups timidly volunteered to reach in a bag filled with various articles, using them to relate a story.

Monday night, September 12, was floor hazing night in Pioneer. The Sophomores on each floor prepared stunts for the freshmen on their floor. Some were embarrassed, some were frightened; others were nervous. The Sophs also ransacked their rooms - short - sheeted the beds, switched drawers, hid pillows, and put vaseline on the door knobs. Both Heritage and Pioneer allowed their host a chance at retaliation. Heritage allowed their girls a 30 minute "turn about" period. Follow... this was an all dorm party.

In Heritage Hall the frosh were introduced to their officers for the year. They are as follows: Betty Joy Beckerleg, Junior G. E. major, President; Judy Ama-

ri, Junior G.E. major, Vice-President; Sue Pence, Sophomore G.E. major, Secretary; Carol Specht, Sophomore K.P. major, Treasurer; Barbara Mazurksi, Junior K.P. major, Activities Chairman; and Jean Ann Dunn, Sophomore G.E. major, Mixer Chairman.

Heritage's two apartments will be occupied this year by Miss Cuniff, Residence Hall Nurse, and Miss Kievit, residence Hall Counselor who is also a member of the Business Office.

Both halls wish their girls a pleasant and profitable year.

Young Boys

(Continued from Page 1)

be put toward this important work

As future teachers and faculty you should not shun your responsibility towards this type of individual. Your help is needed because human donors are the only aid Ricky can use to help him live a normal teenage existence. Blood recognizes no race, religion or nationality. It seeks only to fill the requirement of a young boy who fights to control the pain and temporary crippling that a severe loss of blood can cause.

If you can possibly give blood do so, for it is most important that the donor be in good physical health. Each donor will be given a physical examination by the attending physician prior to your donation. Potential donors, under twenty-one must fill out and return signed a permission slip for parental consent. After having completed the necessary form you will be assigned a time at which to appear on Tuesday, October 4. Any questions concerning the drive can be answered at the College Center.

If you aren't already a donor it isn't too late, wear a "I am a Ricky Hummel Donor" sticker on October 4th.

On Tuesday, October 4, the English Club will present, The Importance of Being Earnest in Room 101 of the science wing at 7:30 p.m.

This film version of Oscar Wilde's "Trivial Comedy for Serious People" stars Michael Redgrave, Joan Greenwood, and Dame Edith Evans. A condensation of Wilde's views on morals, manners, and authority in Victorian England, The Importance of Being Earnest is a "first rate comedy hit."

All the English Club members were present at the play, which was a success.

Registration adviser is due in the Registrar's office on Friday, October 3. Please by 10:00 a.m. on that date.

Soccer Home Opener Tomorrow

Hosts Monmouth at 11:00

The Paterson State College soccer team, fresh off a tie with Bloomfield, will face the Monmouth College Hawks at 11:00 on the freshly mowed soccer field. All preliminary signs point to a real battle as the Pioneers will be seeking revenge for the 2-2 tie slapped on them by the Hawks last year at Monmouth.

Leading a potentially high-scoring juggernaut offense will be Stan Bavaro, Ken Medaska, and Bill Myatt. Playmakers Hank Saxon, Tony Benevento, and Steve Kasynenko hope to pile up numerous assists as they try to feed the ball to the speedy halfbacks, Tom DeStefano will be working in the Pio-

neer nets and will rely heavily on defencemen Al Corab, and Joe Pasquariello for protection. A few other key players to watch include Rich Furlong, John Bielik, Norm Binder.

A large turnout is expected for tomorrow's clash, and the entire student body is urged to witness what many observers feel to be the finest Paterson State Soccer team ever assembled on one field. Come on out and watch soccer as it was meant to be played by a group of men who know how to play it.

WRA Announces Successful Tea

On Tuesday, September 20, the Women's Recreation Association held its annual opening tea. President Carol Titus presided over the meeting. The new officers who were introduced included Connie Trifletti, vice-president; Cheryl Sisto, secretary; Mary Cusack, treasurer; Martha Zachariassen, historian; Donna Shay, points chairman.

New members of the women's physical education staff were also introduced along with the activities of which they are in charge. Offered this fall are bowling, synchronized and competitive swimming, diving, archery, field hockey, modern dance, and apparatus and tumbling. A riding club may be started if there are enough interested students. Along with weekly sessions, intercollegiate activities are scheduled.

The WRA is open to all female students at PSC. Beginners and advanced students who wish to participate in any of the above activities are welcome. For further information notices will be posted on the WRA bulletin board in the womens gymnasium.

Quote of the Week

"When I came up to bat in Yankee Stadium, there would be 64,000, 65,000 people. I burned to hit the ball. I just had to be the best. Three days later, out in St. Louis playing against the Browns, there'd be 250 people in the seats. I burned to hit the ball, because I always thought there'd be four kids in the stands who had never seen me hit the ore." This is the mark of a champion, to be the best that he can be at every occasion.

URGENT

The PSC Kilties Color guard urgently needs an advisor. Any full time faculty member who is interested please contact Coach Baker, Linda Hartwick, or any member of the Color Guard as soon as possible. Only one hour a week of your time is asked.

Harriers Face Tough Opener

The Paterson State cross-country team, after nearly a week of running in the mud and rain, is looking eagerly ahead to Thursday's opening dual meet of the season against St. Peter's College of Jersey City. The Peacocks have a strong team composed of several returning veterans back from the squad that inflicted a six point loss on the Pioneers last year.

Practice sessions have been running less than smoothly for the harriers, who pattern the elements and the rugged PSC course last week in trying to work into shape for the opener. On one rainy day, while attempting to run the course backward for a change in routine, Ron Schoppert and Al Paganelli took several wrong turns and finally ended up near the mouth of the Colorado River. Bob Moore did a "Johnny Weismuller" off a good size boulder and executed a perfect jack-knife into a cold brook. And poor Bob McCann, with no one left to follow, played "chutes and ladders" by himself as he tried to negotiate his way through the unfriendly jungle.

However, things are looking up for our harriers as Coach Baker has recruited two more roadrunners to fill out the squad. They include Dan De Naci, and Bill Maratro. Both are coming along surprisingly fast and will be a definite factor in determining how the season will go for State.

It will be a tough test for our men to pass on a foreign course next Thursday. In fact, they might even lose. But if the Peacock thinks that all he has to do is show his colorful fan to down our boys, he might just get a plucking that he will never forget.

Tennis News

The Paterson State College Tennis Club has permission to use the four clay courts at the Rock Spring Club of West Orange on Mondays from 4:00 p.m. until dark. The directions to the Rock Spring Club from PSC are:

Take Ratzer Road to Route 23; Route 23 South becomes Prospect Avenue. Continue on Prospect Avenue South until it hits Northfield Avenue. Turn left on Northfield, then immediately turn right on Rock Spring Road which ends in the club parking lot. The courts and tennis shop are immediately on the right.

Forget that hometown football game tomorrow. Let's all come out to be our powerful soccer team as Coach Myer's squad takes on the Harriers of Monmouth College at 11:00.

Cheerleaders Recruit New Squad Members

The Varsity Cheerleaders will be out in full force in the coming weeks to recruit new members to their award-winning squad. This year is the all important one for the girls.

For the past six years Paterson State College has participated in the Metropolitan Inter-Collegiate Cheerleading Competition with the numerous colleges in the New York, New Jersey area. Our cheerleaders have won first place five years out of six. Any participating school who wins the title for three consecutive years retires a trophy.

Paterson State College in 1963 retired the first Metropolitan Inter-Collegiate trophy given. Another win this year will mean a third consecutive win again and another trophy for our school.

The cheerleaders wish to announce that a series of practices will be held on October 4th, 5th, and 11th from 6:30-9 p.m. These practices will serve as a preparation for tryouts on October 13th. There will be ten positions open on the Junior Varsity squad and six on the Varsity squad.

Five Varsity Cheerleaders are returning this year: Captain Cheryl Ladika, senior; Co-Captain Hazel Dentor, senior; Lorraine Magnone, senior; Eileen Cassidy, junior; Rosemary Riordan, junior; and Loretta Wilson, sophomore.

All interested girls are urged to "muster" up their school spirit and come on out for one of those exciting positions.

RON SCHOPPERT

"You can't keep a good man down" is how the saying goes. In the case of Ron Schoppert, he has never been a loser. Captain of the 1966 Cross-Country team, he hopes to extend records. A graduate of Passaic Valley High School, Ron, and his brother Ed, led the Passaic Valley Harriers to two State Championships while becoming one of the state's top trackers.

Ron came to PSC when great rebuilding of the team was taking place. He, along with such great runners as Dierzawiec, Cliff Williams, Bill Hagman formed a nucleus that compiled a record.

Last year Ron sparked the harrier squad to a 10-3 log. The Beacon wishes to congratulate Ron on his election as captain of the 1966 cross-country team and give him and his teammates the best wishes for a successful campaign.

Pick Of The Week

SOCCKER

Saturday, October 1, Home, 11:00

Paterson State 3, Monmouth College 1

Pioneers, after a tie with Bloomfield College, will shut down the Hawks in this home opener for the Black and Orange.

Wednesday, October 5, Home, 3:30

Paterson State 4, Marist College 1

Marist is no match for the Pioneer soccer machine which should make it two in a row at the expense of the visitors.

CROSS COUNTRY

Thursday, October 5, Away, 4:30

St. Peter's College over Paterson State

Coach Baker's men are coming along fast but will face a tough hand of Peacocks at a foreign course. The Pioneer depth question will be answered after this race.

Students, faculty, administrators, and alumni of Paterson State are invited to join the Tennis Club in using the facilities at the Rock Spring Club on Mondays at 4:00 p.m. Instructions will be given by Dr. Fitzatt. Anyone wishing to participate or for more information may call Stan or extension 517 or see him in his office in the Art Department.
