Re: Hobart Manor Restoration Committee

Dear Mary Ellen:

This is to change my status on the Hobart Restoration Committee. After consideration, I believe that the time that I have available for volunteer work of this nature should be devoted to worthy projects in the city of Paterson. There are a number of programs I'm currently involved in, and a few I would like to add. However, because of my regard for you, Arnie and what you are trying to accomplish for William Paterson College, I would be willing to participate on a limited basis, i. e. some specific assignment.

To help you get the ball rolling, Alison and I would like to make a contribution to your general fund, and with it go our best wishes for your success.

Sincerely,

Donald Lynch, CLU MBA
