David & Lorraine Cheng Library

WILLIAM PATERSON UNIVERSITY

Cover art and design by WPU student Liam Garcia
with guidance from Professor Matthew Finn.

“Explorations to me is an expedition. To explore the unexplored. Upon doing research I found that Puerto Rico has the largest forest to land ratio, with the forest making up 62% of the Island. El Yunque “The Forest”, is the largest Rain forest on the Island and in the United States. Hurricane Maria destroyed part of the forest in 2017 and since then most of the trail and walkways have been closed due to safety concerns for the tourists and the citizens for the foreseeable future. That being said, I took it for granted. I never had the full experience. If you blink, you miss the beauty around you. It will disappear, in a blink of an eye.”

– *Liam Garcia*

Dear William Paterson University Community,

It is that time of year again, when we celebrate the scholarly achievements of our faculty and staff and relishing in accomplishments that define the fundamentally academic nature of our enterprise, an enterprise dedicated to learning, teaching, and scholarship. For as we prepare the young minds of today for the challenges of tomorrow, we also lay the foundation for the resolution of the challenges of today and tomorrow in the intellectual activities that provide the knowledge, upon which the unique and omnificent institution of the academy depends. 2019, like the years before it, was another productive year with an impressive number of books, book chapters, journal articles, poems, and conference papers. The output continues to define William Paterson University as a leading and active academic environment that continues to be a great environment for training and facilitating the intellectual and professional growth of future experts and leaders.

As an information professional dedicated to the assembly, curation, and dissemination of information and knowledge in fulfillment of the broader societal goal of providing access to humankind's accumulated knowledge by facilitating discovery and enabling the further advancement of knowledge, I am impressed and pleased to see the productivity that has become a hallmark of our institution. I am grateful to the scholars and thinkers among us, who continue to work endlessly to grow that knowledge and bring their intellectual abilities to the education of our students, and improvement of their disciplines. On behalf of the Cheng Library, I would like to thank all our authors and creators for their efforts and accomplishments and to say that Cheng Library is thrilled to be a part of showcasing their accomplishments. I would also like to take the opportunity to thank everyone who worked tirelessly behind the scenes to put this bibliography together, and to the organizers of this yearly event.

Congratulations and thanks are due to the Office of Sponsored Programs, which works on a daily basis to support research, scholarship, and creative efforts at William Paterson University. The leadership of this fine University also deserves praise for the vision and courage to support the activities highlighted by Explorations 2020. This is a proud moment for William Paterson University, as it should be for any reputable institution of higher learning.

Sincerely,

Edward Owusu-Ansah, Ph.D.
