DEDICATION

"I live not in myself, but I become Portion of that around me."
— BYRON

In a college society change cannot take place unless people are willing to involve themselves in its development and become one with it. Change means sacrifice, and sacrifice means involvement, but with this is brought the satisfaction that the successful effects of the effort will remain forever in the finished product.

The Class of 1967 wishes to dedicate this yearbook to a person who has given

much of his free time, pleasant smile, and willing hand to make every project and activity more successful than it had been previously. The change that he has helped to bring about is special because he is a part of it. For this reason, we dedicate this yearbook to Dr. Annacone, our class advisor, a man who is a portion of the four successful years we have spent here.

Class of 1967

DR. KENNETH B. WHITE
Dean of the College

I extend congratulations to the members of the graduating class and wish for each one of you lasting satisfaction in your professional career. It is my hope that all of you will maintain your concern for children and young people, your devotion to teaching and learning, and your loyalty to the college which has prepared you for a leadership role in the school and community.

PROLOGUE

There was a time when Paterson State College was an intimate school of only a few hundred students. A provincial air surrounded the college then. It seemed as if a few buildings were scattered amidst acres of trees and mountains. Things are different now. New buildings are mushrooming up everywhere. Paterson State College is quickly changing into a big city campus made up of concrete and steel. The intimate air has been dispelled with the coming of the I.B.M. machines.

The obvious physical change is but a small part of the revolution at Paterson State. New curricula such as music, liberal arts and nursing are being developed. In fact, the objectives of Paterson State are changing. It is now no longer merely a teachers' college. It is on the road to becoming a diversified university.

We cannot mourn over the change that is occurring here, for Paterson State College is a living entity. Like us, it cannot remain static. It must change in order to survive in the mainstream of American life. We can only hope that amidst this overwhelming change, Paterson State will not lose sight of those universal ideals which alone remain immutable.

THE OUTSTANDING SENIOR AWARDS

JUDITH BOGGIO

For all-around usefulness to her class and to the college as an enthusiastic and participating student. In her sophomore year, Judy served as class treasurer, was on the Eastern States Council, participated in the Leadership Laboratory, and worked on the Coronation Ball committee. In her junior year she was Student Government treasurer as well as finance committee chairman. She was also treasurer of the Student Cooperative Association. It is no wonder that she was also selected for membership in Who's Who in American Universities and Colleges.

DONALD SQUIER

For superb scholarship, especially in the field of his major, mathematics, and for using his special gifts to the good of his class and the college. Don served the Math Club as vice-president (sophomore year), president (junior year), and again as vice-president (senior year). He was president of the Student Cooperative Association during his senior year, and as such was a member of the College Development Board. He was invited into membership in Kappa Delta Pi in his sophomore year, and was treasurer of the organization in his senior year. He was chosen for Who's Who in American Universities and Colleges. Don was selected as one of the first students to participate in an independent study project—the study of linear algebra.

Advisor: Dr. Herbert Ellis
President: Judith Warnet
Vice President: Marilyn Rapp
Secretary: Kathy Hardiman
Treasurer: Donald Squier
Recording Secretary: Judy Wollak

Kappa Delta Pi is a national honor fraternity which encourages high standards and scholarship in the field of education.
