Dear William Paterson University Community,

It is that time of year again when we celebrate the scholarly achievements of our faculty and staff who published works in the 2021 year. This 2022 volume continues a tradition of excellence at William Paterson University, which has not been dampened by the challenges of a pandemic that lasted longer than any of us could have imagined. 14 books, 34 book chapters, and almost 200 articles bear testament to the productivity of our university authors and their undented academic spirit.

On behalf of the Cheng Library, congratulations and many thanks to our authors for their efforts and accomplishments. Their productivity not only enriches the knowledge base that forms the foundation for the education of our students but also enhances the reputation of William Paterson University and affirms its position as a teaching-learning institution with the quality to ensure the highest standards. Thank you to everyone at Cheng Library who supported the creation of this bibliography and helped organize the associated reception to honor our authors.

Congratulations and thanks are also due to the Office of Sponsored Programs for organizing Explorations 2022 in support of research, scholarship, and creative expression at William Paterson University, and for enabling the events and activities of which this bibliography and associated reception are an integral part. Finally, thank you to the leadership of the University for supporting Explorations 2022.

Sincerely,

Edward Owusu-Ansah, Ph.D.
Dean of Library Services
