Dear William Paterson University Community,

It is time again to celebrate the scholarly achievements of our faculty and staff in this 2021 volume containing the works of authors who published in the 2020 year. Like their predecessors, these authors continue the fine tradition of producing great scholarship to improve their disciplines and enhance the teaching-learning experience at William Paterson University, even in a year in which the COVID-19 pandemic has brought many challenges to our lives and greatly affected how we do things. The tenacity and scholarly productivity of our scholars and researchers have not abated and we are proud to display in these pages some 14 books, over 240 book chapters and scholarly articles, and published conference proceedings.

As in years past I would like to, on behalf of the Cheng Library, thank our authors for their efforts and accomplishments. In adding to the knowledge that forms the basis of our institutional mission to facilitate knowledge and provide the information that undergirds knowledge acquisition and expansion, they enhance the reputation of William Paterson University and reaffirm its position as a teaching-learning institution with the quality to ensure the highest standards. I would also like to take the opportunity to thank everyone at Cheng Library who helped put this bibliography together.

Congratulations and thanks to the Office of Sponsored Programs for organizing Explorations 2021 in support of research, scholarship, and creative expression at this fine university, and enabling the collection of events and activities of which this bibliography and associated reception are an integral part. Finally, thank you to the leadership of this fine University for the vision and courage to support the activities highlighted by Explorations 2021. This has always been a proud moment for William Paterson University, as it should be for any reputable institution of higher learning. As usual, our 2021 honorees have not disappointed; they have made William Paterson proud again.

Sincerely,

Edward Owusu-Ansah, Ph.D.
Dean of Library Services
