Dear William Paterson University Community,

It is time again for us to participate in our beloved tradition of celebrating our published authors. In this volume, we celebrate the scholarly achievements of our faculty and staff who published works in the 2022 year. It is a testament to a continued record of scholarly and academic excellence at the University, demonstrated in a broad range of subjects covering the breadth and depth of academic disciplines at this fine institution of higher learning. The 8 books and over 140 book chapters and articles found here are the intellectual output of those who shepherd and support our students on their way to the mastery of disciplinary excellence and acculturation into knowledge, behaviors, and expectations of their areas of learning.

On behalf of the Cheng Library, I congratulate these instructors, experts, and mentors on the mastery of their disciplines and the sharing of knowledge they offer to enrich their various fields and provide critical material for the training of future experts. They have served William Paterson University well and made it proud through their achievements. I would also like to thank my Cheng Library colleagues, who supported the creation of this bibliography and helped organize the associated reception to honor our authors. The reception returns to the library this year, and we are pleased and honored to host it in this sanctuary of knowledge and home to research and discovery.

Congratulations and thanks are also due to the Office of Sponsored Programs and their director, Dr. Anthony Mayo, for organizing Explorations 2023 in support of research, scholarship, and creative expression at William Paterson University. They are the enablers of the events and activities of which this bibliography and associated authors reception are an integral part. Finally, thank you to the leadership of the University, especially to President Richard Helldobler and Senior Vice President for Academic Affairs and Provost Dr. Joshua Powers, for their steadfast support for research, scholarship, and creative expression at William Paterson University, and for making Explorations 2023 possible.

Sincerely,

Edward Owusu-Ansah, Ph.D.  
Dean of Library Services
