An abstract painting of a human face, rendered in vibrant, expressive brushstrokes. The colors are a mix of bright yellow, green, and magenta, set against a dark, textured background. The face is the central focus, with eyes looking slightly to the right. The overall style is reminiscent of modernist or expressionist art.

Dear William Paterson University Community,

It's another year and time again for our cherished tradition of celebrating university authors who contributed to the scholarly productivity and reputation of William Paterson University by publishing significant works in the previous year. This volume contains the articles, book chapters, books, and records of creative expressions published in 2023. The scholarly and academic excellence of our colleagues cover various subjects and disciplines and demonstrate the high caliber of our university as a place for the generation and transfer of knowledge. The 14 books, 30 book chapters, some 92 articles, 4 conference proceedings, 1 technical report, 1 instructional material, and 1 exhibition catalog found in this volume represent products of the intellectual brilliance of those who teach and facilitate the learning of our students on their path to disciplinary and professional excellence.

On behalf of the David and Lorraine Cheng Library, I offer my deepest appreciation and thanks for the performance of these authors, instructors, experts, and mentors. Not only have they demonstrated mastery of the fields they represent, but they have also enriched their fields and contributed to the foundation for training and growth of their disciplines. They serve as worthy mentors for the generation they now support and prepare. They have made us all proud and served our university well. Thank you to my Cheng Library colleagues as well, who support the creation of this bibliography and organize yearly a reception to honor our authors.

Congratulations and thanks are also due to the Office of Sponsored Programs for organizing Explorations 2024 in support of research, scholarship, and creative expression at William Paterson University. They enable the umbrella events and activities of which this bibliography and related authors reception are a part. Finally, thank you to President Richard Helldobler and Senior Vice President for Academic Affairs and Provost Dr. Joshua Powers for their support of our authors and this event. I commend them for their unflinching support for research, scholarship, and creative expression at William Paterson University.

Sincerely,

Edward Owusu-Ansah, Ph.D.
Dean of Library Services
