Dr. Wightman Inspects a Prospective Classroom

PRESENT PLANS of the State Board of Education call for the alteration of the Hobart Mansion into administrative offices, a library, browsing rooms, and a number of classrooms. Here Dr. Clair S. Wightman, president of the Paterson State Teachers College, inspects a large room, complete with fireplace, which will be utilized for a classroom. The room is a former bedroom. A suggestion by a reporter that the room has still not seen the last of sleeping occupants brought a smile to the face of the college prexy.

ONE OF several store terraces of the Hobart Mansion, this beauty spot leads directly into what will be the main office. The terrace overlooks the rolling lawns and flower beds which will become the campus of the new Paterson State Teachers College. Prospective students, awaiting admission in the college, will one day in the near future, have a pleasant waiting-room (weather permitting) to pass the time until the registrar is free to see them.

40-Room Mansion Makes Public Debut

THE 40-ROOM Hobart Mansion, sitting atop Gaede's Hill in Wayne Township will begin its new career as a public institution Thursday when the Paterson State Teachers College, its new owner and future tenant, plays host to the North Jersey conference of the Future Teachers of America. The mansion, which was erected in 1915 by the late Park Commissioner Garret A. Hobert, Jr., is the main building in the 220-acre estate purchased by the State Board of Education last year for \$200,000.

edlege in September, 1950.

The Garret A. Hobart, Jr. Estale, located on Pompton Road in Wayne Township and Haledon, was purchased last year by the State Board of Education for college usage at a cost of \$200,000. Last week, the keys to the estate were turned over to Dr. Wightman. An appropriation of \$1,000,000 has been set aside by the State Legislature, obtained through the effects of former State Senator Charles K. Barton, to bring to reality the dream of Passaic and

first order of business The first order of business at hand, Dr. Wightman said, will be the construction of an additional building, near the mansion, for the housing of more class-rooms. Plans for this building are being drawn up by Architect Lawrence Licht, of Englewood, under the direction of the State Board of Education.

The 48-room mansion will be altered to provide administrative offices, the college library, social and reading rooms, and a humber of class-rooms. In some cases, pressent rooms will be enlarged and joined to create the classrooms.

The Hobart Estate garage will be converted into a cafeteria and smoking room. No plans have been completed for usage of the rooms above the huge garage. During the time the estate was occupied by the Garret A. Hobart, Jr. family, these upper rooms housed the families of three employes. What will be done with the car-riage house, the Gaede Barn, and other smaller buildings on the 220-

acre estate is also still under dis-cussion. Dr. Wightman suggested that art classes might find suitable quarters in the large carriage
