Dr. Seymour Hyman, President
William Paterson College of N.J.
Wayne, New Jersey 07470

Dear Dr. Hyman:

When I visited the College recently you asked me to suggest some architects who might be especially well qualified to do a study for the College on the feasibility of restoring Hobart Hall. I apologize for the delay in responding. Listed below are three architects which have considerable experience in restoration work.

Charles H. Detwiller, Jr.
120 Depot Park
Plainfield, New Jersey 07060
Phone 201-756-7406

David M. Pease
861 Sebring Avenue
Bound Brook, N.J. 08805
Phone 201-359-3131

Short & Ford Architects
RD 4, Box 864
Mapleton Road
Princeton, N.J. 08540
Phone 609-452-1777

I have not personally worked with Mr. Detwiller and know of him only by reputation.

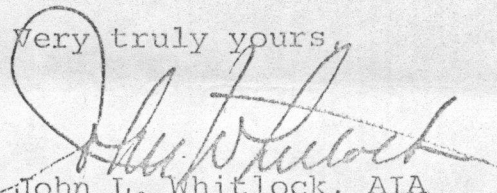

Mr. Pease was the architect in charge of a recent project to construct living quarters for Chancellor Hollander at Drumthwacket in Princeton. The job appears to be quite

successful in that modern accommodations have been provided in a semi-historical mansion without altering the character of the building.

Short & Ford have a well established reputation in and out of New Jersey for this kind of work.

I hope this information will be useful and that you will feel free to call on me for any assistance you may need in the future.

Very truly yours,

John L. Whitlock, AIA
Director

Office of Facilities Planning
and Construction
